Survey on MIGRATION AND OWNERSHIP OF LAND BY NON-TRIBALS IN TRIBAL AREAS: NSS 44th Round : July 1988-June 1989

Overview

Type	Socio-Economic/Household Survey
Identification	DDI-IND-MOSPI-NSSO-44Rnd-Sch29dot3-1988-89
Version	Production Date: 2012-10-15 V1.0; Re-organised anonymised dataset for public distribution.
Series	For the purpose of this enquiry, "tribal population" means the members of the Scheduled Tribes declared under the Article 342 of the Constitution of India. They are known to be the descendan6ts of the earliest inhabitants of our country (hence called Adivasis"). At present, in most parts of India, they form one of the economically weakest sections of the society. So far there has not been any systematic study of their living conditions covering the whole country. Whatever data are available are derived from the decennial censuses, apart from some micro studies carried out by social anthropologists. In the NSS the tribal population have always been covered as part of the general population. Separate tables have also been prepared for the scheduled tribe and schedules caste populations in some of these programmes of those rounds were drawn up with the general population in view and so far there had been no enquiry with its focus on the tribal population. In NSS 32nd and 33rd rounds special surveys had been carried out through an integrated schedule (schedule 16.4) in the North-Eastern region. The survey was conducted in the rural areas of the following States:- 32nd round : Arunachal Pradesh, Assam (N. Cachar and Karbi Anglong districts only), Manipur, Meghalaya and Tripura; 33rd round : In addition to the above States, Mizoram also. Even though this covered many aspects specially related to the life of the people of this region (who are mostly tribals), no such survey has so far been undertaken about the life of the tribals living in the main tribal belt stretching from West Bengal through Bihar, Orissa, Madhya Pradesh to Gujarat and Rajasthan.

Abstract

In pursuance of the recommendations made by the Governing Council (G.C.) of the National Sample Survey Organization (NSSO) in its 44th meeting held on 16 January 1987 to undertake a comprehensive survey on the socio-economic conditions of the tribal people in the 44th round (July 1988 - June 1989) of NSS, various schedules of enquiries on the subject were drawn up and tested in the field through a try-out survey. The schedules were discussed in details in the meetings of the Working Groups (W.G) set up by the G.C., NSSO for the NSS 44th round. In the light of the experiences gained through the try-out survey, the schedules of enquiry were finalized by the W.G. and subsequently approved by the G.C. of the NSSO in its 45th meeting held on 29 December 1987.

Wwith a view to studying the problems of land alienation faced by the tribal population due to in-migration of non-tribals in the tribal areas and also to assess the differences in the socio-economic standard of living between the tribals and the non-tribals, a schedule of enquiry (schedule type 29.3) was designed and collected information from the non-tribal households residing in the tribal areas.

Kind of Data	Sample survey data [ssd]
Unit of Analysis	Randomly selectedhousehold and its memebers

Scope & Coverage

Scope

In order to measure the disparity between the tribal and non-tribal households in respect of certain key characteristics and also the extent of displacement of the tribal population from the tribal belts due in-migration of non-tribals, schedule 29.3 was designed to collect information form the non-tribal households residing in the tribal areas. Thus this schedule was canvassed only in the rural sector in the villages of general and special samples falling under stratum type 1 (tribal concentrated stratum).

The particulars collected through this schedule related to in-migration, economic activity, assets and liabilities along with the details about the extent and manner of acquisition and disposal of land by the non-tribals.

Geographic Coverage
The survey covered the whole of Indian Union except Ladakh and Kargil districts of Jammu and Kashmir state. This schedule was canvassed only in the rural sector in the villages

Sampling

Sampling Procedure
Tthe sample design is, as usual, stratified two-stage with the census village as the first stage unit in the rural sector and UFS block as the first stage unit in the urban sector. The second stage units were households for all schedules.The sample design in the rural sector was decided with a view to providing good estimates for the tribal enquiry. Except in the north-eastern region, the tribal population was concentrated in some districts within the states having considerable tribal population and even in those districts they were found to be unevenly distributed geographically. Therefore special stratification and selection procedures were adopted not only to net sufficient number of tribal households in the sample but also to improve the design in general for the tribal enquiry.

Sampling frame of villages: The list of 1981 census villages constitute the sampling frame for selection of villages in most districts. However in Assam (where '81 census was not done) and a few districts of some other states (where the available lists of villages were not satisfactory), 1971 census village lists were used as frame.

Stratification : In Haryana, Jammu & Kashmir, Punjab, Chandigarh, Delhi, Goa, Daman & Diu and Pondicherry where there were practically no tribal population, the strata used in NSS 43rd round were retained. In Meghalaya, Mizoram, Nagaland, Arunachal Pradesh, Sikkim, Dadra and Nagar Haveli and Lakshadweep also the strata of 43rd round were retained because of the high percentage of ST. population in these States/U.T.'s. (The strata of 43rd round have been retained in the case of Sikkim as the distribution of tribal population is more or less uniform over all the districts).In the remaining states fresh stratification was carried out as described below.

In these states all districts accounting for the bulk of the states's tribal population were selected for formation of strata with concentration of tribal population. Besides these districts, tribal concentration strata were demarcated also in some other districts with relatively small tribal population in order to ensure coverage of as many different ethnic groups as possible.

Within each district so identified for formation of tribal concentration strata, , the tehsils with relatively high concentration of tribal population, together constituted one stratum. These tehsils were selectd in such a way that together they accounted for the bulk (70% or more) of the district tribal population and the proportion of tribal to total population and the proportion of tribal to total population in this stratum was significantly greater than that of the district as a whole. The strata so formed were not always geographically contiguous. These tribal concentration strata are called STRATUM TYPE -1. Further, all the strata of Meghalaya, Mizoram, Nagaland, Arunachal Pradesh, Dadra & Nagar Haveli, Lakshdweep and Sikkim are also considered as stratum type-1. All the remaining strata in the rural sector (in any State/U.T.) were called stratum type -2.

General and special sample villages : There were two types of sample villages in this round. The first type was the general sample in which all enquiries were carried out. The second type was designated as "special sample villages" in which only schedules 3.1, 29.1, 29.2 and 29.3 were canvassed. The special sampleswere intended for augmenting the general sample for the tribal enquiry. These special sample villages were selected only from the tribal concentration strata (stratum type 1) of the 16 States and the U.T. OF Andaman & Nicobar Islands 1) of 16 States and the U.T. of Andaman & Nicobar Islands. There were no special sample villages in the remaining States/U.T.'s. The special samples were called sample type-1 and the general samples, sample type-2.

Schedule type 29.3 was canvassed in the general and special sample villages to tribal strata only. Four households were selected from the frame of non-scheduled tribe households in each of the villages of stratum type 1. In large special sample villages, the distribution of sample households was 2 each from area type 1 and area type 2, Schedule 29.3 was not be canvassed in the urban sector.

Detailed procedures of samp[ling may be seen in INSTRUCTIONS TO FIELD STAFF : VOLUME I attached as external resource.

Deviations from Sample Design
There was no deviation from the original sample deviation.

Weighting
Sample weights were NOT included in each of the data files

Data Collection

Data Collection Mode	Face-to-face [f2f]

Data Collection Notes
The survey period of the round was divided into four sub-rounds of 3 months each as follows:-

sub-round number period

1 July - September 1988
2 October- December 1988
3 January- March 1989
4 April - June 1989

Equal number of sample villages and block were allocated for survey in each of these sub-rounds. Each village and block was surveyed during the sub-round to which it has been allotted.

Questionnaires
Schedule 29.3 consisted of the following blocks :

Block 1 : identification of sample household
Block 2 : particulars of field operations

Block 3 : remarks by investigator
Block 4 : remarks by supervisory officer (s)
Block 5 : household characteristics
Block 6 : demographic and migration particulars of household members
Block 7 : usual and current week activity particulars
Block 8 : particulars of land owned and possessed activity on the date of survey
Block 9 : particulars of disposal of land during last 5 years
Block 10 : inventory of assets owned on the date of survey.
Block 11 : particulars of cash dues and grain & other commodity dues payable by the household on the date of survey and transaction of loans during last 365 days.

Data Collector(s)	Field Operations Division of Naional Sample Survey Office (NSSO(FOD)) , Ministry of Statistics and Programme Implementation

Accessibility

Access Authority	Computer Centre (M/O Statistics and Programme Implementation) , http://mospi.nic.in/Mospi_New/site/home.aspx , nssodata@gmail.com
Contact(s)	ADG, SDRD , NSSO (M/O Statistics & PI, G/O India) , http://mospi.gov.in/ DDG, Computer Centre (Ministry of Statistics and Programme Implementation) , http://mospi.nic.in/Mospi_New/site/home.aspx

Access Conditions
Validated unit level data relating to various survey rounds are available on CD-ROMS which can be obtained from the Deputy Director General, Computer Centre, M/O Statistics and PI, East Block No. 10 R.K. Puram, New Delhi-110066 by remitting the price along with packaging and postal charges as well as giving an undertaking duly signed in a specified format.The amount is to be remitted by way of demand draft drawn in favour of Pay & Accounts Officer, Ministry of Statistics & Programme Implementation, payable at New Delhi.

Block-5-Household characteristics-records

# Cases	10056
# Variable(s)	26
File Structure	Type: relational Key(s): key (Key to locate hhold)
File Content This dataset contains information on some socio-economic characteristics of the sample household	
Producer NSSO	

Block-6-Demographic and migration particulars-records

# Cases	49230
# Variable(s)	29
File Structure	Type: relational Key(s): Key_membno (Key to locate member) , Key_hhno (Key to locate Hhold)
File Content This dataset contains the demographic personal characteristics and migration particulars of all the normal members of the household,	
Producer NSSO	

Block-7-activity particulars-records

# Cases	48946
# Variable(s)	30
File Structure	Type: relational Key(s): key_membno (Key to locate member) , key_hhno (Key to Hhold)
File Content This dataset contains the usual as well as current activity status particulars of all the normal members of the household listed in dataset of block 6	
Producer	

NSSO

Block-8-of land owned and possessed-records

# Cases	21311
# Variable(s)	33
File Structure	Type: relational Key(s): Key_membno (Key bto locate member) , Key_hhno (Key to locate hhold)

File Content
This dataset contains information on the ownership and possession of land by the normal members of the
 household on the date of survey.

Producer
NSSO

Block-9-disposal of land-records

# Cases	428
# Variable(s)	27
File Structure	Type: relational Key(s): key_plot_no (key to locate plot number) , key_hhno (key to locate hhold)

File Content
Content of this dataset is information in regard to the disposal of land by the household during last 5 years

Producer

Variables Description

Dataset contains219 variable(s)

File Block-1-Identification of sample household-records

#1 key: Key to locate hhold

Information	[Type= discrete] [Format=character] [Missing=*]
Statistics [NW/ W]	[Valid=10056 /-] [Invalid=0 /-]

#2 Rec_id: Record identifier

Information	[Type= discrete] [Format=character] [Missing=*]
Statistics [NW/ W]	[Valid=10056 /-] [Invalid=0 /-]

Value	Label	Cases	Percentage	
01	Block-1 of schedule	10056		100.0%

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

#3 Round_Schedule: Round & Schedule Code

Information	[Type= discrete] [Format=character] [Missing=*]
Statistics [NW/ W]	[Valid=10056 /-] [Invalid=0 /-]

Value	Label	Cases	Percentage	
443	NSS 44th Round Schedule 29.3	10056		100.0%

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

#4 Sector: Sector

Information	[Type= discrete] [Format=character] [Missing=*]
Statistics [NW/ W]	[Valid=10056 /-] [Invalid=0 /-]

Value	Label	Cases	Percentage	
1	Rural	10056		100.0%
2	Urban	0	0.0%	

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

#5 Stratum_type: Stratum type

Information	[Type= discrete] [Format=character] [Missing=*]
Statistics [NW/ W]	[Valid=10056 /-] [Invalid=0 /-]

Value	Label	Cases	Percentage	
1		10048		99.9%
2		8	0.1%	

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

#6 Sub_Round: Sub-Round

Information	[Type= discrete] [Format=character] [Missing=*]
Statistics [NW/ W]	[Valid=10056 /-] [Invalid=0 /-]

Value	Label	Cases	Percentage	
1	Sub-round-1	2535		25.2%
2	Sub-round-2	2560		25.5%
3	Sub-round-3	2509		25.0%
4	Sub-round-4	2452		24.4%

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

File Block-1-Identification of sample household-records

#7 Sub_sample: Sub-sample

Information	[Type= discrete] [Format=character] [Missing=*]
Statistics [NW/ W]	[Valid=10056 /-] [Invalid=0 /-]

Value	Label	Cases	Percentage	
1	Sub-sample-1	5099		50.7%
2	Sub-sample-2	4957		49.3%

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

#8 State_Region: State-Region

Information	[Type= discrete] [Format=character] [Missing=*]
Statistics [NW/ W]	[Valid=10056 /-] [Invalid=0 /-]

Frequency table not shown (57 Modalities)

#9 State: State code

Information	[Type= discrete] [Format=character] [Missing=*]
Statistics [NW/ W]	[Valid=10056 /-] [Invalid=0 /-]

Frequency table not shown (32 Modalities)

#10 Sample_Type: Sample Type

Information	[Type= discrete] [Format=character] [Missing=*]
Statistics [NW/ W]	[Valid=10056 /-] [Invalid=0 /-]

Value	Label	Cases	Percentage	
1	Special	3716	37.0%	
2	General	6340		63.0%

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

#11 Stratum: Stratum

Information	[Type= discrete] [Format=character] [Missing=*]
Statistics [NW/ W]	[Valid=10056 /-] [Invalid=0 /-]

Frequency table not shown (77 Modalities)

#12 Sub_Stratum: Sub-Stratum

Information	[Type= discrete] [Format=character] [Missing=*]
Statistics [NW/ W]	[Valid=10056 /-] [Invalid=0 /-]

Value	Label	Cases	Percentage	
9		10056		100.0%

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

#13 FSU: S.No of village/block

Information	[Type= discrete] [Format=character] [Missing=*]
Statistics [NW/ W]	[Valid=10056 /-] [Invalid=0 /-]

#14 Area_type: Area type

Information	[Type= discrete] [Format=character] [Missing=*]
Statistics [NW/ W]	[Valid=10056 /-] [Invalid=0 /-]

Value	Label	Cases	Percentage	
1	Tribal Majority hamlet	540	5.4%	

File Block-1-Identification of sample household-records

#14 Area_type: Area type

Value	Label	Cases	Percentage
2	Other hamlet group	9516	94.6%

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

#15 Samplehhno: Sample hh no.

Information	[Type= discrete] [Format=character] [Missing=*]
Statistics [NW/ W]	[Valid=10056 /-] [Invalid=0 /-]

Value	Label	Cases	Percentage
1		2844	28.3%
2		2750	27.3%
3		2250	22.4%
4		2212	22.0%

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

#16 Village_Type: Village Type

Information	[Type= discrete] [Format=character] [Missing=*]
Statistics [NW/ W]	[Valid=10042 /-] [Invalid=0 /-]

Value	Label	Cases	Percentage
1	Tribal majority	3134	31.2%
2	Others	6905	68.8%
9	Invalid	3	0.0%

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

#17 B1_26: Informant (Code)

Information	[Type= discrete] [Format=character] [Missing=*]
Statistics [NW/ W]	[Valid=10053 /-] [Invalid=0 /-]

Value	Label	Cases	Percentage
0	NR	1	0.0%
1	owner/partner	7794	77.5%
2	manager	2025	20.1%
8	Invalid	2	0.0%
9	others working in the enterprise	231	2.3%

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

#18 B1_27: Response (Code)

Information	[Type= discrete] [Format=character] [Missing=*]
Statistics [NW/ W]	[Valid=10052 /-] [Invalid=0 /-]

Value	Label	Cases	Percentage
0	NR	1	0.0%
1	informant : co-operative and capable	7588	75.5%
2	co-operative but not capable	2301	22.9%
3	busy	89	0.9%
4	reluctant	56	0.6%
9	others	17	0.2%

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

File Block-1-Identification of sample household-records

#19 B1_28: Survey (Code)

Information	[Type= discrete] [Format=character] [Missing=*]
Statistics [NW/ W]	[Valid=10056 /-] [Invalid=0 /-]

Value	Label	Cases	Percentage
1	original enterprise surveyed	9938	98.8%
2	substitute surveyed	118	1.2%
3	casualty	0	0.0%

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

#20 B1_29: Casuality (Code)

Information	[Type= discrete] [Format=character] [Missing=*]
Statistics [NW/ W]	[Valid=132 /-] [Invalid=0 /-]

Value	Label	Cases	Percentage
0	NR	6	4.5%
1	Informant busy	30	22.7%
2	Member away from home	51	38.6%
3	informant not co-operative	7	5.3%
9	others	38	28.8%

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

Statistics [NW/ W]	[Valid=10056 /-] [Invalid=0 /-]

Value	Label	Cases	Percentage
1	Tribal Majority hamlet	540	5.4%
2	Other hamlet group	9516	94.6%

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

#15 Samplehhno: Sample hh no.

Information	[Type= discrete] [Format=character] [Missing=*]
Statistics [NW/ W]	[Valid=10056 /-] [Invalid=0 /-]

Value	Label	Cases	Percentage
1		2844	28.3%
2		2750	27.3%
3		2250	22.4%
4		2212	22.0%

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

#16 Village_Type: Village Type

Information	[Type= discrete] [Format=character] [Missing=*]
Statistics [NW/ W]	[Valid=10042 /-] [Invalid=0 /-]

Value	Label	Cases	Percentage
1	Tribal majority	3134	31.2%
2	Others	6905	68.8%
9	Invalid	3	0.0%

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

#17 B5_q1: Household Size

Information	[Type= discrete] [Format=character] [Missing=*]
Statistics [NW/ W]	[Valid=10056 /-] [Invalid=0 /-]

Frequency table not shown (50 Modalities)

#18 B5_q2: Livelihood Class (code)

Information	[Type= discrete] [Format=character] [Missing=*]

File Block-5-Household characteristics-records

#18 B5_q2: Livelihood Class (code)

Statistics [NW/ W]	[Valid=10051 /-] [Invalid=0 /-]
Interviewer's instructions	6.5.1 The livelihood class of a household will be decided on the basis of the source of household's income from gainful activity (for the definition of 'gainful activity', reference may be made to para 6.8.2 (a) .if a household as no such income, the livelihood class will be 'others' (code 99). If household's income is mostly from one source, there will not be any difficulty in classifying its livelihood class. But, if the members of the household, excluding those employed by the household and the paying guests, derive their income from more than one source listed under livelihood class codes at the bottom of the block in the schedule, the source which has fetched the maximum income during the last 365 days will be the livelihood class for the household and the corresponding code is to be entered against this item. It is to be noted that if the collection of minor forest products is the main source of income and if selling is the main purpose behind the collection of minor products, the livelihood class will be 5 and not 1. Apart from wood obtained from the forests, which is generally referred to as major forest products, there are large number of other products obtained from root, barks, leaves flower and fruits which are known under the generic name of minor Forest produce. Livelihood code will be 1 when the household members hunt, trap and gather forest products for household consumption only and the incomes generated from such activities during the reference year add up to the maximum amount. In fact this livelihood class indicates a very early stage of economy. There are some tribal households who live solely or mainly on hunting, trapping and gathering of forest produces

Value	Label	Cases	Percentage
0	NR	1	0.0%
01	hunting, trapping and gathering of forest produce only for household consumption)	99	1.0%
02	shifting cultivation	25	0.2%
03	livestock and poultry raising	127	1.3%
04	settled cultivation	3508	34.9%
05	collection of minor forest produces	15	0.1%
06	other agricultural activities	99	1.0%
07	self-employed in non-agriculture	1161	11.6%
08	agricultural labour	2551	25.4%
09	plantation labour	202	2.0%
10	mining quarrying labour	93	0.9%
11	manufacturing and construction labour	476	4.7%
98	Invalid	5	0.0%
99	others	1689	16.8%

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

#19 B5_q3: Industry (Code)

Information	[Type= discrete] [Format=character] [Missing=*]
Statistics [NW/ W]	[Valid=9805 /-] [Invalid=0 /-]
Interviewer's instructions	The entry against this item will be recorded in terms of six digited code numbers of which first three left hand digits will refer to the appropriate' industry-group' and the next three to the relevant occupation family' of the NIC 1987 and NCO 1968 respectively.

Frequency table not shown (276 Modalities)

#20 B5_q3ii: Occupation (Code)

#22 B5_q5: Land owned (0.00 Acres)

Information	[Type= continuous] [Format=numeric] [Range= 0-123151.95] [Missing=*]
Statistics [NW/ W]	[Valid=9269 /-] [Invalid=787 /-] [Mean=16.709 /-] [StdDev=1279.888 /-]

#23 B5_q6: Land possessed(0.00 acres)

Information	[Type= continuous] [Format=numeric] [Range= 0-123150.72] [Missing=*]
Statistics [NW/ W]	[Valid=9781 /-] [Invalid=275 /-] [Mean=16.011 /-] [StdDev=1245.928 /-]
Interviewer's instructions	The total area of land possessed by all the members of the household on the date of survey will be recorded in 0.00 acres against this item. Land possessed will constitute areas which are owned and retained by the household plus areas under owner like possession plus areas leased in from others plus areas which are under the possession of the household though neither owned nor leased in. It should be servant/paying guest who are considered as normal members of the household should not be included. Land possessed by those members would be shown against the households where they would have been considered as normal resident members had they not been staying with the present household.

#24 B5_q7: Household Consumer expenditure(Rs)

Information	[Type= continuous] [Format=numeric] [Range= 0-300000] [Missing=*]
Statistics [NW/ W]	[Valid=7831 /-] [Invalid=2225 /-] [Mean=515.093 /-] [StdDev=5093.391 /-]
Interviewer's instructions	consumer expenditure of a household is the expenditure incurred by it for the purpose of domestic consumption. Expenditure incurred by the household on account of its productive enterprises will not be taken into consideration in arriving at the household consumer expenditure.

#25 B5_q8: Total household consumer expenditure(Rs)

Information	[Type= continuous] [Format=numeric] [Range= 20-300000] [Missing=*]
Statistics [NW/ W]	[Valid=10054 /-] [Invalid=2 /-] [Mean=904.875 /-] [StdDev=4499.906 /-]
Interviewer's instructions	6.5.6 This item will be also be filled in after canvassing blocks 12 and 13. Information on total household consumer expenditure will be available from col. (11) of block 12 and col. (4) of block 13. Entries made in col. (11) of block 12 against item codes 189, 199,209, 229, 279, 379, 429, 439, 449, 459, 479, 509 and 519 will be added with the entries made in col. (4) against each of the item of block 13 and the total will be recorded in rupees

File Block-5-Household characteristics-records

99	Invalid	6	0.0%

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

#23 B6_c8: Whether place of enumeration different from last usual residence

Information	[Type= discrete] [Format=character] [Missing=*]

File Block-6-Demographic and migration particulars-records

#23 **B6_c8: Whether place of enumeration different from last usual residence**

Statistics [NW/ W]	[Valid=49149 /-] [Invalid=0 /-]
Interviewer's instructions	6.6.13 For obtaining the appropriate response to this question, it has to be ascertained from each member of the household, whether his/her place of enumeration is different from the last (previous) usual residence. The usual residence for the purpose of this survey has been defined as a place (village or town) where the person has stayed continuously for a period of six months or more. If the answer is in the affirmative, code 1 and if it is in the negative code 2 will be recorded in col. (13). The place of enumeration will, obviously, be his/her current place of stay (destination) and the place (village or town) where the person stayed continuously for a period of six months or more any time in his/her life time prior to moving into the current place of stay (i.e. place of enumeration) will be considered 'the place of last usual residence' (origin). However, it may be noted here that visits of daughter-in-law (staying sometimes more than six months) to their parent's house for child birth or for any other reason will not be considered as migratory movement and, therefore, will not be taken into account for making entries in this column.

Value	Label	Cases	Percentage
0	NR	3	0.0%
1	Yes	14112	28.7%
2	No	35032	71.3%
9	Invalid	2	0.0%

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

#24 **B6_c9: Period since leaving the last usual place of residence (Years)**

Information	[Type= continuous] [Format=numeric] [Range= 0-97] [Missing=*]
Statistics [NW/ W]	[Valid=13982 /-] [Invalid=35248 /-] [Mean=15.315 /-] [StdDev=13.947 /-]
Interviewer's instructions	6.6.13 The period elapsed since leaving the last usual residence will be recorded in years rounded off to the nearest integer in this column. For working out this, the period of temporary stay 9less than six months) in other places after leaving the last usual residence and ultimately moving into the place of enumeration will also be included. If the period so determined is less than six months, the entry will be 'O' in this column.

#25 **B6_c10: From where migrated**

Information	[Type= discrete] [Format=character] [Missing=*]
Statistics [NW/ W]	[Valid=13970 /-] [Invalid=0 /-]
Interviewer's instructions	the type of area from where the person has migrated to the place of enumeration, i.e., the type of last usual residence will be recorded in this column in terms of the specified codes for each migrant member.

Value	Label	Cases	Percentage
0	NR	2	0.0%
1	rural areas of the same district	9710	69.5%
2	urban areas of the same district	553	4.0%
3	rural areas of another district of the same state	1774	12.7%
4	urban areas of another district of the same state	375	2.7%
5	rural areas of another state	1051	7.5%
6	urban areas of another state	328	2.3%
7	other countries	175	1.3%
9	Invalid	2	0.0%

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

#26 **B6_c11: Reason for leaving the last usual place of residence (code)**

Information	[Type= discrete] [Format=character] [Missing=*]
Statistics [NW/ W]	[Valid=13961 /-] [Invalid=0 /-]

File Block-6-Demographic and migration particulars-records

#26 B6_c11: Reason for leaving the last usual place of residence (code)

Interviewer's instructions	6.6.13 The reason for moving out of the last usual residence will be ascertained for each migrant member and entered in terms of the specified code in this column. It may so happen that a person has moved out of his last usual residence for a particular reason, stayed in a different town/village for a short period (less than six months) and then moved to the place of enumeration for a different reason. In such a case only the reason which motivated his/her first movement (i.e. the movement from the last usual residence) will be recorded.

Value	Label	Cases	Percentage
1	in search of food resources	411	2.9%
2	in search of employment	1056	7.6%
3	due to natural calamity	74	0.5%
4	displacement caused by development projects	107	0.8%
5	on marriage	8590	61.5%
6	due to migration of parent/earning member of the household	2316	16.6%
9	other reasons	1407	10.1%

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

#27 B6_c12: Duration of stay in last usual place of residence (Years)

Information	[Type= continuous] [Format=numeric] [Range= 0-99] [Missing=*]
Statistics [NW/ W]	[Valid=13930 /-] [Invalid=35300 /-] [Mean=16.249 /-] [StdDev=9.422 /-]
Interviewer's instructions	Number of years stayed by the migrant person in the last usual residence will be recorded in this column in years rounded off to nearest integer.

#28 B6_c13: Usual activity at the time of migration status (code)

Information	[Type= discrete] [Format=character] [Missing=*]
Statistics [NW/ W]	[Valid=13893 /-] [Invalid=0 /-]
Interviewer's instructions	for determining the usual activity status of a migrant at the time of migration, the reference period to be adopted will be 365 days preceding the date of migration. The determination of the person's usual activity status will be done following the relatively "major time criterion" status will relate to the principal status.

Value	Label	Cases	Percentage
00	NR	5	0.0%
11	Worked in household enterprise in hunting, trapping and gathering of forest products	181	1.3%

#18 B7_c2: Principal Usual Activity Status (Code)

Information	[Type= discrete] [Format=character] [Missing=*]
Statistics [NW/ W]	[Valid=48942 /-] [Invalid=0 /-]
Definition	The activity status of an individual is the activity situation obtaining for the person in respect of his/her participation in gainful and also non-gainful activities during the given reference period. Normally, one of the following three major activity situations or combination of them will obtain to a person : (i) of working or being engaged in gainful activities (work) for pay. Profit or family gain. (ii) of being not engaged in gainful activities (work) but either of making tangible efforts to seek work or being available for work. and

File Block-7-activity particulars-records

#18 B7_c2: Principal Usual Activity Status (Code)

	(i) of being not available for work because of various reasons.
Interviewer's instructions	The usual activity status of a person will be determined on the basis of the various activities pursued by the person during the reference period of 365 days adopting "relatively long time (major time)" criterion. For this, a person has to be first classified into one of the three broad category groups (working, not working but seeking and/or available for work and neither working nor available for work) on the basis of the time spent on them during the reference period of 365 days preceding the date of survey. Thus the broad activity status of a person will be one of the three category groups, on which the person spent relatively long time during the 365 days. In deciding this, one should consider only the normal working time available for pursuing the various activities and not 24 hours of each day. After deciding the broad usual status of the person, the detailed activity status within the broad group will be determined adopting again the "relatively long" or 'major time' criterion. The detailed activity status, thus determined, will be the principal usual activity status of the person. The code corresponding to this activity status will be recorded in col. (2) against the serial number of the person. It may be noted that if a person found to be engaged in domestic duties (or any non-gainful activity for a relatively long period of the reference period of 365 days is also reported to be simultaneously seeking/available for work, the person should be categorized as "unemployed" and not as "engaged in domestic duties" (or the non-gainful activity pursued).

Value	Label	Cases	Percentage
00	NR	0	0.0%
11	Worked in household enterprise in hunting, trapping and gathering of forest products	611	1.2%
12	worked in household enterprise in shifting cultivation	53	0.1%

#18 B8_c3: Location (Code)

Information	[Type= discrete] [Format=character] [Missing=*]
Statistics [NW/ W]	[Valid=21248 /-] [Invalid=0 /-]
Interviewer's instructions	The location of the plot in terms of codes is to be entered in this column.

Value	Label	Cases	Percentage
0	NR	2	0.0%
1	within village	19493	91.7%
2	outside village: in the rural sector	1706	8.0%
3	outside village: in the urban sector	44	0.2%
9	nvalid	3	0.0%

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

#19 B8_c4: Geographical area of plot(0.00 acre)

Information	[Type= continuous] [Format=numeric] [Range= 0-15011.5] [Missing=*]
Statistics [NW/ W]	[Valid=21236 /-] [Invalid=75 /-] [Mean=3.001 /-] [StdDev=122.632 /-]
Interviewer's instructions	The total geographical area of the plot (that is, the survey or sub-survey number) will be recorded in 0.00 acre in column (4), even when only part of it is owned or leased in by the household.

#20 B8_c5: Area quoted from where

Information	[Type= discrete] [Format=character] [Missing=*]
Statistics [NW/ W]	[Valid=19841 /-] [Invalid=0 /-]
Interviewer's instructions	If the entire plot is owned by the members of household, the total owned area, which is the total geographical area will be recorded in acres up to two places of decimal in column (6). If, however, the plot is owned jointly by two or more households, the actual area owned by the members of the household is quoted from some document by the informant, code 1 will be entered in col. (5); otherwise code 2 will be recorded.

Value	Label	Cases	Percentage
0	NR	1	0.0%

Information	[Type= continuous] [Format=numeric] [Range= 0-123149.15] [Missing=*]
Statistics [NW/ W]	[Valid=19850 /-] [Invalid=1461 /-] [Mean=7.802 /-] [StdDev=874.584 /-]
Interviewer's instructions	As given in c5

#22 B8_c7: Type of ownership (Code)

Information	[Type= discrete] [Format=character] [Missing=*]
Statistics [NW/ W]	[Valid=19840 /-] [Invalid=0 /-]
Interviewer's instructions	A plot may be possessed by a tribal household accordingto traditional tribal rights. Generally, a plot of land is given to the household by local chieftains or village/district council. The holder of such land may or may not possess a title of ownership. Even if the household does not possess a title of ownership, it will be deemed to have owner like possession without title provided the household has the right of long term use of the land. Government is aware of the situation and in some states has taken various measures to confer titles to the owner of those lands. In column (7), information on the status of ownership of each plot will be collected. The entries will be made in codes

Value	Label	Cases	Percentage
1	with title	16785	84.6%
2	without title but applied for	401	2.0%
3	without title and not applied for	735	3.7%
4	customary title	1773	8.9%
9	Invalid	146	0.7%

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

#23 B8_c8: How acquired (Code)

Information	[Type= discrete] [Format=character] [Missing=*]
Statistics [NW/ W]	[Valid=19840 /-] [Invalid=0 /-]
Interviewer's instructions	For each plot owned by the household on the date of survey, it is to be ascertained as to how the plot was acquired by the household. The entries in this column will be made in terms of codes

Value	Label	Cases	Percentage
1	inherited	15862	79.9%
2	purchased from tribals	294	1.5%
3	purchased from non-tribals	1642	8.3%
4	allotted by government	897	4.5%
5	allotted by the village/district council etc	121	0.6%
6	received as gift …	218	1.1%
7	alienated land restored	0	0.0%
8	Invalid	142	0.7%
9	others	664	3.3%

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

#24 B8_c9: From whom acquired(Code)

Information	[Type= discrete] [Format=character] [Missing=*]

File Block-8-of land owned and possessed-records

#24 B8_c9: From whom acquired(Code)

Statistics [NW/ W]	[Valid=19838 /-] [Invalid=0 /-]
Interviewer's instructions	The previous owners from whom the plots of land have been acquired are classified into certain groups. After ascertaining the appropriate group, the relevant code will be entered in this column.

Value	Label	Cases	Percentage	
1	tribal council	77		0.4%
2	tribal chief	29		0.1%
3	tribal hhold 0f the same village	254		1.3%
4	tribal hhold 0f the other villages/town	56		0.3%
5	non tribal household	17621		88.8%
8	Invalid	401		2.0%
9	others	1400		7.1%

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

#25 B8_c10: period since acquired(year)

Information	[Type= continuous] [Format=numeric] [Range= 0-99] [Missing=*]
Statistics [NW/ W]	[Valid=19838 /-] [Invalid=1473 /-] [Mean=26.547 /-] [StdDev=25.971 /-]
Interviewer's instructions	Number of years elapsed since the acquisition took place will be recorded in this column in completed years against each plot owned by the household

#26 B8_c11: Area leased out (0.00 acre)

Information	[Type= continuous] [Format=numeric] [Range= 0-40] [Missing=*]
Statistics [NW/ W]	[Valid=720 /-] [Invalid=20591 /-] [Mean=1.563 /-] [StdDev=3.265 /-]
Interviewer's instructions	Some of the plots owned by the household may be leased out wholly or partly to others. Columns (11) to (14) are meant for recording the particulars of that part of the owned plot which is leased out to others and hence is not under the possession of the household on the date of survey. If no part of the owned plot is leased out, columns (11) to (14) will be crossed against that plot.

#27 B8_c12: Terms of lease (code)

Information	[Type= discrete] [Format=character] [Missing=*]
Statistics [NW/ W]	[Valid=623 /-] [Invalid=0 /-]
Interviewer's instructions	s in c11

Value	Label	Cases	Percentage	
0	NR	1		0.2%
1	for fixed money	120		19.3%
2	for fixed produce	64		10.3%

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

#29 B8_c14: Period since leased out (years)

Information	[Type= continuous] [Format=numeric] [Range= 0-99] [Missing=*]
Statistics [NW/ W]	[Valid=622 /-] [Invalid=20689 /-] [Mean=12.378 /-] [StdDev=25.925 /-]
Interviewer's instructions	s in c11

#30 B8_c15: Area leased in (0.00 acre)

Information	[Type= continuous] [Format=numeric] [Range= 0-26.09] [Missing=*]
Statistics [NW/ W]	[Valid=1769 /-] [Invalid=19542 /-] [Mean=1.011 /-] [StdDev=1.891 /-]
Interviewer's instructions	Particulars of plots taken on rent lease by the household and held on the date of survey will be recorded in these columns. For leased-in plots, columns (1) to (4) and columns (15) to (17) only are to be filled in. Area leased in by the household will be recorded in col. (15) in acres up to 2 places of decimal separately for each plot leased-in. information pertaining to terms under which leasing-in of the plots were agreed upon would be recorded in column (16). for recording entries in column (17), it is necessary to ascertain the type of lessor from whom the land has been taken lease. it is to be noted that in some tribal areas, the ownership of land vests with the community. Village /District Council, tribal chief or clan chief allots a piece of land to the individual for a specified period (say, for a cycle in case of shifting cultivation). If any such land is possessed by the household on the date of survey, it will be considered as leased-in.

#24 B9_c9: Whether permission for disposal obtained

Information	[Type= discrete] [Format=character] [Missing=*]
Statistics [NW/ W]	[Valid=425 /-] [Invalid=0 /-]
Interviewer's instructions	In some states, permission is required for transfer of any land in tribal areas. Permission is a must in all the states if such transfer is made to non- tribals. Whatever be the position, for each disposal, it is to be ascertained permission is obtained from the appropriate authority for disposal of land. If permission is taken, the entry in col. (9) will be 1: otherwise code 2 may be entered in this column.

Value	Label	Cases	Percentage
1	Yes	139	32.7%
2	No	284	66.8%
9	Invalid	2	0.5%

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

File Block-9-disposal of land-records

#25 B9_c10: Amount (Rs)

Information	[Type= continuous] [Format=numeric] [Range= 0-240000] [Missing=*]
Statistics [NW/ W]	[Valid=428 /-] [Invalid=0 /-] [Mean=13541.255 /-] [StdDev=25694.844 /-]
Interviewer's instructions	The amount of compensation received or receivable for the disposal of land will be recorded in rupees in col. (10). The entry in this column will be 0(zero), if no compensation is received or receivable. Whether the full settlement amount has already been received or not will be ascertained. If full amount is received, code 1 will be entered in col. (11) and if only part payment is received the appropriate code for col. (11) will be 2. code 2 will also be applicable in cases where no payment has been received by the household till the date of survey, although some amount is receivable on account of the disposal of land. Further enquiry is to be made to ascertain as to whether the household considers the full settlement amount (even if the full amount is not yet received) as adequate compensation for the land disposed of. If yes, code 1 will be recorded in col. (12); otherwise, the entry in this column will be 2.

#26 B9_c11: Nature of payment
