Debt & Investment, NSS 48th Round : Jan - Dec 1992 (NSS 48th Round)

Overview	
Type	Socio-Economic/Monitoring Survey [hh/sems]
Identification	DDI-IND-MOSPI-NSSO-48Rnd-Sch18pt2-1992
Version	Production Date: 2012-06-05 V1.0; Re-organised anonymised dataset for public distribution.
Series	<p>The reserve Bank of India (RBI) conducted, for the first time during November 1951 to August 1952, the "All India Rural Credit Survey" in 75 selected districts spread all over the country. The main objective of this survey was to study two aspects namely (i) the demand for credit from rural families and (ii) the supply of credit by credit agencies both institutional and non-institutional. The data were collected mainly for formulating the banking policies. The design of the survey was not suitable for providing estimates of indebtedness at state and national level. The second such survey on rural "Debt and Investment" was conducted by the RBI in the year 1961-62 for obtaining etc. The third comprehensive enquiry in this series of decennial surveys was entrusted by the RBI to the National Sample Survey Organization (NSSO) and was conducted along with the survey on "Land Holdings" during the year 1971-72, as a part of the NSSO programme in its 26th round survey operation. In this round, the coverage of the survey was extended to the urban areas. Fourth such survey was conducted in the 37th round (January to December 1982) along with Land Holdings as per the ten years programme charted by the Governing Council. In the 48th round (January to December, 1992) also "All India Debt and Investment Survey (AIDIS)" has been carried out along with "Land and Livestock Holdings". The objectives of the AIDIS remain the same as those of the earlier surveys, namely, to obtain quantitative information on the incidence of indebtedness, capital formation and other indicators or rural/urban economy which will be of value in developing the credit structure in particular and also for obtaining other allied information required in the field of planning and development. Further since the survey is kind of a repeat survey of that of the NSS 37th round, it is considered necessary to plan the survey in such a way as to ensure, as far as practicable, comparability with the estimates of the various characteristics generated from the earlier rounds.</p>

Abstract

The survey period of the 48th round has been from January to December 1992. The required information has been collected from the same set of sample households in two visits to each sample. The information to be collected in the second visit to the household was considerably less than that to be collected in the first visit. In view of this uneven work-load in the two visits, it was decided to extend the survey period of the first visit to eight months - from January to August 1992 - and to reduce the survey period of the second visit to four months - from September to December 1992. As a result, the households which have been visited in the first two months of the first visit have been revisited in the first month of the second visit and so on. To reduce the fatigue of the respondent, it was decided that unlike in the 37th round, the sample households in this round will be selected separately for schedules 18.1 and 18.2 in the rural sector. Since the land and livestock holdings are likely to be small in most cases, it is decided to survey the same set of sample households both for schedules 18.1 and 18.2 in the urban sector.

The position in regard to the assets and liabilities of the sample households is required to be collected with reference to a fixed date, namely, as on the 30th June 1991. There will be a time lag between the reference date and the survey date in the first visit varying from household to household within the range of maximum period of 14 months. To derive the above, therefore, it has been decided to collect information on assets and liabilities as on the date of survey and the transactions relating to the said assets and liabilities carried out during the period intervening the date of reference and the date of survey.

Broadly, the following information has been collected in this round of survey:-

- (i) the asset and the liability position of the households
- (ii) the amount of capital expenditure on
 - (a) residential plots, houses or buildings,
 - (b) farm business and
 - (c) non-farm business,
 incurred by the household during the reference period of agricultural year 1991-22.
- (iii) acquisition, disposal and loss of assets during July 1991 to June 1992.

The assets owned by the households have been classified into three categories, namely,

- (a) physical assets contributing to capital formation
- (b) financial assets and
- (c) durable household assets.

Besides collection of information for deriving the asset and liability position of the households as on 30.6.91, provisions have also been made to collect data on the transactions of physical, financial and household durable assets and also on the cash borrowings and repayments made during the agricultural year 1991-92.

METHOD OF DATA COLLECTION: As mentioned earlier, the information in this schedule has been collected by visiting the same set of sample households twice. In the first visit, information on assets owned on the date of survey as well as addition and depletion of these assets during the period, July 1, 1991 to the date of survey has been ascertained to derive the asset position of the households as on 30th June 1991. The same procedure has been adopted for assessing the indebtedness position of the households at the beginning of the agricultural year 1991-92 i.e. 30.6.91 in the first visit. However, provision has been made for obtaining the data on the amount and other particulars of borrowings and repayments made during the first half of the agricultural year 1991-92 i.e. during 1.7.91 to 31.12.91. As for the items of capital expenditure and of acquisition, disposal and loss of assets, information has been collected for the period 1.7.91 to 31.12.91 in the first visit. During the second visit to the households, information has been collected for ascertaining the indebtedness position of the households as on 30.6.92 and for assessing the borrowings and repayments made during the second half of the agricultural year 1991-92 i.e. during 1.1.92 to 30.6.92. Similarly, data on the capital expenditure and acquisition, disposal and loss of assets during 1.1.92 to 30.6.92 has been collected in the second visit.

Kind of Data	Sample survey data [ssd]
Unit of Analysis	Randomly selected households based on sampling procedure and members of the household

transactions during 1.7.91 to date of survey
- 8 livestock and poultry owned as on the date of visit 1 only
survey and their transactions during 1.7.91
to date of survey.
- 9 agricultural machinery and implements owned visit 1 only
as on the date of survey and their transactions
during 1.7.91 to date of survey
- 10 owned buildings and other constructions as visit 1 only
on the date of survey and their transactions
during 1.7.91 to date of survey.
- 11 non-farm business equipments owned on the visit 1 only
date of survey and their transactions during
1.7.91 to date of survey
- 12 transport equipments owned as on the date of visit 1 only
date of survey and their transactions during
1.7.91 to date of survey
- 13 household durable assets owned on the date of visit 1 only
survey and their transactions during 1.7.91
to date of survey
- 14 ownership of shares/debentures etc. in co-operative visit 1 only
societies & companies as on the date of survey and
their transactions during 1.7.91 to date of survey.
- 15 other financial assets owned as on the date visit 1 only
of survey and their transactions during
1.7.91 to date of survey
- 16 cash loans and kind loans receivable by household visit 1 & 2
on the date of survey and their transactions during
1.7.91/1.7.92 to date of survey
- 17.1 number of cash loans outstanding as on the date of visit 1 & 2
survey and number of loans repaid and written off
during 1.7.91/1.1.92 to date of survey

17.2 particulars of cash loans payable by the household visit 1 & 2 as on the date survey and transactions of loans during 1.7.91/1.1.92 to date of survey

18 other cash loans and kind loans payable by the visit 1 & 2 household as on the date of survey

19.1 specified items on which expenditure incurred during visit 1 & 2 1.7.91 to 31.12.91/1.1.92 to 30.6.92

19.2 expenditure on specified items during 1.7.91 visit 1 & 2 to 31.12.91/1.1.92 to 30.6.92

20 acquisition, disposal and loss of assets during visit 1 & 2 1.7.91 to 31.12.91/1.1.92 to 30.6.92

21 unit-price (last transaction) of reported items visit 1 & 2

Geographic Coverage

The 48th Round was planned to cover the whole of Indian Union except

- (i) Ladakh and Kargil districts of Jammu & Kashmir,
- (ii) 768 interior villages of Nagaland (out of a total of 1119 villages) located beyond 5 kms. of a bus route,
- (iii) 172 villages in Andaman & Nicobar Islands (out of a total of 520 villages) which are inaccessible throughout the year.

However, the survey could not be conducted in certain districts of Jammu & Kashmir viz. Anantnag, Pulwana, Srinagar, Badgam, Baramula and Kupwara, and the district of Amritsar in Punjab due to unfavourable field conditions.

Universe

The survey used the interview method of data collection from a sample of randomly selected households and members of the household.

Sampling

Sampling Procedure

Sample Design

A stratified two-stage sampling design was adopted for the survey with the first stage units as census villages for rural areas and the Urban Frame Survey blocks for urban areas. Households formed the second stage units in both rural and urban areas.

Sampling frame for first stage units(FSU's):

In the rural sector, the sampling frame in most of the strata was the 1981 census list of villages. However, in Assam, where the 1981 census was not undertaken, and in a few districts of other states, where the available list as per 1981 census was incomplete, the 1971 census list of villages was used. In the urban sector, the sampling frames used in most cases were the lists of NSS Urban Frame Survey (UFS) blocks. However, the 1991 census house listing enumeration blocks were considered as the sampling units for some of the new towns declared as urban areas in the 1991 population census.

Stratification:

Each state/union territory (u.t.) was divided into one or more agro-economic regions by grouping contiguous districts which are similar with respect to population density and crop pattern. In Gujarat, however, some districts were subdivided for the purpose of region formation on the basis of location of dry areas and the distribution of tribal population in the state. The total number of regions formed in the India as whole was 78.

In the rural sector, within each region, each district with a rural population of less than 1.8 million according to the 1981 census formed a single basic stratum. Districts with larger population were divided into two or more strata, depending on population, by grouping contiguous tehsils, similar as far as possible in respect of rural population density and crop pattern. In Gujarat, however, in the case of districts extending over more than one region, the portion of a district falling in each region constituted a separate stratum even if the rural population of the district as a whole was less than 1.8 million. Further, in Assam, the strata formed for the earlier NSS rounds on the basis of 1971 census rural population exactly in the above manner, but with a cut-off of 1.5 million population, were retained as the strata for rural sampling.

In the urban sector, strata were formed, again within NSS regions, on the basis of 1981 (1991 in some of the new towns) census population of towns. Each city with a population 10 lakhs or more formed a separate stratum by itself. The remaining towns of each region were grouped to form three different strata on the basis of 1981 (1991 in a few cases) census population.

Allocation of sample:

A total all-India sample of 6,812 first stage units (4,328 villages and 2,484 urban blocks) - determined on the basis of investigator strength in different states/u.t.'s and the expected workload per investigator - was initially allocated to the states/u.t.'s in proportion to central field staff available. The sample thus obtained for each state/u.t. was then allocated to its rural and urban sectors considering the relative sizes of the rural and urban population with almost double weightage being given for the urban sector. Within each sector of state/u.t., the allotted sample size was re-allocated to the different strata in proportion to the stratum population. All allocations were adjusted so that the sample size for a stratum was at least a multiple of 4 for the rural and urban sectors separately. This was done to accomplish equal sized samples in each sub-sample and sub-round. The only exception was Daman & Diu for which the first stage rural sample comprised 2 villages only.

Selection of first stage units:

The selection of sample villages was PPS (with replacement) with population as the size variable, in the form of two independent subsamples. The sample blocks were selected by simple random sampling without replacement, also in the form of two independent subsamples.

Selection of hamlet-groups/sub-blocks:

Large villages and blocks were divided into a suitable number of hamlet-groups and sub-blocks, respectively, having more or less equal population content. Two hamlet-groups were then selected from large villages, whereas only one sub-block was selected from the large blocks. The hamlet-groups were selected circularly systematically and the sub-block with equal probability.

Selection of households:

Two different procedures of selection of households were used for the rural and urban sectors. Different procedures for the two sectors were necessary, since in the rural sector schedules of enquiry for LHS survey and Debt & Investment survey were required to be canvassed in two separate sets of sample households, while in the urban sector, both the schedules were to be canvassed in the same set of sample households.

In the rural sector, nine households were selected from each sample village/selected hamlet groups. For selecting a sample of nine households, each sample village/hamlet group was sub-divided into 7 AIDIS sub-strata on the joint consideration of "land possessed" and "indebtedness status" of the households; first, all the households of the sample village/selected hamlet groups were divided into four LHS sub-strata by area of land possessed by them. Households possessing either no land or land less than 0.005 acre were grouped in substratum 1. The rest of the households were

then arranged in ascending order by area of land possessed and classified into three substrata, 2, 3 and 4, such that the total area of land possessed by the households in each of the 3 sub-strata was nearly the same. Each of the LHS sub-strata 1 and 2 was further divided into "indebted" and "not indebted" groups to form AIDIS substratum 1 to 4. AIDIS sub-strata 5 to 7 are formed by first merging LHS substrata numbers 3 and 4 and then sub-divided by the merged group into 3 classes, viz., (a) indebted to institutional agencies with or without being indebted to non-institutional agencies (b) indebted to non-institutional agencies alone and (c) not indebted. Independent sample of size 1,1,1,2,1,1&2 were selected circular systematically from the AIDIS sub-strata 1,2,3,4,5,6 and 7 respectively

In the urban sector, a sample of 9 households was selected from each sample urban block/sub-block. The households of a sample block/sub-block were classified into 7 AIDIS sub-strata, considering the monthly per capita consumption expenditure (mpce) and indebtedness status of the households. For this, the households were first grouped in three mpce classes, viz., less than A, A to B and B & above. The cut-off points A and B were determined at the state-level on the basis of mpce obtained from the survey on consumer expenditure, NSS 43rd Round, such that the mpce classes, below A, A to B, and B and above, respectively constituted 30 p.c, 60 p.c, and 10 p.c. of the urban population of the state. These mpce classes were further sub-divided by indebtedness status of the households to form 7 AIDIS sub strata. Independent samples were selected circular systematically from each of the sub-stratum. The number of households was selected from sub-strata 1, 2, 3, 4, 5, 6 and 7 respectively 1, 1, 1, 1, 2, 2 & 1.

Sample size:

In all, the survey covered 57,031 households spread over 6,650 sample villages/blocks.

Deviations from Sample Design

There have been no deviations from sample design.

Questionnaires

The data for this survey is collected in the NSS Schedule 18.2 used for debt & investment. For this round, the schedule had the following blocks:

BLOCK 0 : DESCRIPTIVE IDENTIFICATION OF SAMPLE HOUSEHOLD: This block is meant for recording descriptive identification Particulars of the sample household and the sample items in this block are self-explanatory.

BLOCK 1 : IDENTIFICATION PARTICULARS OF SAMPLE VILLAGE/BLOCK

BLOCK 2 : PARTICULARS OF FIELD OPERATION

BLOCK 3 : REMARKS BY INVESTIGATOR

BLOCK 4 : REMARKS BY SUPERVISORY OFFICER

BLOCK 5 : HOUSEHOLD CHARACTERISTICS : Certain household characteristics, such as, household size, social - group, household type, household industry - occupation, consumer expenditure, and land owned, land operated etc., which are intended to be used mainly as classificatory characteristics in tabulation have been recorded in this block.

BLOCK 5.1 : VISIT TWO : PARTICULARS OF PARTITIONED HOUSEHOLD: This block is provided in visit-2 schedule only.

BLOCK 6: HOUSEHOLD MEMBERS AND THEIR ACTIVITY PARTICULARS : All normal members of the sample household will be listed in this block. Demographic particulars viz. relation to head, age, sex, general education and usual activity particulars will be recorded for each member, using one line for each.

BLOCK 7 : AREA OF LAND OWNED BY THE HOUSEHOLD ON DATE OF SURVEY AND TRANSACTIONS DURING 1.7.91 TO DATE OF SURVEY : This block is meant for recording area and value of each of the plots of land, including the house site and other residential areas, owned by the sample household on the date of survey and also the acquisition and disposal of land during the period 1.7.91 to date of survey.

BLOCK 8: LIVESTOCK AND POULTRY OWNED: The information on number and value of livestock and poultry owned by the household with break-up by age, sex, use in respect of cattle and buffalo and sex and age of poultry birds has been collected in this block along with the data on the transactions during 1.7.91 to date of survey.

BLOCK 9: AGRICULTURAL MACHINERY AND IMPLEMENTS OWNED ON THE DATE OF SURVEY AND THEIR TRANSACTIONS DURING 1.7.91 TO DATE OF SURVEY : The number and value of agricultural machinery and implements owned by the household on the date of survey and those acquired or disposed of during 1.7.91 to date of survey has been collected in this block.

BLOCK 10: PARTICULARS OF OWNED BUILDINGS AND OTHER CONSTRUCTIONS: This block is meant for recording approximate floor area and value of all owned buildings and constructions on the date of survey and also the value of acquisition and disposal of these assets during the period 1.7.91 to date of survey.

BLOCK 11: PARTICULARS OF NON-FARM BUSINESS EQUIPMENTS: The non-farm business equipments include machinery, tools and appliances, furniture and fixtures and other related physical assets used in the non-farm business.

BLOCK 12: TRANSPORT EQUIPMENTS: In this block, the number and the value of the household's share of all transport equipments owned on the date of survey has been recorded irrespective of whether the equipments are used in the farm, non-farm or household purposes.

BLOCK 13: HOUSEHOLD DURABLE ASSETS: The household durable assets used for household purposes have been taken into account irrespective of whether they are home produced, purchased or received as gift.

BLOCK 14: SHARES AND DEBENTURES OWNED: This block is meant for recording the stock of the financial assets in the form of ownership of shares and debentures in the credit or non-credit cooperative societies, commercial banks, companies, Unit Trust of India, mutual fund and other similar financial assets as on the date of survey and also their transactions during 1.7.91 to date of survey.

BLOCK 15: OTHER FINANCIAL ASSETS: This block is provided for collecting information in financial assets not covered in block 14 above. The financial assets to be considered here are the different types of certificates/ securities issued by the government or bank, deposits in post office, bank, companies insurance etc.

BLOCK 16: CASH LOANS AND KIND LOANS RECEIVABLE BY THE HOUSEHOLD: This block is meant of collecting information in respect of amount receivable by the household on the date of survey on account of loans advanced by them in cash or in kind and the transactions of such loans during the reference periods, viz. 1.7.91 to date of survey during the first visit and 1.7.92 to date of survey in second visit.

BLOCK 17.1: This block is meant for recording general particulars about the cash loans payable by the households to institutions and other agencies.

BLOCK 17.2: PARTICULARS OF CASH LOANS PAYABLE BY THE HOUSEHOLD: The details of cash loans payable by the household as on the date of survey and transactions of all loans during the reference period of 1.7.91/1.1.92 to date of survey have been recorded in this sub-block in the schedules of first/second visit.

BLOCK 18: OTHER EACH LIABILITIES AND GRAIN DUES PAYABLE BY THE HOUSEHOLD AS ON THE DATE OF SURVEY: In this block information has been collected in respect of other cash liabilities and all kinds of loans.

BLOCK 19.1: This block has been designed to identify the specific items on which expenditure in cash and or in kind has been incurred for new purchase, constructions, additions and alterations, improvement, major repairs etc., and normal repairs and maintenance during the reference periods of 1.7.91 to 31.12.91 and 1.1.92 to 31.12.91 and 1.1.92 to 30.6.92 in visit one and visit two respectively.

BLOCK 19.2: The items on which capital expenditure (including expenditure on normal repairs and maintenance) has been incurred during the reference period, have been identified in block 19.1. The details of the amount of expenditure incurred under various heads on the items already identified in block 19.1 have been collected in block 19.2.

BLOCK 20: PARTICULARS OF ACQUISITION DISPOSAL AND LOSS OF ASSETS: This block is meant for recording the details of the acquisition, disposal and the loss of physical assets caused by natural calamities or otherwise during the reference period of 1.7.91 to 31.12.91 and 1.1.92 to 30.6.92 in visit 1 and 2 respectively. In this block acquisition and disposal of new and old assets has been considered.

BLOCK 21: UNIT PRICE OF REPORTED ITEMS: The intention is to collect the unit price of a physical asset reported in the first visit schedule of schedule 18.2 on the basis of actual purchase and sale transaction that took place in the village or in its vicinity during 365 days preceding the date of survey.

Files Description

Dataset contains 26 file(s)

Blocks 1,2,3,4,5_Visit 1_Household characteristics	
# Cases	57031
# Variable(s)	42
File Structure	Type: relational Key(s): HHID (Primary key - unique identifier for a household)
File Content Certain household characteristics, such as, household size, social - group, household type, household industry - occupation, consumer expenditure, and land owned, land operated etc., which are intended to be used mainly as classificatory characteristics in tabulation have been recorded in these block.	

Block 6_Visit 1_Household members and their activity particulars	
# Cases	301658
# Variable(s)	27
File Structure	Type: relational Key(s): PID (Primary key - unique identifier for a member in a household) , HHID (Key to identify a household)
File Content All normal members of the sample household have been listed in this block. Demographic particulars viz. relation to head, age, sex, general education and usual activity particulars have been recorded for each member, using one line for each.	

Block 7_Visit 1_Area of land owned as on date of survey and transactions	
# Cases	167679
# Variable(s)	28
File Structure	Type: relational Key(s): HHID (Key to identify a household)
File Content This block is meant for recording area and value of each of the plots of land, including the house site and other residential areas, owned by the sample household on the date of survey and also the acquisition and disposal of land during the period 1.7.91 to date of survey.	

Blocks 8,9_Visit 1_Livestock, poultry, agricultural machinery and implements owned	
# Cases	249887
# Variable(s)	26
File Structure	Type: relational Key(s): HHID (Key to identify a household)
File Content The information on number and value of livestock and poultry owned by the household with break-up by age, sex, use in respect of cattle and buffalo and sex and age of poultry birds has been collected in block 8 along with the	

data on the transactions during 1.7.91 to date of survey. The number and value of agricultural machinery and implements owned by the household on the date of survey and those acquired or disposed of during 1.7.91 to date of survey has been collected in block 9.

Block 10_Visit 1_Owned buildings and other constructions and their transactions

# Cases	230037
# Variable(s)	28
File Structure	Type: relational Key(s): HHID (Key to identify a household)

File Content

This block is meant for recordings approximate floor area and value of all owned buildings and constructions on the date of survey and also the value of acquisition and disposal of these assets during the period 1.7.91 to date of survey.

Block 11_Visit 1_Non-farm business equipments owned and their transactions

# Cases	33708
# Variable(s)	26
File Structure	Type: relational Key(s): HHID (Key to identify a household)

File Content

Particulars of non-farm business equipments have been recorded in this block. The non-farm business equipments include machinery, tools and appliances, furniture and fixtures and other related physical assets used in the non-farm business.

Blocks 12,13_Visit 1_Transport equipments and durable assets owned and their transactions

# Cases	497759
# Variable(s)	36
File Structure	Type: relational Key(s): HHID (Key to identify a household)

File Content

In block 12, the number and the value of the household's share of all transport equipments owned on the date of survey has been recorded irrespective of whether the equipments are used in the farm, non-farm or household purposes. The household durable assets used for household purposes have been taken into account in block 13 irrespective of whether they are home produced, purchased or received as gift.

Blocks 14,15,16_Visit 1_Ownership of shares etc

# Cases	137707
# Variable(s)	24
File Structure	Type: relational Key(s): HHID (Key to identify a household)

File Content

Block 14 is meant for recording the stock of the financial assets in the form of ownership of shares and debentures in the credit or non-credit cooperative societies, commercial banks, companies, Unit Trust of India, mutual fund and other similar financial assets as on the date of survey and also their transactions during 1.7.91 to date of survey. Block 15 collects information regarding financial assets not covered in block 14. The financial assets to be considered here are the different types of certificates/securities issued by the government or bank, deposits in post office, bank, companies insurance etc. Block 16 collects information in respect of amount receivable by the household on the date of survey on account of loans advanced by them in cash or in kind and the transactions of such loans during the reference periods, viz. 1.7.91 to date of survey during the first visit and 1.7.92 to date of survey in second visit.

Block 17pt1_Visit 1_Number of cash loans outstanding and loans repaid and written off

# Cases	54748
# Variable(s)	25
File Structure	Type: relational Key(s): HHID (Key to identify a household)
File Content This block is meant for recording general particulars about the cash loans payable by the households to institutions and other agencies.	

Block 17pt2_Visit 1_Particulars of cash loans payable by the household and transactions of loans

# Cases	34565
# Variable(s)	39
File Structure	Type: relational Key(s): HHID (Key to identify a household)
File Content The details of cash loans payable by the household as on the date of survey and transactions of all loans during the reference period of 1.7.91/1.1.92 to date of survey have been recorded in this sub-block.	

Block 17pt2_Visit 1_Particulars of loans written off

# Cases	782
# Variable(s)	21
File Structure	Type: relational Key(s): HHID (Key to identify a household)
File Content The details of cash loans written off during the reference period of 1.7.91 to date of survey have been recorded in this sub-block.	

Block 18_Visit 1_Particulars of other cash and kind loans payable by the household

# Cases	8554
# Variable(s)	22
File Structure	Type: relational Key(s): HHID (Key to identify a household)

File Content

In this block information has been collected in respect of other cash liabilities and all kinds of loans.

Block 19pt1_Visit 1_Specified items on which expenditure incurred

# Cases	147788
# Variable(s)	65
File Structure	Type: relational Key(s): HHID (Key to identify a household)

File Content

This block has been designed to identify the specific items on which expenditure in cash and or in kind has been incurred for new purchase, constructions, additions and alterations, improvement, major repairs etc., and normal repairs and maintenance during the reference periods of 1.7.91 to 31.12.91 and 1.1.92 to 31.12.91 and 1.1.92 to 30.6.92.

Block 19pt2_Visit 1_Expenditure on specified items

# Cases	20808
# Variable(s)	27
File Structure	Type: relational Key(s): HHID (Key to identify a household)

File Content

The items on which capital expenditure (including expenditure on normal repairs and maintenance) has been incurred during the reference period, have been identified in block 19.1. The details of the amount of expenditure incurred under various heads on the items already identified in block 19.1 have been collected in block 19.2.

Block 20_Visit 1_Particulars of acquisition, disposal and loss of assets

# Cases	18237
# Variable(s)	24
File Structure	Type: relational Key(s): HHID (Key to identify a household)

File Content

This block is meant for recording the details of the acquisition, disposal and the loss of physical assets caused by natural calamities or otherwise during the reference period of 1.7.91 to 31.12.91 and 1.1.92 to 30.6.92 in visit 1 and 2 respectively. In this block acquisition and disposal of new and old assets has been considered.

Block 21_Visit 1_Unit price (last transaction) of reported items

# Cases	149584
# Variable(s)	23
File Structure	Type: relational Key(s): HHID (Key to identify a household)

File Content

The intention is to collect the unit price of a physical asset reported in the first visit schedule of schedule 18.2 on the basis of actual purchase and sale transaction that took place in the village or in its vicinity during 365 days preceding the date of survey.

Blocks 1,2,3,4,5_Visit 2_Household characteristics	
# Cases	56599
# Variable(s)	42
File Structure	Type: relational Key(s): HHID (Primary key - unique identifier for a household)
File Content Certain household characteristics, such as, household size, social - group, household type, household industry - occupation, consumer expenditure, and land owned, land operated etc., which are intended to be used mainly as classificatory characteristics in tabulation have been recorded in these block.	

Block 5pt1_Visit 2_Particulars of partitioned household	
# Cases	231
# Variable(s)	19
File Structure	Type: relational Key(s): HHID (Key to identify a household)
File Content Particulars of partitioned household have been recorded in this block. This block is provided in visit-2 schedule only.	

Block 16_Visit 2_Cash and kind loans and their transactions	
# Cases	6200
# Variable(s)	21
File Structure	Type: relational Key(s): HHID (Key to identify a household)
File Content Block 16 collects information in respect of amount receivable by the household on the date of survey on account of loans advanced by them in cash or in kind and the transactions of such loans during the reference periods, viz. 1.7.91 to date of survey during the first visit and 1.7.92 to date of survey in second visit.	

Block 17pt1_Visit 2_Number of cash loans outstanding and loans repaid and written off	
# Cases	56170
# Variable(s)	25
File Structure	Type: relational Key(s): HHID (Key to identify a household)
File Content This block is meant for recording general particulars about the cash loans payable by the households to institutions and other agencies.	

Block 17pt2_Visit 2_Particulars of cash loans payable by the household and transactions of loans	
# Cases	38896

# Variable(s)	39
File Structure	Type: relational Key(s): HHID (Key to identify a household)
File Content The details of cash loans payable by the household as on the date of survey and transactions of all loans during the reference period of 1.7.91/1.1.92 to date of survey have been recorded in this sub-block.	

Block 17pt2_Visit 2_Particulars of loans written off	
# Cases	601
# Variable(s)	21
File Structure	Type: relational Key(s): HHID (Key to identify a household)
File Content The details of cash loans written off during the reference period of 1.7.91 to date of survey have been recorded in this sub-block.	

Block 18_Visit 2_Particulars of other cash and kind loans payable by the household	
# Cases	10318
# Variable(s)	22
File Structure	Type: relational Key(s): HHID (Key to identify a household)
File Content In this block information has been collected in respect of other cash liabilities and all kinds of loans.	

Block 19pt1_Visit 2_Specified items on which expenditure incurred	
# Cases	102062
# Variable(s)	65
File Structure	Type: relational Key(s): HHID (Key to identify a household)
File Content This block has been designed to identify the specific items on which expenditure in cash and or in kind has been incurred for new purchase, constructions, additions and alterations, improvement, major repairs etc., and normal repairs and maintenance during the reference periods of 1.7.91 to 31.12.91 and 1.1.92 to 31.12.91 and 1.1.92 to 30.6.92.	

Block 19pt2_Visit 2_Expenditure on specified items	
# Cases	22901
# Variable(s)	27
File Structure	Type: relational Key(s): HHID (Key to identify a household)
File Content	

The items on which capital expenditure (including expenditure on normal repairs and maintenance) has been incurred during the reference period, have been identified in block 19.1. The details of the amount of expenditure incurred under various heads on the items already identified in block 19.1 have been collected in block 19.2.

Block 20_Visit 2_Particulars of acquisition, disposal and loss of assets

# Cases	28547
# Variable(s)	24
File Structure	Type: relational Key(s): HHID (Key to identify a household)

File Content

This block is meant for recording the details of the acquisition, disposal and the loss of physical assets caused by natural calamities or otherwise during the reference period of 1.7.91 to 31.12.91 and 1.1.92 to 30.6.92 in visit 1 and 2 respectively. In this block acquisition and disposal of new and old assets has been considered.

Variables Description

Dataset contains 788 variable(s)

File Blocks 1,2,3,4,5_Visit 1_Household characteristics			
#1 HHID: Primary key - unique identifier for a household			
Information	[Type= discrete] [Format=character] [Missing=*]		
Statistics [NW/ W]	[Valid=57031 /-] [Invalid=0 /-]		
Recoding and Derivation	This variable has been derived for uniquely identifying a household by combining Serial no of village / Block, Sub Stratum and Sample Household number.		
#2 RoundSchedule: Round Schedule			
Information	[Type= discrete] [Format=character] [Missing=*]		
Statistics [NW/ W]	[Valid=57031 /-] [Invalid=0 /-]		
Definition	Indicates the NSS round and schedule number of this survey.		
#3 Sample: Sample			
Information	[Type= discrete] [Format=character] [Missing=*]		
Statistics [NW/ W]	[Valid=57031 /-] [Invalid=0 /-]		
#4 Visit_no: Visit no.			
Information	[Type= discrete] [Format=character] [Missing=*]		
Statistics [NW/ W]	[Valid=57031 /-] [Invalid=0 /-]		
Value	Label	Cases	Percentage
1		57031	100.0%
<i>Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.</i>			
#5 State_Region: State Region			
Information	[Type= discrete] [Format=character] [Missing=*]		
Statistics [NW/ W]	[Valid=57031 /-] [Invalid=0 /-]		
Definition	Regions are hierarchical domains of study below the level of State/ Union Territory in the NSS.		
#6 State: State			
Information	[Type= discrete] [Format=character] [Missing=*]		
Statistics [NW/ W]	[Valid=57031 /-] [Invalid=0 /-]		
Recoding and Derivation	This variable has been derived from the variable "State Region" to enable the users to easily access state wise data.		
<i>Frequency table not shown (32 Modalities)</i>			
#7 FlotNo: Flot No.			
Information	[Type= discrete] [Format=character] [Missing=*]		
Statistics [NW/ W]	[Valid=57031 /-] [Invalid=0 /-]		
Recoding and Derivation	This round contains some variables which are not in the questionnaire. These variables have been calculated for the purpose of specific tabulation for which documentation is not available. The user may ignore them.		
#8 Sector: Sector			
Information	[Type= discrete] [Format=character] [Missing=*]		
Statistics [NW/ W]	[Valid=57031 /-] [Invalid=0 /-]		
Definition	Sector : A word used for the rural-urban demarcation.		

File Blocks 1,2,3,4,5_Visit 1_Household characteristics

#8 Sector: Sector

Value	Label	Cases	Percentage
1	Rural	36425	63.9%
2	Urban	20606	36.1%

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

#9 Stratum: Stratum

Information	[Type= discrete] [Format=character] [Missing=*]
Statistics [NW/ W]	[Valid=57031 /-] [Invalid=0 /-]
Definition	Within each district of a State/ UT, two basic strata were formed: (i) rural stratum comprising of all rural areas of the district and (ii) urban stratum comprising of all the urban areas of the district.

#10 SubSample: Sub Sample

Information	[Type= discrete] [Format=character] [Missing=*]
Statistics [NW/ W]	[Valid=57031 /-] [Invalid=0 /-]
Definition	An important feature of the NSS sampling design is that the total sample of first stage units is drawn in the form of two or more independent and parallel samples, termed as interpenetrating sub-samples. Each sub- sample is drawn by the same sampling scheme and is capable of providing valid estimates of the population parameters. The comparison of sub-sample wise estimates shows the margin of uncertainty associated with the combined sample estimate. Interpenetrating sub-samples have been used in NSS (i) to obtain valid estimates from each sub-round (season) of the survey round, and (ii) to ensure that Central and State samples for any State/ UT cover independent and equally valid samples of units. The samples surveyed by the NSSO staff are termed as Central sample and the matched samples surveyed by State Government staff are termed as State sample.

Value	Label	Cases	Percentage
1	Central sample	28649	50.2%
2	State sample	28382	49.8%

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

#11 SubRound: Sub Round

Information	[Type= discrete] [Format=character] [Missing=*]		
Statistics [NW/ W]	[Valid=57031 /-] [Invalid=0 /-]		
Value	Label	Cases	Percentage
0	Invalid	539	0.9%
1	Sub - Round 1	28299	49.6%
2	Sub - Round 2	28193	49.4%

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

#12 Vill_Blk_Slno: Village/BI. Srl. No.

Information	[Type= discrete] [Format=character] [Missing=*]
Statistics [NW/ W]	[Valid=57031 /-] [Invalid=0 /-]
Definition	The first-stage units are census villages in the rural sector and the NSSO urban frame survey (UFS) blocks in the urban sector. This variable indicates the serial number assigned to such units.

#13 SubStratum: Sub Stratum

Information	[Type= discrete] [Format=character] [Missing=*]
Statistics [NW/ W]	[Valid=57031 /-] [Invalid=0 /-]

File Blocks 1,2,3,4,5_Visit 1_Household characteristics			
#14 Hhold_no: Sample Household No.			
Information	[Type= discrete] [Format=character] [Missing=*]		
Statistics [NW/ W]	[Valid=57031 /-] [Invalid=0 /-]		
#15 Level: Level			
Information	[Type= discrete] [Format=character] [Missing=*]		
Statistics [NW/ W]	[Valid=57031 /-] [Invalid=0 /-]		
Value	Label	Cases	Percentage
01		57031	100.0%
<i>Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.</i>			
#16 Informant_ReIn_Head: Informant's ReIn. to Head			
Information	[Type= discrete] [Format=character] [Missing=*]		
Statistics [NW/ W]	[Valid=57001 /-] [Invalid=0 /-]		
Literal question	What is informant's relation to head of the household?		
Interviewer's instructions	The relationship of the principal informant (i.e. the person providing the bulk of the information) to the head of the household is to be recorded in the box space in terms of codes. The relevant codes are: head of the household 1 other member of the household ...2 others 9		
Value	Label	Cases	Percentage
1	Head of household	41849	73.4%
2	Other member of the household	13594	23.8%
8	invalid	151	0.3%
9	Others	1407	2.5%
<i>Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.</i>			
#17 Resp_Code: Response Code			
Information	[Type= discrete] [Format=character] [Missing=*]		
Statistics [NW/ W]	[Valid=57010 /-] [Invalid=0 /-]		
Interviewer's instructions	This item will be filled in after collecting all the required information for all items in the schedule. The entry is to be made in terms of codes on the basis of the impression formed by the investigator regarding the overall response of the informant. The codes are: informant co-operative and capable 1 informant co-operative but not capable 2 informant busy 3 informant reluctant4 others9		
Value	Label	Cases	Percentage
1	Cooperative & capable	42955	75.3%
2	Cooperative but not capable	12280	21.5%
3	Busy	709	1.2%
4	Reluctant	989	1.7%
8	invalid	3	0.0%
9	Others	74	0.1%
<i>Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.</i>			
#18 Survey_Code: Survey Code			
Information	[Type= discrete] [Format=character] [Missing=*]		

File Blocks 1,2,3,4,5_Visit 1_Household characteristics

#18 Survey_Code: Survey Code

Statistics [NW/ W] [Valid=56963 /-] [Invalid=0 /-]

Interviewer's instructions
In the schedule of visit-1, whether the originally selected household or a substitute household has been surveyed will be indicated against this item by recording code '1' if the originally selected household has been surveyed and code '2' if the substitute household has been surveyed. If neither the originally selected household nor a substitute household could be surveyed, i.e. if the sample household is a casualty, code '3' will be recorded in the first visit.

Value	Label	Cases	Percentage
1	Original household surveyed	55654	97.7%
2	Substitute household surveyed	1304	2.3%
3	Casualty (nothing surveyed)	0	0.0%
9	Invalid	5	0.0%

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

#19 Substn_Code: Reason for substitution

Information [Type= discrete] [Format=character] [Missing=*]

Statistics [NW/ W] [Valid=890 /-] [Invalid=0 /-]

Interviewer's instructions
If the originally selected household cannot be surveyed, irrespective of whether a substitute household can be surveyed or not, the reason for the originally selected household becoming a casualty will be recorded against this item in terms of codes. The codes are :

informants busy 1
members away from home 2
informant non-cooperative 3
others 9

Value	Label	Cases	Percentage
1	Informant busy	130	14.6%
2	Members away from home	552	62.0%
3	Informant non-cooperative	142	16.0%
8	Invalid	16	1.8%
9	Others	50	5.6%

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

#20 Survey_Date: Date of survey

Information [Type= discrete] [Format=character] [Missing=*]

Statistics [NW/ W] [Valid=56797 /-] [Invalid=0 /-]

#21 No_of_Lines_in_Block3: No. of lines written (blk-3)

Information [Type= continuous] [Format=numeric] [Missing=*]

Statistics [NW/ W] [Valid=9388 /-] [Invalid=47643 /-]

#22 No_of_Lines_in_Block4: No. of lines written (blk-4)

Information [Type= continuous] [Format=numeric] [Missing=*]

Statistics [NW/ W] [Valid=636 /-] [Invalid=56395 /-]

#23 B5_q1: Household size

Information [Type= continuous] [Format=numeric] [Range= 0-42] [Missing=*]

Statistics [NW/ W] [Valid=57029 /-] [Invalid=2 /-] [Mean=5.29 /-] [StdDev=2.877 /-]

Definition
Household
A household is a group of persons who normally live together and take food from a common kitchen. However, a boarding house, a hotel or a hostel is treated as a cluster of households, where each individual boarder

File Blocks 1,2,3,4,5_Visit 1_Household characteristics

#23 B5_q1: Household size

	forms a separate household. If, however, a group of persons among them normally pooled their income for spending, they together are treated as constituting a single household. Barracks of military and paramilitary forces, orphanages and vagrant-houses are excluded from the scope of the survey. Household size: The size of a household is taken to be the number of members normally residing in it. This size includes temporary stay-aways but excludes temporary visitors and guests of the household.
Literal question	How many members are there in the household?
Interviewer's instructions	Size of the sample household i.e. the total number of persons normally residing together (under the same roof) and taking food from the same kitchen (including temporary stay-aways and excluding temporary visitors) will be recorded against this item. In the visit - 1 schedule, the entry against this item will be the same as the last serial number recorded in col. (1) of block 6.

#24 B5_q2: Sex of head of the household

Information	[Type= discrete] [Format=character] [Missing=*]
Statistics [NW/ W]	[Valid=57018 /-] [Invalid=0 /-]
Literal question	What is the sex of the head of the household?
Interviewer's instructions	The sex of the head of the household will be recorded against item 2 in terms of codes. The codes are : male 1 female 2

Value	Label	Cases	Percentage
1	Male	51593	90.5%
2	Female	5405	9.5%
9	Invalid	20	0.0%

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

#25 B5_q3: Household type

Information	[Type= discrete] [Format=character] [Missing=*]
Statistics [NW/ W]	[Valid=57004 /-] [Invalid=0 /-]

#26 HH_Type: Sector wise household type

Information	[Type= discrete] [Format=character] [Missing=*]
Statistics [NW/ W]	[Valid=57031 /-] [Invalid=0 /-]

Value	Label	Cases	Percentage
10	invalid - rural	26	0.0%
11	self-employed in non-agriculture - rural	4452	7.8%
12	agricultural labour - rural	7935	13.9%
13	other labour - rural	2521	4.4%
14	self-employed in agriculture - rural	18180	31.9%
19	Others - rural	3311	5.8%
20	invalid - urban	28	0.0%
21	self-employed - urban	7402	13.0%
22	regular wage/salary earning - urban	8895	15.6%
23	casual labour - urban	2422	4.2%
29	Others - urban	1859	3.3%

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

#27 B5_q4a: NIC Code

Information	[Type= discrete] [Format=character] [Missing=*]
--------------------	---

File Blocks 1,2,3,4,5_Visit 1_Household characteristics

#27 B5_q4a: NIC Code

Statistics [NW/ W]	[Valid=55037 /-] [Invalid=0 /-]
Literal question	Which industry is the principal earner working in?
Interviewer's instructions	The household industry -occupation determined according to the definition, three digit level industry (NIC, 1987) and occupation (NCO, 1968) codes for the household are to be recorded in the box spaces against item 4. The industry code will be recorded in the left most three box spaces followed by occupation code.

#28 B5_q4b: NCO Code

Information	[Type= discrete] [Format=character] [Missing=*]
Statistics [NW/ W]	[Valid=55061 /-] [Invalid=0 /-]
Literal question	What is the occupation of the principal earner of the household?
Interviewer's instructions	The household industry -occupation determined according to the definition, three digit level industry (NIC, 1987) and occupation (NCO, 1968) codes for the household are to be recorded in the box spaces against item 4. The industry code will be recorded in the left most three box spaces followed by occupation code.

#29 B5_q5: Social Group

Information	[Type= discrete] [Format=character] [Missing=*]
Statistics [NW/ W]	[Valid=56985 /-] [Invalid=0 /-]
Literal question	Which social group do you belong to? Do you come under scheduled caste or scheduled tribe or others category?
Interviewer's instructions	SOCIAL GROUP : whether the household belongs to a scheduled tribe or a scheduled caste or 'others' , it will be indicated by an appropriate code against this item. A household will be classified as scheduled tribe/scheduled caste if the head of the household belongs to any scheduled tribe/scheduled caste community. Neo-Buddhist households will be considered as scheduled caste. All the remaining households will be considered to belong to the group 'others'. The codes for social group are : scheduled tribe1 scheduled caste/neo-Buddhist 2 others 9

Value	Label	Cases	Percentage
1	Scheduled Tribe	6335	11.1%
2	Scheduled Caste	9066	15.9%
8	Invalid	2	0.0%
9	Others	41582	73.0%

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

#30 B5_q6: Land owned as on 30 June 1991 (0.00 acres)

Information	[Type= continuous] [Format=numeric] [Range= 0-165] [Missing=*]
Statistics [NW/ W]	[Valid=46830 /-] [Invalid=10201 /-] [Mean=2.783 /-] [StdDev=5.651 /-]
Literal question	How much land was owned by the household as on 30 June 1991?

#31 B5_q7: Land leased-out as on 30 June 1991 (0.00 acres)

Information	[Type= continuous] [Format=numeric] [Range= 0-44.04] [Missing=*]
Statistics [NW/ W]	[Valid=5065 /-] [Invalid=51966 /-] [Mean=1.584 /-] [StdDev=3.469 /-]
Literal question	How much land was leased out by the household as on 30 June 1991?

#32 B5_q8: Land leased-in as on 30 June 1991 (0.00 acres)

Information	[Type= continuous] [Format=numeric] [Range= 0-105] [Missing=*]
Statistics [NW/ W]	[Valid=13488 /-] [Invalid=43543 /-] [Mean=0.662 /-] [StdDev=2.55 /-]
Literal question	How much land was leased in by the household as on 30 June 1991?

File Blocks 1,2,3,4,5_Visit 1_Household characteristics			
#33 B5_q9: Land otherwise possessed as on 30 June 1991 (0.00 acres)			
Information	[Type= continuous] [Format=numeric] [Range= 0-35] [Missing=*]		
Statistics [NW/ W]	[Valid=4806 /-] [Invalid=52225 /-] [Mean=0.379 /-] [StdDev=1.456 /-]		
Literal question	How much land was otherwise possessed by the household as on 30 June 1991?		
Interviewer's instructions	Any land which is possessed but neither owned nor leased in by the household will be considered as 'otherwise possessed'.		
#34 B5_q10: Land possessed as on 30 June 1991 (0.00 acres)			
Information	[Type= continuous] [Format=numeric] [Range= 0-165] [Missing=*]		
Statistics [NW/ W]	[Valid=57031 /-] [Invalid=0 /-] [Mean=2.356 /-] [StdDev=5.388 /-]		
Literal question	How much total land was possessed by the household as on 30 June 1991?		
#35 B5_q11: Land owned and retained but not available for crop production as on 30 June 1991 (0.00 acres)			
Information	[Type= continuous] [Format=numeric] [Range= 0-45.03] [Missing=*]		
Statistics [NW/ W]	[Valid=34916 /-] [Invalid=22115 /-] [Mean=0.26 /-] [StdDev=1.173 /-]		
Literal question	How much land was owned and retained but not available for crop production as on 30 June 1991?		
Interviewer's instructions	The entry to be recorded in acres in two decimal places against this item, by asking a direct question to the respondent, will be area of those tracts of land which were owned and retained by the household on 30.6.91 but were not available then for crop production due to various reasons. The possible reasons may be land not suitable for cultivation, under water bodies, under non-agricultural uses etc. Land kept fallow up to a maximum period of 5 years will be considered as land available for crop production. Seasonal crop area, orchards and plantations will constitute area available for crop production.		
#36 B5_q12: Whether operated any land during 1991-92			
Information	[Type= discrete] [Format=character] [Missing=*]		
Statistics [NW/ W]	[Valid=56607 /-] [Invalid=0 /-]		
Literal question	Whether the household operated any land during 1991-92?		
Interviewer's instructions	The answer to direct question whether the household operated any land during agricultural year 1991-92 will be recorded in codes against item 12. The codes are yes-1, no-2.		
Value	Label	Cases	Percentage
1	Yes	28959	51.2%
2	No	27634	48.8%
9	Invalid	14	0.0%
<i>Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.</i>			
#37 B5_q13: If 'yes', area operated by the household (0.00 acres)			
Information	[Type= continuous] [Format=numeric] [Range= 0-161] [Missing=*]		
Statistics [NW/ W]	[Valid=29532 /-] [Invalid=27499 /-] [Mean=4.006 /-] [StdDev=6.233 /-]		
Pre-question	Whether the household operated any land during 1991-92?		
Literal question	If 'yes', how much area was operated by the household?		
Interviewer's instructions	If the code against item 12 is '1' the area operated by the household is to be filled against item 13 in acres in two places of decimal. The total area under all the operational holdings formed in the household will be considered as the area operated by the household. However, if the household operates a holding jointly with other household(s), the total area of the operational holding divided by the number of partners will be the share of the household from that operational holding.		
#38 B5_q14: Household consumer expenditure during last 30 days in Rs.- out of purchase			
Information	[Type= continuous] [Format=numeric] [Range= 0-84200] [Missing=*]		

File Blocks 1,2,3,4,5_Visit 1_Household characteristics	
#38 B5_q14: Household consumer expenditure during last 30 days in Rs.- out of purchase	
Statistics [NW/ W]	[Valid=56442 /-] [Invalid=589 /-] [Mean=1127.251 /-] [StdDev=1297.278 /-]
#39 B5_q15: Household consumer expenditure during last 30 days in Rs.- out of home grown stock	
Information	[Type= continuous] [Format=numeric] [Range= 0-91000] [Missing=*]
Statistics [NW/ W]	[Valid=32051 /-] [Invalid=24980 /-] [Mean=556.614 /-] [StdDev=813.798 /-]
#40 B5_q16: Total household consumer expenditure during last 30 days in Rs.	
Information	[Type= continuous] [Format=numeric] [Range= 0-84200] [Missing=*]
Statistics [NW/ W]	[Valid=56897 /-] [Invalid=134 /-] [Mean=1428.291 /-] [StdDev=1299.556 /-]
#41 B5_q17: Household monthly per capita expenditure (Rs. 0.00)	
Information	[Type= continuous] [Format=numeric] [Range= 0-35000] [Missing=*]
Statistics [NW/ W]	[Valid=56927 /-] [Invalid=104 /-] [Mean=302.08 /-] [StdDev=301.146 /-]
Definition	Household consumer expenditure: It is the expenditure of a household on domestic consumption only. It is the same as the expenditure covered in the consumer expenditure survey of the NSSO. Any expenditure incurred by the household on its enterprise account was excluded from consumer expenditure. Household monthly per capita consumer expenditure (MPCE): This was obtained from the household's total consumer expenditure during last 30 days divided by the household size and recorded in terms of rupees and paises.
Interviewer's instructions	The figure for this item would be obtained by dividing the entry against item 16 by the entry against item 1 (household size). This will be recorded in rupees in two places of decimal.
#42 Update_Code: Update code	
Information	[Type= discrete] [Format=character] [Missing=*]
Statistics [NW/ W]	[Valid=13448 /-] [Invalid=0 /-]
Recoding and Derivation	This round contains some variables which are not in the questionnaire. These variables have been calculated for the purpose of specific tabulation for which documentation is not available. The user may ignore them.
File Block 6_Visit 1_Household members and their activity particulars	
#1 PID: Primary key - unique identifier for a member in a household	
Information	[Type= discrete] [Format=character] [Missing=*]
Statistics [NW/ W]	[Valid=301658 /-] [Invalid=0 /-]
Recoding and Derivation	This variable has been derived for uniquely identifying a member in a household by combining HHID and serial no. of member.
#2 HHID: Key to identify a household	
Information	[Type= discrete] [Format=character] [Missing=*]
Statistics [NW/ W]	[Valid=301658 /-] [Invalid=0 /-]
Recoding and Derivation	This variable has been derived for identifying a household by combining Serial no of village / Block, Sub Stratum and Sample Household number.
#3 RoundSchedule: Round Schedule	
Information	[Type= discrete] [Format=character] [Missing=*]
Statistics [NW/ W]	[Valid=301658 /-] [Invalid=0 /-]
Definition	Indicates the NSS round and schedule number of this survey.
#4 Sample: Sample	
Information	[Type= discrete] [Format=character] [Missing=*]

File Block 6_Visit 1_Household members and their activity particulars

#4 Sample: Sample

Statistics [NW/ W] [Valid=301658 /-] [Invalid=0 /-]

Information [Type= discrete] [Format=character] [Missing=*]

Statistics [NW/ W] [Valid=301658 /-] [Invalid=0 /-]

Value	Label	Cases	Percentage
1		301658	100.0%

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

#6 State_Region: State Region

Information [Type= discrete] [Format=character] [Missing=*]

Statistics [NW/ W] [Valid=301658 /-] [Invalid=0 /-]

Definition Regions are hierarchical domains of study below the level of State/ Union Territory in the NSS.

#7 State: State

Information [Type= discrete] [Format=character] [Missing=*]

Statistics [NW/ W] [Valid=301658 /-] [Invalid=0 /-]

Recoding and Derivation This variable has been derived from the variable "State Region" to enable the users to easily access state wise data.

Frequency table not shown (32 Modalities)

#8 FlotNo: Flot No.

Information [Type= discrete] [Format=character] [Missing=*]

Statistics [NW/ W] [Valid=301658 /-] [Invalid=0 /-]

Recoding and Derivation This round contains some variables which are not in the questionnaire. These variables have been calculated for the purpose of specific tabulation for which documentation is not available. The user may ignore them.

#9 Sector: Sector

Information [Type= discrete] [Format=character] [Missing=*]

Statistics [NW/ W] [Valid=301658 /-] [Invalid=0 /-]

Definition Sector : A word used for the rural-urban demarcation.

Value	Label	Cases	Percentage
1	Rural	200179	66.4%
2	Urban	101479	33.6%

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

#10 Stratum: Stratum

Information [Type= discrete] [Format=character] [Missing=*]

Statistics [NW/ W] [Valid=301658 /-] [Invalid=0 /-]

Definition Within each district of a State/ UT, two basic strata were formed:
(i) rural stratum comprising of all rural areas of the district and (ii) urban stratum comprising of all the urban areas of the district.

#11 SubSample: Sub Sample

Information [Type= discrete] [Format=character] [Missing=*]

Statistics [NW/ W] [Valid=301658 /-] [Invalid=0 /-]

Definition An important feature of the NSS sampling design is that the total sample of first stage units is drawn in the form of two or more independent and parallel samples, termed as interpenetrating sub-samples. Each sub- sample is

File Block 6_Visit 1_Household members and their activity particulars

#11 SubSample: Sub Sample

drawn by the same sampling scheme and is capable of providing valid estimates of the population parameters. The comparison of sub-sample wise estimates shows the margin of uncertainty associated with the combined sample estimate.

Interpenetrating sub-samples have been used in NSS (i) to obtain valid estimates from each sub-round (season) of the survey round, and (ii) to ensure that Central and State samples for any State/ UT cover independent and equally valid samples of units.

The samples surveyed by the NSSO staff are termed as Central sample and the matched samples surveyed by State Government staff are termed as State sample.

Value	Label	Cases	Percentage
1	Central sample	150811	50.0%
2	State sample	150847	50.0%

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

#12 SubRound: Sub Round

Information [Type= discrete] [Format=character] [Missing=*]

Statistics [NW/ W] [Valid=301658 /-] [Invalid=0 /-]

Value	Label	Cases	Percentage
0	Invalid	2631	0.9%
1	Sub - Round 1	149765	49.6%
2	Sub - Round 2	149262	49.5%

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

#13 Vill_Blk_Slno: Village/BI. Srl. No.

Information [Type= discrete] [Format=character] [Missing=*]

Statistics [NW/ W] [Valid=301658 /-] [Invalid=0 /-]

Definition The first-stage units are census villages in the rural sector and the NSSO urban frame survey (UFS) blocks in the urban sector. This variable indicates the serial number assigned to such units.

#14 SubStratum: Sub Stratum

Information [Type= discrete] [Format=character] [Missing=*]

Statistics [NW/ W] [Valid=301658 /-] [Invalid=0 /-]

#15 Hhold_no: Sample Household No.

Information [Type= discrete] [Format=character] [Missing=*]

Statistics [NW/ W] [Valid=301658 /-] [Invalid=0 /-]

#16 Level: Level

Information [Type= discrete] [Format=character] [Missing=*]

Statistics [NW/ W] [Valid=301658 /-] [Invalid=0 /-]

Value	Label	Cases	Percentage
02		301658	100.0%

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

#17 B6_q1: Serial no. of member

Information [Type= discrete] [Format=character] [Missing=*]

Statistics [NW/ W] [Valid=301658 /-] [Invalid=0 /-]

Interviewer's instructions A continuous serial number of all the normally resident members of the sample household listed in this block is to be given in col. (1). While listing, the head of the household will be listed first, followed by head's spouse, the

File Block 6_Visit 1_Household members and their activity particulars

#17 B6_q1: Serial no. of member

first son, first son's wife and children, etc. After the sons are enumerated, the daughters will be listed followed by other relatives, dependents, servants, etc.

#18 B6_q3: Relation to head

Information [Type= discrete] [Format=character] [Missing=*]

Statistics [NW/ W] [Valid=301620 /-] [Invalid=0 /-]

Literal question What is the relationship of the member to the head of the household?

Interviewer's instructions The family relationship of each member of the household with the head of the household (for the head, the relationship is self) expressed in terms of the specified codes will be recorded in this column. The codes to be used are:

self 1 spouse of head 2
 married child 3
 spouse of married child 4
 unmarried child 5
 grand child 6
 father/mother/father-in-law/
 mother-in-law 7
 brother/sister/brother-in-law/
 sister-in-law/other relatives 8
 servant/employee/paying guest/
 other non-relative 9

Value	Label	Cases	Percentage
0	Not reported	5	0.0%
1	Head	57021	18.9%
2	Spouse of head	46709	15.5%
3	Married child	15670	5.2%
4	Spouse of married child	14909	4.9%
5	Unmarried child	115806	38.4%
6	Grandchild	25659	8.5%
7	Father/mother/father-in-law/mother-in-law	8501	2.8%
8	Brother/sister/brother-in-law/sister-in-law/other relations	16288	5.4%
9	Servant/employee/or non-relatives	1052	0.3%

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

#19 B6_q4: Age (yrs.)

Information [Type= continuous] [Format=numeric] [Missing=*]

Statistics [NW/ W] [Valid=301639 /-] [Invalid=19 /-]

Literal question What is the age of the member of the household?

Interviewer's instructions The age at last birthday in completed years of all the members listed in col. (1) will be ascertained and recoded in col. (4). For a new born baby or a baby who has not completed one year of age on the date of survey, entry to be made in col. (4) will be '0'.

#20 B6_q5: Sex

Information [Type= discrete] [Format=character] [Missing=*]

Statistics [NW/ W] [Valid=301627 /-] [Invalid=0 /-]

Literal question Is the member of the household a male or female?

Interviewer's instructions The sex of each member of the household, in terms of the code number (male-1, female-2) will be recorded in this column.

File Block 6_Visit 1_Household members and their activity particulars

#20 B6_q5: Sex

Value	Label	Cases	Percentage
1	Male	156713	52.0%
2	Female	144796	48.0%
9	Invalid	118	0.0%

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

#21 B6_q6: General education

Information	[Type= discrete] [Format=character] [Missing=*]
Statistics [NW/ W]	[Valid=301467 /-] [Invalid=0 /-]
Literal question	What is the education level of the member of the household?
Interviewer's instructions	<p>Information regarding the general education attained by the normal members of the household listed in col. (1) will be recorded in this col. in terms of the specified code numbers. For the purpose of making entries in this column, only the course successfully completed will be considered. For instance, for a person who has studied up to first year B.A., his educational attainment will be considered only secondary/higher secondary. Also, for a person who has studied up to 12th standard but has not sat for the final examination or has failed or even passed in the examination, his educational attainment will be considered secondary/higher secondary. The relevant codes to be used for recording entries in this column are:</p> <p>not literate 1 literate but below primary 2 primary and above but below secondary 3 secondary/higher secondary 4 graduate and above 5</p> <p>A person who can both read and write a simple message in at least one language is to be considered as literate. Those who are not able to do so are to be considered 'not literate' and will be assigned code 1. Those who are literate but never attended any school or attended or attending educational institution but are yet to pass primary standard will get code 2, codes 3,4 and 5 will indicate the successive higher standards of education attained.</p>

Value	Label	Cases	Percentage
1	not literate	137423	45.6%
2	literate but below primary	55174	18.3%
3	primary and above but below secondary	68935	22.9%
4	secondary/higher secondary	28188	9.4%
5	graduate and above	11663	3.9%
9	invalid	84	0.0%

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

#22 B6_q7: If not literate, whether can read

Information	[Type= discrete] [Format=character] [Missing=*]
Statistics [NW/ W]	[Valid=136824 /-] [Invalid=0 /-]
Literal question	If the member of the household is not literate, whether he/she can read?
Interviewer's instructions	Col. (7) will be filled in only for the persons who are 'not literate' i.e. those who are having entry '1' in col. (6). A person is considered as 'not literate', if he/she cannot read or write. It is, therefore, possible that some of the persons considered 'not literate', can read a simple message in at least one language but cannot write. It is to be ascertained from those with code 1 in col. (6) as to whether they can read a simple message in at least one language. If the answer is in affirmative, code 1 will be entered in col. (7). Otherwise code 2 is to be recorded in this column.

Value	Label	Cases	Percentage
1	Yes	3111	2.3%
2	No	133713	97.7%

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

File Block 6_Visit 1_Household members and their activity particulars

#23 B6_q8: Usual activity status (Principal)

Information	[Type= discrete] [Format=character] [Missing=*]
Statistics [NW/ W]	[Valid=300382 /-] [Invalid=0 /-]
Literal question	What is the principal usual activity status of the member of the household?
Interviewer's instructions	<p>The principal and subsidiary (gainful) activity status of each of the persons listed in block 6 is to be determined. The status so determined will be expressed in terms of codes for recording entries in cols. (8) and (10). The codes are :</p> <p>worked in household enterprise (self employed) 11 worked as helper in household enterprise 21 worked as regular-salaried/wage employee 31 worked as casual wage labour in public works 41 worked as casual labour in other types of work 51 did not work but was seeking and/ or available for work 81 attended educational institution 91 attended domestic duties 92 attended domestic duties and was also engaged in free collection of goods (vegetables, roots, firewood, cattle feed etc.), sewing, tailoring, weaving, etc., for household use 93 renters, pensioners, remittance recipients etc 94 not able to work due to disability 95 beggars, prostitute 96 others 97</p>

Value	Label	Cases	Percentage
11	worked in household enterprise (self employed)	47285	15.7%
21	worked as helper in household enterprise	16856	5.6%
31	worked as regular-salaried/wage employee	19410	6.5%
41	worked as casual wage labour in public works	989	0.3%
51	worked as casual labour in other types of work	24061	8.0%
81	did not work but was seeking and/ or available for work	2869	1.0%
91	attended educational institution	69795	23.2%
92	attended domestic duties	47428	15.8%
93	attended domestic duties and was also engaged in free collection of goods, sewing, tailoring, weaving, etc., for household use	13016	4.3%
94	renters, pensioners, remittance recipients etc	1601	0.5%
95	not able to work due to disability	812	0.3%
96	beggars, prostitute	218	0.1%
97	others	55903	18.6%
99	invalid	139	0.0%

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

#24 B6_q9: Industry Section

Information	[Type= discrete] [Format=character] [Missing=*]
Statistics [NW/ W]	[Valid=107197 /-] [Invalid=0 /-]
Literal question	Which industry has the member of the household worked in principal status capacity?
Interviewer's instructions	<p>Col. (9) will be filled in only when the entry in col. (8) is one of the codes 11, 21, 31 and 41-51 i.e. When the usual activity status of the person is "working". Similarly, col. (11) will be filled in only when the entry in col. (10) is one of the codes 11, 21, 31 and 41-51. The industry section corresponding to the principal/subsidiary gainful activity is to be determined according to NIC 1987 and the appropriate code is to be recorded in col. (9)/col. (11). If the principal/ subsidiary gainful activity is carried out in more than one industry section the appropriate industry section code will be decided on the basis of the major time criteria. The codes for industry section are :</p>

File Block 6_Visit 1_Household members and their activity particulars

#24 B6_q9: Industry Section

agriculture, hunting, forestry & fishing	0
mining & quarrying	1
manufacturing	2/3
electricity, gas and water	4
construction	5
wholesale and retail trade and restaurants	6
transport, storage and communication	7
financing, insurance, real estate and business services	8
personal services	9

Value	Label	Cases	Percentage
0	agriculture, hunting, forestry & fishing	63566	59.3%
1	mining & quarrying	555	0.5%
2	manufacturing	6768	6.3%
3	manufacturing	3975	3.7%
4	electricity, gas and water	655	0.6%
5	construction	3321	3.1%

Information	[Type= discrete] [Format=character] [Missing=*]
Statistics [NW/ W]	[Valid=73853 /-] [Invalid=0 /-]

File Block 6_Visit 1_Household members and their activity particulars

#27 Update_Code: Update code

Recoding and Derivation	This round contains some variables which are not in the questionnaire. These variables have been calculated for the purpose of specific tabulation for which documentation is not available. The user may ignore them.
--------------------------------	--

File Block 7_Visit 1_Area of land owned as on date of survey and transactions

#1 HHID: Key to identify a household

Information	[Type= discrete] [Format=character] [Missing=*]
Statistics [NW/ W]	[Valid=167679 /-] [Invalid=0 /-]
Recoding and Derivation	This variable has been derived for identifying a household by combining Serial no of village / Block, Sub Stratum and Sample Household number.

#2 RoundSchedule: Round Schedule

Information	[Type= discrete] [Format=character] [Missing=*]
Statistics [NW/ W]	[Valid=167679 /-] [Invalid=0 /-]
Definition	Indicates the NSS round and schedule number of this survey.

#3 Sample: Sample

Information	[Type= discrete] [Format=character] [Missing=*]
Statistics [NW/ W]	[Valid=167679 /-] [Invalid=0 /-]

#4 Visit_no: Visit no.

Information	[Type= discrete] [Format=character] [Missing=*]
Statistics [NW/ W]	[Valid=167679 /-] [Invalid=0 /-]

Value	Label	Cases	Percentage
1		167679	100.0%

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

#5 State_Region: State Region

Information	[Type= discrete] [Format=character] [Missing=*]
Statistics [NW/ W]	[Valid=167679 /-] [Invalid=0 /-]
Definition	Regions are hierarchical domains of study below the level of State/ Union Territory in the NSS.

#6 State: State

Information	[Type= discrete] [Format=character] [Missing=*]
Statistics [NW/ W]	[Valid=167679 /-] [Invalid=0 /-]
Recoding and Derivation	This variable has been derived from the variable "State Region" to enable the users to easily access state wise data.

Frequency table not shown (32 Modalities)

#7 FlotNo: Flot No.

Information	[Type= discrete] [Format=character] [Missing=*]
Statistics [NW/ W]	[Valid=167679 /-] [Invalid=0 /-]
Recoding and Derivation	This round contains some variables which are not in the questionnaire. These variables have been calculated for the purpose of specific tabulation for which documentation is not available. The user may ignore them.

#8 Sector: Sector

Information	[Type= discrete] [Format=character] [Missing=*]
--------------------	---

File Block 7_Visit 1_Area of land owned as on date of survey and transactions

#8 Sector: Sector

Statistics [NW/ W] [Valid=167679 /-] [Invalid=0 /-]

Definition Sector : A word used for the rural-urban demarcation.

Value	Label	Cases	Percentage
1	Rural	136583	81.5%
2	Urban	31096	18.5%

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

#9 Stratum: Stratum

Information [Type= discrete] [Format=character] [Missing=*]

Statistics [NW/ W] [Valid=167679 /-] [Invalid=0 /-]

Definition Within each district of a State/ UT, two basic strata were formed:
(i) rural stratum comprising of all rural areas of the district and (ii) urban stratum comprising of all the urban areas of the district.

#10 SubSample: Sub Sample

Information [Type= discrete] [Format=character] [Missing=*]

Statistics [NW/ W] [Valid=167679 /-] [Invalid=0 /-]

Definition An important feature of the NSS sampling design is that the total sample of first stage units is drawn in the form of two or more independent and parallel samples, termed as interpenetrating sub-samples. Each sub- sample is drawn by the same sampling scheme and is capable of providing valid estimates of the population parameters. The comparison of sub-sample wise estimates shows the margin of uncertainty associated with the combined sample estimate.

Interpenetrating sub-samples have been used in NSS (i) to obtain valid estimates from each sub-round (season) of the survey round, and (ii) to ensure that Central and State samples for any State/ UT cover independent and equally valid samples of units.

The samples surveyed by the NSSO staff are termed as Central sample and the matched samples surveyed by State Government staff are termed as State sample.

Value	Label	Cases	Percentage
1	Central sample	83631	49.9%
2	State sample	84048	50.1%

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

#11 SubRound: Sub Round

Information [Type= discrete] [Format=character] [Missing=*]

Statistics [NW/ W] [Valid=167679 /-] [Invalid=0 /-]

Value	Label	Cases	Percentage
0	Invalid	1684	1.0%
1	Sub - Round 1	83512	49.8%
2	Sub - Round 2	82483	49.2%

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

#12 Vill_Blk_Slno: Village/BI. Srl. No.

Information [Type= discrete] [Format=character] [Missing=*]

Statistics [NW/ W] [Valid=167679 /-] [Invalid=0 /-]

Definition The first-stage units are census villages in the rural sector and the NSSO urban frame survey (UFS) blocks in the urban sector. This variable indicates the serial number assigned to such units.

File Block 7_Visit 1_Area of land owned as on date of survey and transactions

#13 SubStratum: Sub Stratum

Information	[Type= discrete] [Format=character] [Missing=*]
Statistics [NW/ W]	[Valid=167679 /-] [Invalid=0 /-]

#14 Hhold_no: Sample Household No.

Information	[Type= discrete] [Format=character] [Missing=*]
Statistics [NW/ W]	[Valid=167679 /-] [Invalid=0 /-]

#15 Level: Level

Information	[Type= discrete] [Format=character] [Missing=*]
Statistics [NW/ W]	[Valid=167679 /-] [Invalid=0 /-]

Value	Label	Cases	Percentage
03		167679	100.0%

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

#16 B7_q1: Serial no. of plot

Information	[Type= discrete] [Format=character] [Missing=*]
Statistics [NW/ W]	[Valid=167679 /-] [Invalid=0 /-]
Interviewer's instructions	A running serial number starting from 1 will be given in col.(1) of this block for all lines recording particulars of ownership/acquisition/disposal of land during the specified reference period.

#17 B7_q3: Geographical area of plot (0.00 acres)

Information	[Type= continuous] [Format=numeric] [Range= 0-999.99] [Missing=*]
Statistics [NW/ W]	[Valid=69268 /-] [Invalid=98411 /-] [Mean=2.17 /-] [StdDev=9.268 /-]
Literal question	How much is the geographical area of the plot?
Interviewer's instructions	The total geographical area of the plot (that is survey number or sub-survey number) will be recorded in col.(3) even when a part of it is owned/acquired/disposed of by the household during the specified reference period. The geographical area may be based on some document or as reported by the informant. In case informant is unaware of actual area, it can be ascertained from some knowledgeable persons of the village. The area will be recorded in acres up to two places of decimal.

#18 B7_q4: % of area owned by household

Information	[Type= continuous] [Format=numeric] [Range= 0-795] [Missing=*]
Statistics [NW/ W]	[Valid=69302 /-] [Invalid=98377 /-] [Mean=92.375 /-] [StdDev=22.387 /-]
Literal question	How much percentage of area is owned by the household?
Interviewer's instructions	If the entire plot is owned by the members of the household on the date of survey, the owned area, which is the geographical area of the plot, will be recorded in acres up to two places of decimal in col.(5) and 100 will be recorded in col.(4). However, if on the date of survey, the plot is owned jointly by members of two or more households, the share of area owned by the sample household, in terms of percentage to the total geographical area, will be recorded in col.(4) (nearest whole number) and the actual area owned by the sample household in acres up to two places of decimal in col.(5). For example, if a plot of 5.00 acres is owned equally by four brothers belonging to four different households and if one of them is selected for the survey, the entries in cols.(4) and (5) for the sample household will be 25 and 1.25 acres respectively. Cols.(4) and (5) and (7) will remain blank if no area of the plot is owned by the household on the date of survey but some area of the plot has been disposed of during 1.7.91 to the date of survey.

#19 B7_q5: Actual area owned by household (0.00 acres)

Information	[Type= continuous] [Format=numeric] [Range= 0-216] [Missing=*]
Statistics [NW/ W]	[Valid=167679 /-] [Invalid=0 /-] [Mean=1.559 /-] [StdDev=3.822 /-]
Literal question	How much actual area is owned by the household?

File Block 7_Visit 1_Area of land owned as on date of survey and transactions

#20 B7_q6: Type of land code

Information	[Type= discrete] [Format=character] [Missing=*]
Statistics [NW/ W]	[Valid=119965 /-] [Invalid=0 /-]
Literal question	What is the type of land?
Interviewer's instructions	<p>This column is meant for recording the type of land owned/acquired/disposed of by the household during the specified reference period in terms of codes. The codes are :</p> <p>seasonal crop area-irrigated 1 seasonal crop area-un irrigated 2 orchards and plantations3 water bodies 4 put to non-agricultural uses 5 others 9</p>

Value	Label	Cases	Percentage
0	invalid	31	0.0%
1	seasonal crop area-irrigated	32915	27.4%
2	seasonal crop area-unirrigated	34528	28.8%
3	orchards and plantations	3676	3.1%
4	water bodies	674	0.6%
5	put to non-agricultural uses	45361	37.8%
9	others	2780	2.3%

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

#21 B7_q7: Value as on date of survey (in Rs.)

Information	[Type= continuous] [Format=numeric] [Range= 0-9850000] [Missing=*]
Statistics [NW/ W]	[Valid=167679 /-] [Invalid=0 /-] [Mean=58602.268 /-] [StdDev=176682.05 /-]
Literal question	How much is the value of land as on the date of survey?
Interviewer's instructions	For each plot, value will be recorded in rupees (whole no.) in col.(7) and/or (9) and/or (11) depending whether an area of the plots is owned as on the date of survey or acquired or disposed of during the reference period.

#22 B7_q8: Acquisition-area (0.00 acres)

Information	[Type= continuous] [Format=numeric] [Missing=*]
Statistics [NW/ W]	[Valid=47049 /-] [Invalid=120630 /-]
Literal question	How much area is acquired by the household during 1st July,1991 to the date of survey?
Interviewer's instructions	<p>The transactions of land that take place during 1.7.91 to the date of survey will be recorded in cols. (8) to (11). Under transaction, information will be collected separately for acquisition and for disposal. Acquisition will mean addition to stock by way of purchase, gift. Inheritance etc. and disposal will result in depletion of stock by way of sale, gift etc. Inheritance will be considered as acquisition only when inheritor belongs to a different household. Leasing in and leasing out of land will not be treated as acquisition or disposal of land. Area and value of all pieces of land acquired during 1.7.91 to date of survey will be recorded in cols. (8) and (9) respectively irrespective of whether the piece of land is disposal of subsequently or owned on the date of survey. Similarly, area and value of all pieces of land disposed of during 1.7.91 to date of survey will be recorded in cols. (10) and (11) respectively irrespective of whether the piece of land has been acquired during the said reference period or prior to that. Area will be recorded in acres (two places of decimal).</p>

#23 B7_q9: Acquisition-value (Rs.)

Information	[Type= continuous] [Format=numeric] [Missing=*]
Statistics [NW/ W]	[Valid=47058 /-] [Invalid=120621 /-]
Literal question	What was the value of the area acquired by the household during 1st July,1991 to the date of survey?

File Block 7_Visit 1_Area of land owned as on date of survey and transactions

#24 B7_q10: Disposal-area (0.00 acres)

Information	[Type= continuous] [Format=numeric] [Missing=*]
Statistics [NW/ W]	[Valid=46803 /-] [Invalid=120876 /-]
Literal question	How much area is disposed by the household during 1st July,1991 to the date of survey?

#25 B7_q11: Disposal-value (Rs.)

Information	[Type= continuous] [Format=numeric] [Missing=*]
Statistics [NW/ W]	[Valid=46809 /-] [Invalid=120870 /-]
Literal question	What was the value of the area disposed by the household during 1st July,1991 to the date of survey?

#26 B7_q12: Area (0.00 acres)

Information	[Type= continuous] [Format=numeric] [Missing=*]
Statistics [NW/ W]	[Valid=167178 /-] [Invalid=501 /-]
Literal question	How much area is owned by the household as on 30th June 1991?

#27 B7_q13: Value (Rs.)

Information	[Type= continuous] [Format=numeric] [Missing=*]
Statistics [NW/ W]	[Valid=167199 /-] [Invalid=480 /-]
Literal question	What was the value of the area owned by the household as on 30th June 1991?

#28 Update_Code: Update code

Information	[Type= discrete] [Format=character] [Missing=*]
Statistics [NW/ W]	[Valid=41328 /-] [Invalid=0 /-]
Recoding and Derivation	This round contains some variables which are not in the questionnaire. These variables have been calculated for the purpose of specific tabulation for which documentation is not available. The user may ignore them.

File Blocks 8,9_Visit 1_Livestock, poultry, agricultural machinery and implements owned

#1 HHID: Key to identify a household

Information	[Type= discrete] [Format=character] [Missing=*]
Statistics [NW/ W]	[Valid=249887 /-] [Invalid=0 /-]
Recoding and Derivation	This variable has been derived for identifying a household by combining Serial no of village / Block, Sub Stratum and Sample Household number.

#2 RoundSchedule: Round Schedule

Information	[Type= discrete] [Format=character] [Missing=*]
Statistics [NW/ W]	[Valid=249887 /-] [Invalid=0 /-]
Definition	Indicates the NSS round and schedule number of this survey.

Information [Type= discrete] [Format=character] [Missing=*]

Statistics [NW/ W] [Valid=249887 /-] [Invalid=0 /-]

Value	Label	Cases	Percentage
08		119837	48.0%
09		130050	52.0%

File Blocks 8,9 _Visit 1_Livestock, poultry, agricultural machinery and implements owned

#16 Block_No: Block No.

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

#17 B8_9_q1: Item serial no.

Information	[Type= discrete] [Format=character] [Missing=*]
Statistics [NW/ W]	[Valid=249887 /-] [Invalid=0 /-]

#18 B8_9_q3: Number owned as on date of survey

Information	[Type= continuous] [Format=numeric] [Missing=*]
Statistics [NW/ W]	[Valid=165369 /-] [Invalid=84518 /-]
Literal question	How many items are owned by the household as on date of survey?
Interviewer's instructions	For each of the items listed in col. (2), the number of animals owned on the date of survey will be ascertained and recorded in col. (3).

#19 B8_9_q4: Value as on date of survey

Information	[Type= continuous] [Format=numeric] [Range= 0-375528] [Missing=*]
Statistics [NW/ W]	[Valid=248292 /-] [Invalid=1595 /-] [Mean=2723.622 /-] [StdDev=10711.614 /-]
Literal question	What is the value of the items owned by the household as on date of survey?
Interviewer's instructions	The value of each of livestock will be assessed and the total value of all the livestock recorded in col. (3) against an item will be entered in col. (4) against the same item.

#20 B8_9_q5: No. of transactions as on date of survey

Information	[Type= continuous] [Format=numeric] [Missing=*]
Statistics [NW/ W]	[Valid=12150 /-] [Invalid=237737 /-]
Literal question	How many items were transacted by the household as on date of survey?

#21 B8_9_q6: Value of transactions as on date of survey

Information	[Type= continuous] [Format=numeric] [Range= 0-240000] [Missing=*]
Statistics [NW/ W]	[Valid=77392 /-] [Invalid=172495 /-] [Mean=531.133 /-] [StdDev=5505.626 /-]
Literal question	What is the value of the items transacted by the household as on date of survey?

#22 B8_9_q7: No. of disposals as on date of survey

Information	[Type= continuous] [Format=numeric] [Missing=*]
Statistics [NW/ W]	[Valid=7173 /-] [Invalid=242714 /-]
Definition	An asset may be disposed of by way of sale, loss, gift, discarding or otherwise.
Literal question	How many items were disposed by the household as on date of survey?

#23 B8_9_q8: Value of disposals as on date of survey

Information	[Type= continuous] [Format=numeric] [Range= 0-126000] [Missing=*]
Statistics [NW/ W]	[Valid=71529 /-] [Invalid=178358 /-] [Mean=214.619 /-] [StdDev=1915.76 /-]
Literal question	What was the value of the items disposed by the household as on date of survey?

#24 B8_9_q9: No. of assets owned as on date of survey

Information	[Type= continuous] [Format=numeric] [Missing=*]
Statistics [NW/ W]	[Valid=160908 /-] [Invalid=88979 /-]
Literal question	How many asset items are owned by the household as on date of survey?

File Blocks 8,9 _Visit 1_Livestock, poultry, agricultural machinery and implements owned

#25 B8_9_q10: Value of assets as on date of survey

Information	[Type= continuous] [Format=numeric] [Range= 0-375500] [Missing=*]
Statistics [NW/ W]	[Valid=243880 /-] [Invalid=6007 /-] [Mean=2667.294 /-] [StdDev=10293.447 /-]
Literal question	What is the value of asset items owned by the household as on date of survey?

#26 Update_Code: Update code

Information	[Type= discrete] [Format=character] [Missing=*]
Statistics [NW/ W]	[Valid=62421 /-] [Invalid=0 /-]
Recoding and Derivation	This round contains some variables which are not in the questionnaire. These variables have been calculated for the purpose of specific tabulation for which documentation is not available. The user may ignore them.

File Block 10_Visit 1_Owned buildings and other constructions and their transactions

#1 HHID: Key to identify a household

Information	[Type= discrete] [Format=character] [Missing=*]
Statistics [NW/ W]	[Valid=230037 /-] [Invalid=0 /-]
Recoding and Derivation	This variable has been derived for identifying a household by combining Serial no of village / Block, Sub Stratum and Sample Household number.

#2 RoundSchedule: Round Schedule

Information	[Type= discrete] [Format=character] [Missing=*]
Statistics [NW/ W]	[Valid=230037 /-] [Invalid=0 /-]
Definition	Indicates the NSS round and schedule number of this survey.

#3 Sample: Sample

Information	[Type= discrete] [Format=character] [Missing=*]
Statistics [NW/ W]	[Valid=230037 /-] [Invalid=0 /-]

#4 Visit_no: Visit no.

Information	[Type= discrete] [Format=character] [Missing=*]
Statistics [NW/ W]	[Valid=230037 /-] [Invalid=0 /-]

Value	Label	Cases	Percentage
1		230037	100.0%

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

#5 State_Region: State Region

Information	[Type= discrete] [Format=character] [Missing=*]
Statistics [NW/ W]	[Valid=230037 /-] [Invalid=0 /-]
Definition	Regions are hierarchical domains of study below the level of State/ Union Territory in the NSS.

#6 State: State

Information	[Type= discrete] [Format=character] [Missing=*]
Statistics [NW/ W]	[Valid=230037 /-] [Invalid=0 /-]
Recoding and Derivation	This variable has been derived from the variable "State Region" to enable the users to easily access state wise data.

Frequency table not shown (32 Modalities)

File Block 10_Visit 1_Owned buildings and other constructions and their transactions

#7 FlotNo: Flot No.

Information	[Type= discrete] [Format=character] [Missing=*]
Statistics [NW/ W]	[Valid=230037 /-] [Invalid=0 /-]
Recoding and Derivation	This round contains some variables which are not in the questionnaire. These variables have been calculated for the purpose of specific tabulation for which documentation is not available. The user may ignore them.

#8 Sector: Sector

Information	[Type= discrete] [Format=character] [Missing=*]
Statistics [NW/ W]	[Valid=230037 /-] [Invalid=0 /-]
Definition	Sector : A word used for the rural-urban demarcation.

Value	Label	Cases	Percentage
1	Rural	171714	74.6%
2	Urban	58323	25.4%

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

#9 Stratum: Stratum

Information	[Type= discrete] [Format=character] [Missing=*]
Statistics [NW/ W]	[Valid=230037 /-] [Invalid=0 /-]
Definition	Within each district of a State/ UT, two basic strata were formed: (i) rural stratum comprising of all rural areas of the district and (ii) urban stratum comprising of all the urban areas of the district.

#10 SubSample: Sub Sample

Information	[Type= discrete] [Format=character] [Missing=*]
Statistics [NW/ W]	[Valid=230037 /-] [Invalid=0 /-]
Definition	An important feature of the NSS sampling design is that the total sample of first stage units is drawn in the form of two or more independent and parallel samples, termed as interpenetrating sub-samples. Each sub- sample is drawn by the same sampling scheme and is capable of providing valid estimates of the population parameters. The comparison of sub-sample wise estimates shows the margin of uncertainty associated with the combined sample estimate. Interpenetrating sub-samples have been used in NSS (i) to obtain valid estimates from each sub-round (season) of the survey round, and (ii) to ensure that Central and State samples for any State/ UT cover independent and equally valid samples of units. The samples surveyed by the NSSO staff are termed as Central sample and the matched samples surveyed by State Government staff are termed as State sample.

Value	Label	Cases	Percentage
1	Central sample	115107	50.0%
2	State sample	114930	50.0%

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

#11 SubRound: Sub Round

Information	[Type= discrete] [Format=character] [Missing=*]
Statistics [NW/ W]	[Valid=230037 /-] [Invalid=0 /-]

Value	Label	Cases	Percentage
0	Invalid	1880	0.8%
1	Sub - Round 1	115847	50.4%
2	Sub - Round 2	112310	48.8%

File Block 10_Visit 1_Owned buildings and other constructions and their transactions

#11 SubRound: Sub Round

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

#12 Vill_Blk_Slno: Village/BI. Srl. No.

Information	[Type= discrete] [Format=character] [Missing=*]
Statistics [NW/ W]	[Valid=230037 /-] [Invalid=0 /-]
Definition	The first-stage units are census villages in the rural sector and the NSSO urban frame survey (UFS) blocks in the urban sector. This variable indicates the serial number assigned to such units.

#13 SubStratum: Sub Stratum

Information	[Type= discrete] [Format=character] [Missing=*]
Statistics [NW/ W]	[Valid=230037 /-] [Invalid=0 /-]

#14 Hhold_no: Sample Household No.

Information	[Type= discrete] [Format=character] [Missing=*]
Statistics [NW/ W]	[Valid=230037 /-] [Invalid=0 /-]

#15 Level: Level

Information	[Type= discrete] [Format=character] [Missing=*]
Statistics [NW/ W]	[Valid=230037 /-] [Invalid=0 /-]

Value	Label	Cases	Percentage
05		230037	100.0%

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

#16 B10_q1: Item serial no.

Information	[Type= discrete] [Format=character] [Missing=*]
Statistics [NW/ W]	[Valid=230037 /-] [Invalid=0 /-]

#17 Record_No: Record no.

Information	[Type= discrete] [Format=character] [Missing=*]
Statistics [NW/ W]	[Valid=230037 /-] [Invalid=0 /-]

Value	Label	Cases	Percentage
1		115032	50.0%
2		115005	50.0%

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

#18 B10_q3_q13: Floor area -owned (sq.mtr.)

Information	[Type= continuous] [Format=numeric] [Missing=*]
Statistics [NW/ W]	[Valid=161393 /-] [Invalid=68644 /-]
Literal question	How much floor area is owned by the household as on the date of survey?
Interviewer's instructions	Floor area and value of the building and other constructions owned by the sample household on the date of survey will be recorded under cols. (3) and (4) respectively.

#19 B10_q4_q14: Value (Rs.)

Information	[Type= continuous] [Format=numeric] [Range= 0-13000000] [Missing=*]
Statistics [NW/ W]	[Valid=230037 /-] [Invalid=0 /-] [Mean=21116.394 /-] [StdDev=100182.067 /-]
Literal question	What is the value of floor area owned by the household as on the date of survey?

File Block 10_Visit 1_Owned buildings and other constructions and their transactions

#20 B10_q5_q15: Floor area-purchased (sq.mtr.)

Information	[Type= continuous] [Format=numeric] [Missing=*]
Statistics [NW/ W]	[Valid=94497 /-] [Invalid=135540 /-]
Literal question	How much floor area was purchased by the household during 1st July 1991 to the date of survey?
Interviewer's instructions	If the household has purchased (first hand or second hand) any building or structure during the reference period, the floor area of the building or structure along with the purchase price (whether fully paid or not) of the said structure will be recorded in cols. (5) and (6) respectively.

#21 B10_q6_q16: Value (Rs.)

Information	[Type= continuous] [Format=numeric] [Range= 0-2500000] [Missing=*]
Statistics [NW/ W]	[Valid=230037 /-] [Invalid=0 /-] [Mean=102.469 /-] [StdDev=8903.469 /-]
Literal question	What was the value of the floor area purchased by the household during 1st July 1991 to the date of survey?

#22 B10_q7_q17: Floor area- construction & improvement (sq.mtr.)

Information	[Type= continuous] [Format=numeric] [Missing=*]
Statistics [NW/ W]	[Valid=95796 /-] [Invalid=134241 /-]
Literal question	How much floor area got constructed and improved by the household during 1st July 1991 to the date of survey?
Interviewer's instructions	In case any building or other construction is newly built or the floor area of the existing structure is extended during the reference period, the floor area of the newly constructed building or the extended floor area of the existing structure along with the value of the construct red building/other construction or the extended portion of the building/other construction will be recorded in cols. (7) and (8) respectively.

#23 B10_q8_q18: Value (Rs.)

Information	[Type= continuous] [Format=numeric] [Range= 0-6399998] [Missing=*]
Statistics [NW/ W]	[Valid=230037 /-] [Invalid=0 /-] [Mean=407.468 /-] [StdDev=20852.731 /-]
Literal question	What was the value of the floor area constructed and improved by the household during 1st July 1991 to the date of survey?

#24 B10_q9_q19: Floor area - otherwise acquired (sq.mtr.)

Information	[Type= continuous] [Format=numeric] [Missing=*]
Statistics [NW/ W]	[Valid=94711 /-] [Invalid=135326 /-]
Literal question	How much floor area was otherwise acquired by the household during 1st July 1991 to the date of survey?
Interviewer's instructions	The required information of buildings or structures/constructions acquired by the household during the reference period by any other way than mentioned above, such as gift etc., will be recorded here. Value will be equal to the amount it will fetch if sold in the market in the existing condition.

#25 B10_q10_q20: Value (Rs.)

Information	[Type= continuous] [Format=numeric] [Range= 0-6399998] [Missing=*]
Statistics [NW/ W]	[Valid=230037 /-] [Invalid=0 /-] [Mean=161.445 /-] [StdDev=20570.758 /-]
Literal question	What was the value of the floor area otherwise acquired by the household during 1st July 1991 to the date of survey?

#26 B10_q11_q21: Floor area - Total acquisition (sq.mtr.)

Information	[Type= continuous] [Format=numeric] [Missing=*]
Statistics [NW/ W]	[Valid=162675 /-] [Invalid=67362 /-]
Literal question	How much total floor area has been acquired by the household during 1st July 1991 to the date of survey?

File Block 10_Visit 1_Owned buildings and other constructions and their transactions

#27 B10_q12_q22: Value (Rs.)

Information	[Type= continuous] [Format=numeric] [Range= 0-13000000] [Missing=*]
Statistics [NW/ W]	[Valid=230037 /-] [Invalid=0 /-] [Mean=21241.344 /-] [StdDev=101669.695 /-]
Literal question	What is the value of the total floor area acquired by the household during 1st July 1991 to the date of survey?

#28 Update_Code: Update code

Information	[Type= discrete] [Format=character] [Missing=*]
Statistics [NW/ W]	[Valid=55606 /-] [Invalid=0 /-]
Recoding and Derivation	This round contains some variables which are not in the questionnaire. These variables have been calculated for the purpose of specific tabulation for which documentation is not available. The user may ignore them.

File Block 11_Visit 1_Non-farm business equipments owned and their transactions

#1 HHID: Key to identify a household

Information	[Type= discrete] [Format=character] [Missing=*]
Statistics [NW/ W]	[Valid=33708 /-] [Invalid=0 /-]
Recoding and Derivation	This variable has been derived for identifying a household by combining Serial no of village / Block, Sub Stratum and Sample Household number.

#2 RoundSchedule: Round Schedule

Information	[Type= discrete] [Format=character] [Missing=*]
Statistics [NW/ W]	[Valid=33708 /-] [Invalid=0 /-]
Definition	Indicates the NSS round and schedule number of this survey.

#3 Sample: Sample

Information	[Type= discrete] [Format=character] [Missing=*]
Statistics [NW/ W]	[Valid=33708 /-] [Invalid=0 /-]

#4 Visit_no: Visit no.

Information	[Type= discrete] [Format=character] [Missing=*]
Statistics [NW/ W]	[Valid=33708 /-] [Invalid=0 /-]

Value	Label	Cases	Percentage
1		33708	100.0%

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

#5 State_Region: State Region

Information	[Type= discrete] [Format=character] [Missing=*]
Statistics [NW/ W]	[Valid=33708 /-] [Invalid=0 /-]
Definition	Regions are hierarchical domains of study below the level of State/ Union Territory in the NSS.

#6 State: State

Information	[Type= discrete] [Format=character] [Missing=*]
Statistics [NW/ W]	[Valid=33708 /-] [Invalid=0 /-]
Recoding and Derivation	This variable has been derived from the variable "State Region" to enable the users to easily access state wise data.

Frequency table not shown (32 Modalities)

File Block 11_Visit 1_Non-farm business equipments owned and their transactions

#7 FlotNo: Flot No.

Information	[Type= discrete] [Format=character] [Missing=*]
Statistics [NW/ W]	[Valid=33708 /-] [Invalid=0 /-]
Recoding and Derivation	This round contains some variables which are not in the questionnaire. These variables have been calculated for the purpose of specific tabulation for which documentation is not available. The user may ignore them.

#8 Sector: Sector

Information	[Type= discrete] [Format=character] [Missing=*]
Statistics [NW/ W]	[Valid=33708 /-] [Invalid=0 /-]
Definition	Sector : A word used for the rural-urban demarcation.

Value	Label	Cases	Percentage
1	Rural	15222	45.2%
2	Urban	18486	54.8%

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

#9 Stratum: Stratum

Information	[Type= discrete] [Format=character] [Missing=*]
Statistics [NW/ W]	[Valid=33708 /-] [Invalid=0 /-]
Definition	Within each district of a State/ UT, two basic strata were formed: (i) rural stratum comprising of all rural areas of the district and (ii) urban stratum comprising of all the urban areas of the district.

#10 SubSample: Sub Sample

Information	[Type= discrete] [Format=character] [Missing=*]
Statistics [NW/ W]	[Valid=33708 /-] [Invalid=0 /-]
Definition	An important feature of the NSS sampling design is that the total sample of first stage units is drawn in the form of two or more independent and parallel samples, termed as interpenetrating sub-samples. Each sub- sample is drawn by the same sampling scheme and is capable of providing valid estimates of the population parameters. The comparison of sub-sample wise estimates shows the margin of uncertainty associated with the combined sample estimate. Interpenetrating sub-samples have been used in NSS (i) to obtain valid estimates from each sub-round (season) of the survey round, and (ii) to ensure that Central and State samples for any State/ UT cover independent and equally valid samples of units. The samples surveyed by the NSSO staff are termed as Central sample and the matched samples surveyed by State Government staff are termed as State sample.

Value	Label	Cases	Percentage

#5 State_Region: State Region

Information	[Type= discrete] [Format=character] [Missing=*]
Statistics [NW/ W]	[Valid=497759 /-] [Invalid=0 /-]
Definition	Regions are hierarchical domains of study below the level of State/ Union Territory in the NSS.

#6 State: State

Information	[Type= discrete] [Format=character] [Missing=*]
Statistics [NW/ W]	[Valid=497759 /-] [Invalid=0 /-]
Recoding and Derivation	This variable has been derived from the variable "State Region" to enable the users to easily access state wise data.

Frequency table not shown (32 Modalities)

#7 FlotNo: Flot No.

Information	[Type= discrete] [Format=character] [Missing=*]
Statistics [NW/ W]	[Valid=497759 /-] [Invalid=0 /-]
Recoding and Derivation	This round contains some variables which are not in the questionnaire. These variables have been calculated for the purpose of specific tabulation for which documentation is not available. The user may ignore them.

#8 Sector: Sector

Information	[Type= discrete] [Format=character] [Missing=*]
Statistics [NW/ W]	[Valid=497759 /-] [Invalid=0 /-]
Definition	Sector : A word used for the rural-urban demarcation.

Value	Label	Cases	Percentage
1	Rural	269023	54.0%
2	Urban	228736	46.0%

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

File Blocks 12,13_Visit 1_Transport equipments and durable assets owned and their transactions

#9 Stratum: Stratum

Information	[Type= discrete] [Format=character] [Missing=*]
Statistics [NW/ W]	[Valid=497759 /-] [Invalid=0 /-]
Definition	Within each district of a State/ UT, two basic strata were formed: (i) rural stratum comprising of all rural areas of the district and (ii) urban stratum comprising of all the urban areas of the district.

#10 SubSample: Sub Sample

Information	[Type= discrete] [Format=character] [Missing=*]
Statistics [NW/ W]	[Valid=497759 /-] [Invalid=0 /-]
Definition	<p>An important feature of the NSS sampling design is that the total sample of first stage units is drawn in the form of two or more independent and parallel samples, termed as interpenetrating sub-samples. Each sub- sample is drawn by the same sampling scheme and is capable of providing valid estimates of the population parameters. The comparison of sub-sample wise estimates shows the margin of uncertainty associated with the combined sample estimate.</p> <p>Interpenetrating sub-samples have been used in NSS (i) to obtain valid estimates from each sub-round (season) of the survey round, and (ii) to ensure that Central and State samples for any State/ UT cover independent and equally valid samples of units.</p> <p>The samples surveyed by the NSSO staff are termed as Central sample and the matched samples surveyed by State Government staff are termed as State sample.</p>

Value	Label	Cases	Percentage
1	Central sample	249948	50.2%
2	State sample	247811	49.8%

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

#11 SubRound: Sub Round

Information	[Type= discrete] [Format=character] [Missing=*]		
Statistics [NW/ W]	[Valid=497759 /-] [Invalid=0 /-]		
Value	Label	Cases	Percentage
0	Invalid	2334	0.5%
1	Sub - Round 1	246252	49.5%
2	Sub - Round 2	249173	50.1%

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

#12 Vill_Blk_Slno: Village/BI. Srl. No.

Information	[Type= discrete] [Format=character] [Missing=*]
Statistics [NW/ W]	[Valid=497759 /-] [Invalid=0 /-]
Definition	The first-stage units are census villages in the rural sector and the NSSO urban frame survey (UFS) blocks in the urban sector. This variable indicates the serial number assigned to such units.

#13 SubStratum: Sub Stratum

Information	[Type= discrete] [Format=character] [Missing=*]

File Block 17pt1_Visit 1_Number of cash loans outstanding and loans repaid and written off

#8 Sector: Sector

Statistics [NW/ W] [Valid=54748 /-] [Invalid=0 /-]

Definition Sector : A word used for the rural-urban demarcation.

Value	Label	Cases	Percentage
1	Rural	34820	63.6%
2	Urban	19928	36.4%

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

#9 Stratum: Stratum

Information [Type= discrete] [Format=character] [Missing=*]

Statistics [NW/ W] [Valid=54748 /-] [Invalid=0 /-]

Definition Within each district of a State/ UT, two basic strata were formed:
(i) rural stratum comprising of all rural areas of the district and (ii) urban stratum comprising of all the urban areas of the district.

#10 SubSample: Sub Sample

Information [Type= discrete] [Format=character] [Missing=*]

Statistics [NW/ W] [Valid=54748 /-] [Invalid=0 /-]

Definition An important feature of the NSS sampling design is that the total sample of first stage units is drawn in the form of two or more independent and parallel samples, termed as interpenetrating sub-samples. Each sub- sample is drawn by the same sampling scheme and is capable of providing valid estimates of the population parameters. The comparison of sub-sample wise estimates shows the margin of uncertainty associated with the combined sample estimate.

Interpenetrating sub-samples have been used in NSS (i) to obtain valid estimates from each sub-round (season) of the survey round, and (ii) to ensure that Central and State samples for any State/ UT cover independent and equally valid samples of units.

The samples surveyed by the NSSO staff are termed as Central sample and the matched samples surveyed by State Government staff are termed as State sample.

Value	Label	Cases	Percentage
1	Central sample	27462	50.2%
2	State sample	27286	49.8%

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

#11 SubRound: Sub Round

Information [Type= discrete] [Format=character] [Missing=*]

Statistics [NW/ W] [Valid=54748 /-] [Invalid=0 /-]

Value	Label	Cases	Percentage
0	Invalid	313	0.6%
1	Sub - Round 1	26942	49.2%
2	Sub - Round 2	27493	50.2%

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

#12 Vill_Blk_Slno: Village/BI. Srl. No.

Information [Type= discrete] [Format=character] [Missing=*]

Statistics [NW/ W] [Valid=54748 /-] [Invalid=0 /-]

Definition The first-stage units are census villages in the rural sector and the NSSO urban frame survey (UFS) blocks in the urban sector. This variable indicates the serial number assigned to such units.

File Block 17pt1_Visit 1_Number of cash loans outstanding and loans repaid and written off

#13 SubStratum: Sub Stratum

Information [Type= discrete] [Format=character] [Missing=*]

Statistics [NW/ W] [Valid=54748 /-] [Invalid=0 /-]

#14 Hhold_no: Sample Household No.

Information [Type= discrete] [Format=character] [Missing=*]

Statistics [NW/ W] [Valid=54748 /-] [Invalid=0 /-]

#15 Level: Level

Information [Type= discrete] [Format=character] [Missing=*]

Statistics [NW/ W] [Valid=54748 /-] [Invalid=0 /-]

Value	Label	Cases	Percentage
09		54748	100.0%

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

#16 B17_1_q1: Whether any cash loan outstanding on dt/survey

Information [Type= discrete] [Format=character] [Missing=*]

Statistics [NW/ W] [Valid=54732 /-] [Invalid=0 /-]

Literal question Whether any cash loan is outstanding on the date of survey?

Interviewer's instructions It is to be ascertained from the respondent whether any member of the household has any cash loan outstanding, i.e. whether any amount remains payable on the date of survey. Code '1' will be entered if the answer is affirmative; otherwise code '2' will be recorded against this item.

Value	Label	Cases	Percentage
0	invalid	5	0.0%
1	yes	24852	45.4%
2	no	29875	54.6%

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

#17 B17_1_q2: No. of cash loans outstanding to institutional agencies

Information [Type= continuous] [Format=numeric] [Range= 0-22] [Missing=*]

Statistics [NW/ W] [Valid=16359 /-] [Invalid=38389 /-] [Mean=1.142 /-] [StdDev=0.746 /-]

Literal question How many cash loans are outstanding to institutional agencies?

Interviewer's instructions If the answer to item 1 is '1'. Number of loans which remain outstanding on the date of survey will be recorded in the box spaces provided against item 2 and/or 3, depending on whether those loans were taken from institutional agencies or non-institutional agencies or from both. The institutional agencies are:-
government, cooperative society/bank, commercial banks including regional rural bank, insurance, provident fund and other institutional agencies.
Any other agency like money lender, trader, relatives and friends etc., will be considered as non-institutional agency.

#18 B17_1_q3: No. of cash loans outstanding to non-institutional agencies

Information [Type= continuous] [Format=numeric] [Range= 0-50] [Missing=*]

Statistics [NW/ W] [Valid=12935 /-] [Invalid=41813 /-] [Mean=1.283 /-] [StdDev=1.139 /-]

Literal question How many cash loans are outstanding to non- institutional agencies?

Interviewer's instructions If the answer to item 1 is '1'. Number of loans which remain outstanding on the date of survey will be recorded in the box spaces provided against item 2 and/or 3, depending on whether those loans were taken from institutional agencies or non-institutional agencies or from both. The institutional agencies are:-

File Block 17pt1_Visit 1_Number of cash loans outstanding and loans repaid and written off

#18 B17_1_q3: No. of cash loans outstanding to non-institutional agencies

government, cooperative society/bank, commercial banks including regional rural bank, insurance, provident fund and other institutional agencies.

Any other agency like money lender, trader, relatives and friends etc., will be considered as non-institutional agency.

#19 B17_1_q4: Was any cash loan repaid during 1.7.91 to dt/survey

Information [Type= discrete] [Format=character] [Missing=*]

Statistics [NW/ W] [Valid=54187 /-] [Invalid=0 /-]

Literal question Was any cash loan repaid during 1.7.91 to date of survey?

Interviewer's instructions The household may not have any loan outstanding on the date of survey. But, it may have repaid some loans during 1.7.91 to date of survey during the first visit and 1.1.92 to date survey during the second visit. It is also possible that the household has some outstanding loan on the date of survey and also has repaid fully some other loans(not the loans already recorded against items 2 and 3) during the reference period. Information to be sought against item 4 relates to the loans whose final repayment was made during the reference period and no amount of those loans remains outstanding on the date of survey. In some situation, it is possible that household takes a second loan from the same source, say provident fund, before the first loan is fully repaid and the amount of the first loan is so adjusted that the amount borrowed from the second loan gets inflated by the amount unpaid on account of the first loan. In all such cases, the second loan will be considered as outstanding on the date of survey, while the first loan will be treated as repaid fully during the reference period.

Value	Label	Cases	Percentage
0	invalid	11	0.0%
1	yes	1284	2.4%
2	no	52892	97.6%

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

#20 B17_1_q5: No. of cash loans repaid to institutional agencies

Information [Type= continuous] [Format=numeric] [Range= 0-42] [Missing=*]

Statistics [NW/ W] [Valid=1248 /-] [Invalid=53500 /-] [Mean=1.236 /-] [StdDev=2.714 /-]

Literal question How many cash loans have been repaid to institutional agencies?

#21 B17_1_q6: No. of cash loans repaid to non-institutional agencies

Information [Type= continuous] [Format=numeric] [Range= 0-92] [Missing=*]

Statistics [NW/ W] [Valid=944 /-] [Invalid=53804 /-] [Mean=1.036 /-] [StdDev=3.382 /-]

Literal question How many cash loans have been repaid to non-institutional agencies?

#22 B17_1_q7: Was any cash loan written off during 1.7.91 to dt/survey

Information [Type= discrete] [Format=character] [Missing=*]

Statistics [NW/ W] [Valid=54057 /-] [Invalid=0 /-]

Literal question Was any cash loan written off during 1.7.91 to date of survey?

Interviewer's instructions Sometimes to provide debt relief to farmer and others, the government agencies, banks etc. exempt the household from repaying a loan fully or partly and consider such loan as cleared up. Whether any loan other than those recorded against items 2,3,5 and 6 is written off during 1.7.91 to date of survey in the first visit and 1.1.92 to date of survey in the second visit will be ascertained and recorded against item 7 in terms of codes : yes-1, no-2.

Value	Label	Cases	Percentage

Statistics [NW/ W]	[Valid=34518 /-] [Invalid=47 /-] [Mean=10272.586 /-] [StdDev=36604.924 /-]
Literal question	How much amount was borrowed?
Interviewer's instructions	For each loan, the amount originally borrowed will be recorded in rupees (whole number) in col. (5).

#22 B17_2_q6: Credit agency

Information	[Type= discrete] [Format=character] [Missing=*]
Statistics [NW/ W]	[Valid=33411 /-] [Invalid=0 /-]
Literal question	Which credit agency has given the loan?
Interviewer's instructions	The agency from which the loan has been taken will be recorded in col. (6) in code number. The codes are : government-1, cooperative society/bank-2, commercial bank including regional rural banks-3, insurance-4, provident fund-5, other institutional agencies-6, landlord-7, agriculturist money lender-8, professional money lender-9, trader-10, relatives and friends-11, doctors, lawyers and other professionals-12 and others-99. The codes 1 to 6 are considered as institutional agencies and will be applicable for loans recorded under 'institutional agencies'. The remaining codes are treated as non-institutional agencies and will be applicable for loans recorded under 'non-institutional agencies'.

Value	Label	Cases	Percentage
01	government	2575	7.7%
02	cooperative society/bank	6822	20.4%
03	commercial banks including regional rural bank	6935	20.8%
04	insurance	242	0.7%
05	provident fund	1115	3.3%
06	financial corporation	672	2.0%
07	landlord	768	2.3%
08	agriculturist money lender	1771	5.3%
09	professional money lender	3940	11.8%
10	trader	1194	3.6%
11	relatives and friends	5596	16.7%
12	doctors, lawyers and other professionals	161	0.5%
98	invalid	39	0.1%
99	others	1581	4.7%

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

#23 B17_2_q7: Scheme of lending

Information	[Type= discrete] [Format=character] [Missing=*]
Statistics [NW/ W]	[Valid=34481 /-] [Invalid=0 /-]
Literal question	Under which scheme of lending, loan has been received by the household?
Interviewer's instructions	Sometimes institutional agencies advance loans under various programmes or schemes for development of particular community, area, industry etc. The scheme under which loans are borrowed will be ascertained and will be filled in col. (7) in terms of code. The codes are: integrated rural development programme (IRDP) 1 differential rates of interest (DRI) 2 self-employment scheme for educated unemployed youth 3 self-employment programme for urban youth 4 financial assistance to ex-servicemen for self-employment 5

File Block 17pt2_Visit 1_Particulars of cash loans payable by the household and transactions of loans

#23 B17_2_q7: Scheme of lending

advances to minority communities 6
 employment guarantee scheme (EGS) 7
 other schemes 8
 not covered under any scheme 9

In case of non-institutional agencies, the code in col. (7) will always be 9.

Value	Label	Cases	Percentage
1	Integrated rural development programme (IRDP)	3647	10.6%
2	Differential rates of interest (DRI)	339	1.0%
3	Self employment scheme for educated unemployed youth	514	1.5%
4	Self employment programme for urban youth	401	1.2%
5	Financial assistance to ex-servicemen for self employment	63	0.2%
6	Advances to minority community	135	0.4%
7	Employment guarantee scheme (EGS)	229	0.7%
8	Other schemes	7641	22.2%
9	Not under any specific scheme	21512	62.4%

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

#24 B17_2_q8: Type of loan

Information	[Type= discrete] [Format=character] [Missing=*]
Statistics [NW/ W]	[Valid=34468 /-] [Invalid=0 /-]
Literal question	What is the type of loan?
Interviewer's instructions	<p>The loans are generally given for a specific period. Short-term loans are advanced for a period up to 12 months, medium-term for a period ranging from 1 to 3 years and long-term loan for a period exceeding 3 years. Short term loans are sometimes given against the pledge of commodities or without any pledge. So the relevant category of loans has to be ascertained and the corresponding code is to be given in col. (8). The codes are:</p> <p>short term pledged 1 short term non-pledged 2 medium term 3 long term 4</p>

Value	Label	Cases	Percentage
1	short term pledged	4583	13.3%
2	short term non-pledged	9675	28.1%
3	medium term	10440	30.3%
4	long term	9735	28.2%
9	invalid	35	0.1%

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

#25 B17_2_q9: Nature of interest

Information	[Type= discrete] [Format=character] [Missing=*]
Statistics [NW/ W]	[Valid=34127 /-] [Invalid=0 /-]
Literal question	What is the nature of interest?
Interviewer's instructions	<p>The nature of interest expressed in terms of codes will be recorded in col. (9) for each loan. The codes are:</p> <p>interest free 1 simple 2 compound 3 confessional rate 4</p>

File Block 17pt2_Visit 1_Particulars of cash loans payable by the household and transactions of loans

#25 B17_2_q9: Nature of interest

The rate of interest per 100 rupee per annum actually charged by the lender will be recorded against col. (10) in two decimal places of rupee.

Value	Label	Cases	Percentage
1	interest free	9723	28.5%
2	simple	18125	53.1%
3	compound	4840	14.2%
4	concessional rate	1412	4.1%
9	invalid	27	0.1%

#26 B17_2_q10: Rate of interest (0.00 p.c.)

Information [Type= continuous] [Format=numeric] [Range= 0-360.06] [Missing=*]

Statistics [NW/ W] [Valid=28103 /-] [Invalid=6462 /-] [Mean=19.115 /-] [StdDev=21.288 /-]

Literal question What is the rate of interest?

#27 B17_2_q11: Purpose of loan

Information [Type= discrete] [Format=character] [Missing=*]

Statistics [NW/ W] [Valid=34390 /-] [Invalid=0 /-]

Literal question What is the purpose of loan-whether for farm/non-farm/hh expenditure?

Interviewer's instructions

The purpose of loan is defined as the occasion which prompts the household to contract a loan. Even if the loan amount is utilized for a purpose other than that for which it is borrowed, the original purpose of borrowing will only be considered. If more than one purpose are involved, the purpose for which the maximum amount of loan is originally intended to be spent will be considered.

For each of the loans recorded in block 17.2, it is to be ascertained as to whether the original purpose of borrowing was to incur expenditure on items relating to farm business or non-farm business or other 1 to 3 will be recorded in col. (11). The codes are as follows:

farm business 1
non-farm business 2
household 3

Value	Label	Cases	Percentage
1	farm business	8314	24.2%
2	non-farm business	4302	12.5%
3	household	21731	63.2%
9	invalid	43	0.1%

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

#28 B17_2_q12: Type of expenditure

Information [Type= discrete] [Format=character] [Missing=*]

Statistics [NW/ W] [Valid=34421 /-] [Invalid=0 /-]

Literal question What is the type of expenditure?

Interviewer's instructions

After recording the broad category of the purpose of loan in col. (11), the type of expenditure on which the loan amount was intended to be spent will be ascertained and recorded in terms of codes in col. (12). The codes are as follows:

(new purchase, own construction, major repairs, additions, alterations and improvement of buildings and other constructions 01

File Block 17pt2_Visit 1_Particulars of cash loans payable by the household and transactions of loans

#28 B17_2_q12: Type of expenditure

	(old) purchase of buildings and other constructions 02
	purchase of land and land rights 03
	bonding and other land improvement including reclamation of land 04
	purchase of livestock (in farm business only) 05
	(new) purchase, own construction, major repairs and improvement of machinery and equipments including transport equipments, furniture and fixtures and household durables 06
	(old) purchase of machinery & equipments including transport equipments, furniture & fixtures and household durables 07
	current expenditure for raw materials etc. and those for normal repairs and maintenance of buildings construction, machinery and equipments including transport equipments, furniture & fixtures and household durables 08
	expenditure on education 09
	marriage in the household 10
	financial investment by the household 11
	repayment of debt by the household 12
	other household expenditure 13
	any other type of expenditure not mentioned above 99

#29 B17_2_q13: Type of security

Information	[Type= discrete] [Format=character] [Missing=*]
Statistics [NW/ W]	[Valid=34238 /-] [Invalid=0 /-]
Literal question	What is the type of security?
Interviewer's instructions	<p>The type of security may be different for different types of loans. The codes for various types of securities to be filled in col. (13) are:</p> <p>personal security 1</p> <p>surety security or guarantee by third party 2</p> <p>crop 3</p> <p>first charge on immovable property 4</p> <p>mortgage of immovable property 5</p> <p>bullion/ornaments 6</p> <p>share of companies, govt. securities and insurance policies 7</p> <p>agricultural commodities 8</p>

File Block 17pt2_Visit 1_Particulars of cash loans payable by the household and transactions of loans

#29 B17_2_q13: Type of security

	<p>movable property other than bullion, share etc. and agricultural commodities 9</p> <p>other type of security 10</p> <p>The first charge on immovable property is defined as the charge on the immovable property created by the first mortgage when there are more than one mortgage for the same immovable property. In such cases, the liability of any mortgage cannot be cleared unless the liabilities of all the previous mortgages are cleared. If the loan is taken without any security, code '1' may be recorded in col. (13). In case, more than one securities are reported against a loan, the code which appears first in the code list will be recorded.</p>
--	--

Value	Label	Cases	Percentage
01	personal security		
02	surety security or guarantee by third party		
03	crop		
04	first charge on immovable property		
05	mortgage of immovable property		
06	bullion/ornaments		
07	share of companies, govt. securities and insurance policies		
08	agricultural commodities		
09	movable property other than bullion, share etc. and agricultural commodities

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

#30 B17_2_q14: Type of mortgage

Information	[Type= discrete] [Format=character] [Missing=*]
Statistics [NW/ W]	[Valid=33979 /-] [Invalid=0 /-]
Literal question	What is the type of mortgage?
Interviewer's instructions	<p>This column will be filled in for all loans entered in block 17.2. In the case of a loan secured by mortgage of immovable property, i.e. if the entry in col. (13) is '5', one of the codes 1 to 4 representing different types of mortgage will be entered in col. (14). If the loan is received without mortgaging any immovable property, code '5' should be recorded in col. (14). The mortgage may be of the following types:</p> <p>(i) SIMPLE MORTGAGE: In simple mortgage, the mortgagor (i.e. the person who mortgages the property) retains the ownership and possession of the property mortgaged. Code '1' will be entered for simple mortgage.</p> <p>(ii) USUFRUCTUARY MORTGAGE: In usufructuary mortgage, the ownership of the property remains with the mortgagor but the possession vests on the mortgagee (i.e. the person to whom the mortgage is made or given). Income from the property accrues to the mortgagee and the mortgage is terminated as soon as the full amount is realized. Code '2' would be given for this type of mortgage.</p> <p>(iii) MORTGAGE BY CONDITIONAL SALE: It is the type of mortgage by the execution of which the ownership and possession of the property vests with the mortgagee and a sale deed is executed. The property is returnable to the mortgagor only on termination of the mortgage (i.e. on the full recovery of loan). Code '3' will be given for this mortgage.</p> <p>(iv) OTHER TYPE OF MORTGAGE: Any type of mortgage different from the above three or any combination of those will be recorded under this category. Code '4' will be given to this type of mortgage.</p> <p>(v) NO MORTGAGE: Loans for which no mortgage is necessary will be recorded under this category, code '5' will be given for no mortgage in col. (14).</p>

Value	Label	Cases	Percentage
1	simple mortgage	3735	11.0%

File Block 17pt2_Visit 1_Particulars of cash loans payable by the household and transactions of loans

#30 B17_2_q14: Type of mortgage

Value	Label	Cases	Percentage
2	usufructuary mortgage	449	1.3%
3	mortgage by conditional sale	701	2.1%
4	other type of mortgage	655	1.9%
5	no mortgage	28355	83.4%
9	invalid	84	0.2%

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

#31 B17_2_q15: Total amount repaid during 1.7.91 to 30.9.91 (Rs.)

Information	[Type= discrete] [Format=character] [Missing=*]
Statistics [NW/ W]	[Valid=782 /-] [Invalid=0 /-]
Definition	Within each district of a State/ UT, two basic strata were formed: (i) rural stratum comprising of all rural areas of the district and (ii) urban stratum comprising of all the urban areas of the district.

#10 SubSample: Sub Sample

Information	[Type= discrete] [Format=character] [Missing=*]
Statistics [NW/ W]	[Valid=782 /-] [Invalid=0 /-]
Definition	An important feature of the NSS sampling design is that the total sample of first stage units is drawn in the form of two or more independent and parallel samples, termed as interpenetrating sub-samples. Each sub- sample is drawn by the same sampling scheme and is capable of providing valid estimates of the population parameters. The comparison of sub-sample wise estimates shows the margin of uncertainty associated with the combined sample estimate. Interpenetrating sub-samples have been used in NSS (i) to obtain valid estimates from each sub-round (season) of the survey round, and (ii) to ensure that Central and State samples for any State/ UT cover independent and equally valid samples of units. The samples surveyed by the NSSO staff are termed as Central sample and the matched samples surveyed by State Government staff are termed as State sample.

Value	Label	Cases	Percentage
1	Central sample	400	51.2%
2	State sample	382	48.8%

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

#6 State: State			
Information	[Type= discrete] [Format=character] [Missing=*]		
Statistics [NW/ W]	[Valid=8554 /-] [Invalid=0 /-]		
Recoding and Derivation	This variable has been derived from the variable "State Region" to enable the users to easily access state wise data.		
<i>Frequency table not shown (32 Modalities)</i>			
#7 FlotNo: Flot No.			
Information	[Type= discrete] [Format=character] [Missing=*]		
Statistics [NW/ W]	[Valid=8554 /-] [Invalid=0 /-]		
Recoding and Derivation	This round contains some variables which are not in the questionnaire. These variables have been calculated for the purpose of specific tabulation for which documentation is not available. The user may ignore them.		

File Block 18_Visit 1_Particulars of other cash and kind loans payable by the household

#8 Sector: Sector

Information	[Type= discrete] [Format=character] [Missing=*]		
Statistics [NW/ W]	[Valid=8554 /-] [Invalid=0 /-]		
Definition	Sector : A word used for the rural-urban demarcation.		
Value	Label	Cases	Percentage
1	Rural	5448	63.7%
2	Urban	3106	36.3%

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

#9 Stratum: Stratum

Information	[Type= discrete] [Format=character] [Missing=*]
Statistics [NW/ W]	[Valid=8554 /-] [Invalid=0 /-]
Definition	Within each district of a State/ UT, two basic strata were formed: (i) rural stratum comprising of all rural areas of the district and (ii) urban stratum comprising of all the urban areas of the district.

#10 SubSample: Sub Sample

Information	[Type= discrete] [Format=character] [Missing=*]
Statistics [NW/ W]	[Valid=8554 /-] [Invalid=0 /-]
Definition	An important feature of the NSS sampling design is that the total sample of first stage units is drawn in the form of two or more independent and parallel samples, termed as interpenetrating sub-samples. Each sub- sample is drawn by the same sampling scheme and is capable of providing valid estimates of the population parameters. The comparison of sub-sample wise estimates shows the margin of uncertainty associated with the combined sample estimate. Interpenetrating sub-samples have been used in NSS (i) to obtain valid estimates from each sub-round (season) of the survey round, and (ii) to ensure that Central and State samples for any State/ UT cover independent and equally valid samples of units. The samples surveyed by the NSSO staff are termed as Central sample and the matched samples surveyed by State Government staff are termed as State sample.

Value	Label	Cases	Percentage
1	Central sample	4359	51.0%
2	State sample	4195	49.0%

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

#11 SubRound: Sub Round

Information	[Type= discrete] [Format=character] [Missing=*]		
Statistics [NW/ W]	[Valid=8554 /-] [Invalid=0 /-]		
Value	Label	Cases	Percentage
0	Invalid	19	0.2%
1	Sub - Round 1	4467	52.2%
2	Sub - Round 2	4068	47.6%

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

#12 Vill_Blk_Slno: Village/Bl. Srl. No.

Information	[Type= discrete] [Format=character] [Missing=*]
Statistics [NW/ W]	[Valid=8554 /-] [Invalid=0 /-]

File Block 18_Visit 1_Particulars of other cash and kind loans payable by the household

#12 Vill_Blk_Slno: Village/Bl. Srl. No.

Definition	The first-stage units are census villages in the rural sector and the NSSO urban frame survey (UFS) blocks in the urban sector. This variable indicates the serial number assigned to such units.
-------------------	---

#13 SubStratum: Sub Stratum

Information [Type= discrete] [Format=character] [Missing=*]

Statistics [NW/ W] [Valid=8554 /-] [Invalid=0 /-]

#14 Hhold_no: Sample Household No.

Information [Type= discrete] [Format=character] [Missing=*]

Statistics [NW/ W] [Valid=8554 /-] [Invalid=0 /-]

#15 Level: Level

Information [Type= discrete] [Format=character] [Missing=*]

Statistics [NW/ W] [Valid=8554 /-] [Invalid=0 /-]

Value	Label	Cases	Percentage
11		8554	100.0%

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

#16 B18_q1: Item serial no.

Information [Type= discrete] [Format=character] [Missing=*]

Statistics [NW/ W] [Valid=8554 /-] [Invalid=0 /-]

Interviewer's instructions For all liabilities recorded in this block, a running serial number starting from 1 will be put in col. (1)

#17 B18_q2: Nature of liability

Information [Type= discrete] [Format=character] [Missing=*]

Statistics [NW/ W] [Valid=8549 /-] [Invalid=0 /-]

Literal question What is the nature of liability?

Interviewer's instructions A liability which is contracted in cash will be considered as 'cash liability', even if the repayment is made or will be made in kind. Similarly, a liability which is contracted in kind will be considered as 'kind liability', regardless of the mode of repayment which may be in cash or in kind. The nature of each of the liabilities will be ascertained and recorded in col. (2) in terms of codes: cash-1, kind-2.

Value	Label	Cases	Percentage
1	cash	5546	64.9%
2	kind	2998	35.1%
9	invalid	5	0.1%

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

#18 B18_q3: Amount outstanding as on date/survey (Rs.)

Information [Type= continuous] [Format=numeric] [Range= 0-750000] [Missing=*]

Statistics [NW/ W] [Valid=8537 /-] [Invalid=17 /-] [Mean=2404.312 /-] [StdDev=13195.635 /-]

Literal question How much amount was outstanding as on dt/survey?

Interviewer's instructions For each of the liabilities, the amount outstanding including interest on the date of survey is to be ascertained and recorded in col. (3) in whole number of rupees. In case of kind loans, the amount of the liability will be evaluated at the current market price prevailing in the locality on the date of survey.

File Block 18_Visit 1_Particulars of other cash and kind loans payable by the household

#19 B18_q4: Period code

Information	[Type= discrete] [Format=character] [Missing=*]
Statistics [NW/ W]	[Valid=8548 /-] [Invalid=0 /-]
Literal question	For how long the liability has been outstanding?
Interviewer's instructions	For each liability, the period for which the liability is outstanding will be recorded in term of code in col. (4). The codes are: less than 1 month 1 1 month & above but less than 3 months 2 3 months and above but less than 6 months 3 6 months and above but less than 1 year 4 one year & above 5

Value	Label	Cases	Percentage
1	less than 1 month	1917	22.4%
2	1 month & above but less than 3 months	2476	29.0%
3	3 months and above but less than 6 months	2006	23.5%
4	6 months and above but less than 1 year	982	11.5%
5	one year & above	1158	13.5%
9	invalid	9	0.1%

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

#20 B18_q5: Source code

Information	[Type= discrete] [Format=character] [Missing=*]
Statistics [NW/ W]	[Valid=8551 /-] [Invalid=0 /-]
Literal question	To which credit agency the liability is due?
Interviewer's instructions	For each liability, the agency to which the liability is due will be recorded in terms of code in col. (5). The codes are: trader 1 relatives & friends 2 doctors, lawyers & other professionals 3 others 4

Value	Label	Cases	Percentage
1	trader	5129	60.0%
2	relatives and friends	1283	15.0%
3	doctors, lawyers and other professionals	763	8.9%
8	invalid	3	0.0%
9	others	1373	16.1%

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

#21 B18_q6: Purpose code

Information	[Type= discrete] [Format=character] [Missing=*]
Statistics [NW/ W]	[Valid=8548 /-] [Invalid=0 /-]
Literal question	What was the reason for taking loan?
Interviewer's instructions	For each liability, the purpose for which the liability incurred will be recorded in terms of codes in col. (6). The codes are: current expenditure in farm business 1 current expenditure in non-farm business 2 other household expenditure 3

File Block 18_Visit 1_Particulars of other cash and kind loans payable by the household

#21 B18_q6: Purpose code

	other expenditure	4	
Value	Label	Cases	Percentage
1	current expenditure in farm business	660	7.7%
2	current expenditure in non-farm business	706	8.3%
3	other household expenditure	6616	77.4%
8	invalid	5	0.1%
9	other expenditure	561	6.6%

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

#22 Update_Code: Update code

Information	[Type= discrete] [Format=character] [Missing=*]
Statistics [NW/ W]	[Valid=1874 /-] [Invalid=0 /-]
Recoding and Derivation	This round contains some variables which are not in the questionnaire. These variables have been calculated for the purpose of specific tabulation for which documentation is not available. The user may ignore them.

File Block 19pt1_Visit 1_Specified items on which expenditure incurred

#1 HHID: Key to identify a household

Information	[Type= discrete] [Format=character] [Missing=*]
Statistics [NW/ W]	[Valid=147788 /-] [Invalid=0 /-]
Recoding and Derivation	This variable has been derived for identifying a household by combining Serial no of village / Block, Sub Stratum and Sample Household number.

#2 RoundSchedule: Round Schedule

Information	[Type= discrete] [Format=character] [Missing=*]
Statistics [NW/ W]	[Valid=147788 /-] [Invalid=0 /-]
Definition	Indicates the NSS round and schedule number of this survey.

#3 Sample: Sample

Information	[Type= discrete] [Format=character] [Missing=*]
Statistics [NW/ W]	[Valid=147788 /-] [Invalid=0 /-]

#4 Visit_no: Visit no.

Information	[Type= discrete] [Format=character] [Missing=*]
Statistics [NW/ W]	[Valid=147788 /-] [Invalid=0 /-]

Value	Label	Cases	Percentage
1		147788	100.0%

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

#5 State_Region: State Region

Information	[Type= discrete] [Format=character] [Missing=*]
Statistics [NW/ W]	[Valid=147788 /-] [Invalid=0 /-]
Definition	Regions are hierarchical domains of study below the level of State/ Union Territory in the NSS.

#6 State: State

Information	[Type= discrete] [Format=character] [Missing=*]
--------------------	---

File Block 19pt1_Visit 1_Specified items on which expenditure incurred

#6 State: State

Statistics [NW/ W]	[Valid=147788 /-] [Invalid=0 /-]
Recoding and Derivation	This variable has been derived from the variable "State Region" to enable the users to easily access state wise data.
<i>Frequency table not shown (32 Modalities)</i>	

#7 FlotNo: Flot No.

Information	[Type= discrete] [Format=character] [Missing=*]
Statistics [NW/ W]	[Valid=147788 /-] [Invalid=0 /-]
Recoding and Derivation	This round contains some variables which are not in the questionnaire. These variables have been calculated for the purpose of specific tabulation for which documentation is not available. The user may ignore them.

#8 Sector: Sector

Information	[Type= discrete] [Format=character] [Missing=*]
Statistics [NW/ W]	[Valid=147788 /-] [Invalid=0 /-]
Definition	Sector : A word used for the rural-urban demarcation.

Value	Label	Cases	Percentage
1	Rural	93755	63.4%
2	Urban	54033	36.6%

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

#9 Stratum: Stratum

Information	[Type= discrete] [Format=character] [Missing=*]
Statistics [NW/ W]	[Valid=147788 /-] [Invalid=0 /-]
Definition	Within each district of a State/ UT, two basic strata were formed: (i) rural stratum comprising of all rural areas of the district and (ii) urban stratum comprising of all the urban areas of the district.

#10 SubSample: Sub Sample

Information	[Type= discrete] [Format=character] [Missing=*]
Statistics [NW/ W]	[Valid=147788 /-] [Invalid=0 /-]
Definition	An important feature of the NSS sampling design is that the total sample of first stage units is drawn in the form of two or more independent and parallel samples, termed as interpenetrating sub-samples. Each sub- sample is drawn by the same sampling scheme and is capable of providing valid estimates of the population parameters. The comparison of sub-sample wise estimates shows the margin of uncertainty associated with the combined sample estimate. #17 B19_2_q4: Purpose code

Information [Type= discrete] [Format=character] [Missing=*]

Statistics [NW/ W] [Valid=20808 /-] [Invalid=0 /-]

Literal question What was the purpose for which the expenditure has been incurred?

Interviewer's instructions The purpose for which the expenditure has been incurred will be described in col. (3) and the corresponding purpose code will be recorded in col. (4). The purpose codes are:

- (new) purchase (including purchase of land, land rights etc.) 1
 additions (including reclamation of land/constructions) 2
 major repairs & alterations (including renewal & replacement)3
 improvement (including bonding and other land improvement/
 normal annual replanting in case of orchard and plantations) 4
 normal repairs & maintenance 5

File Block 19pt2_Visit 1_Expenditure on specified items

#17 B19_2_q4: Purpose code

Value	Label	Cases	Percentage
1	(new) purchase (including purchase of land, land rights etc.)	3184	15.3%
2	additions (including reclamation of land/constructions)	1330	6.4%
3	major repairs & alterations (including renewal & replacement)	1517	7.3%
4	improvement (including bonding and other land improvement/normal annual replanting in case of orchard and plantations)	1065	5.1%
5	normal repairs & maintenance	13675	65.7%
9	invalid	37	0.2%

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

#18 B19_2_q5: Expenditure in cash (Rs.) - Purchase of assets & materials

Information	[Type= continuous] [Format=numeric] [Range= 0-1500000] [Missing=*]
Statistics [NW/ W]	[Valid=16288 /-] [Invalid=4520 /-] [Mean=4337.521 /-] [StdDev=22459.033 /-]
Literal question	How much expenditure was made in cash for the purchase of assets & materials?

#19 B19_2_q6: Expenditure in cash (Rs.) -Payment to hired labour

Information	[Type= continuous] [Format=numeric] [Range= 1-100000] [Missing=*]
Statistics [NW/ W]	[Valid=12771 /-] [Invalid=8037 /-] [Mean=990.174 /-] [StdDev=3752.167 /-]
Literal question	How much expenditure was made in cash for payment to hired labour?

#20 B19_2_q7: Expenditure in kind (Rs.) - Purchase of assets & materials

Information	[Type= continuous] [Format=numeric] [Range= 5-140000] [Missing=*]
Statistics [NW/ W]	[Valid=482 /-] [Invalid=20326 /-] [Mean=1261.355 /-] [StdDev=7301.589 /-]
Literal question	How much expenditure was made in kind for the purchase of assets & materials?
Interviewer's instructions	The amount of expenditure incurred in cash will be recorded in cols. (5) and (6) and that in kind in cols. (7) and (8). The expenditure in kind will be evaluated at the current market price prevailing in the locality or its neighborhood.

#21 B19_2_q8: Expenditure in kind (Rs.)-Payment to hired labour

Information	[Type= continuous] [Format=numeric] [Range= 1-25000] [Missing=*]
Statistics [NW/ W]	[Valid=1745 /-] [Invalid=19063 /-] [Mean=299.605 /-] [StdDev=1175.915 /-]
Literal question	How much expenditure was made in kind for payment to hired labour?

#22 B19_2_q9: Value of assets & materials used out of home-prod. stock (Rs.)

Information	[Type= continuous] [Format=numeric] [Range= 2-300000] [Missing=*]
Statistics [NW/ W]	[Valid=2629 /-] [Invalid=18179 /-] [Mean=533.775 /-] [StdDev=6279.323 /-]
Literal question	How much is the value of assets and materials used out of home produced stock?
Interviewer's instructions	The value of the home produced assets and materials actually used for the construction, improvement etc. of the asset during the reference period will be recorded in col. (9). However, this will not, include the value of commodities paid to hired labour as their payment in kind. Such payment will be considered for making entries in col. (8). The home-produced asset and materials used for construction, improvement etc. of the listed asset may have been produced during or before the reference period. Such assets and materials supplied by the household will be evaluated at current market price prevailing in the locality during the reference period.

#23 B19_2_q10: Value of work done by household members (Rs.)

Information	[Type= continuous] [Format=numeric] [Range= 1-250000] [Missing=*]
Statistics [NW/ W]	[Valid=7743 /-] [Invalid=13065 /-] [Mean=384.888 /-] [StdDev=3932.073 /-]
Literal question	How much is the value of work done by the household members?

File Block 19pt2_Visit 1_Expenditure on specified items	
#23 B19_2_q10: Value of work done by household members (Rs.)	
Interviewer's instructions	The value of labour put by the household members including regular workers engaged in farm or non-farm business, guests etc. in connection with the manual work needed for repairs, construction etc. of bunds, wells or houses or any other items of physical assets in farm or non-farm business will be recorded in col. (10). In evaluating such work, the contribution of free labour or exchange labour will be included. This work will be evaluated using the average wage paid to hired labour for such work.
#24 B19_2_q11: Total (Rs.)	
Information	[Type= continuous] [Format=numeric] [Range= 0-1500000] [Missing=*]
Statistics [NW/ W]	[Valid=20798 /-] [Invalid=10 /-] [Mean=4270.09 /-] [StdDev=21958.504 /-]
Literal question	How much total expenditure was incurred by the household?
Interviewer's instructions	Total of cols. (5) to (10) will be recorded in col. (11).
#25 B19_2_q12: Amount financed from institutional borrowings (Rs.)	
Information	[Type= continuous] [Format=numeric] [Range= 0-1250000] [Missing=*]
Statistics [NW/ W]	[Valid=899 /-] [Invalid=19909 /-] [Mean=20854.281 /-] [StdDev=58998.263 /-]
Literal question	How much amount was financed by institutional borrowing?
Interviewer's instructions	Some times expenditure on some items are financed partly or wholly from borrowings during the reference period. The amount financed from borrowings is to be recorded in cols. (12) and/or (13) depending on whether the lending agency is an institutional or a non-institutional one.
#26 B19_2_q13: Amount financed from non-institutional borrowings (Rs.)	
Information	[Type= continuous] [Format=numeric] [Range= 0-200000] [Missing=*]
Statistics [NW/ W]	[Valid=907 /-] [Invalid=19901 /-] [Mean=9021.883 /-] [StdDev=17509.265 /-]
Literal question	How much amount was financed by non-institutional borrowing?
Interviewer's instructions	Some times expenditure on some items are financed partly or wholly from borrowings during the reference period. The amount financed from borrowings is to be recorded in cols. (12) and/or (13) depending on whether the lending agency is an institutional or a non-institutional one.

Definition	An important feature of the NSS sampling design is that the total sample of first stage units is drawn in the form of two or more independent and parallel samples, termed as interpenetrating sub-samples. Each sub- sample is
-------------------	---

File Block 20_Visit 1_Particulars of acquisition, disposal and loss of assets**#10 SubSample: Sub Sample**

drawn by the same sampling scheme and is capable of providing valid estimates of the population parameters. The comparison of sub-sample wise estimates shows the margin of uncertainty associated with the combined sample estimate.

Interpenetrating sub-samples have been used in NSS (i) to obtain valid estimates from each sub-round (season) of the survey round, and (ii) to ensure that Central and State samples for any State/ UT cover independent and equally valid samples of units.

The samples surveyed by the NSSO staff are termed as Central sample and the matched samples surveyed by State Government staff are termed as State sample.

Value	Label	Cases	Percentage
1	Central sample	9106	49.9%
2	State sample	9131	50.1%

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

#11 SubRound: Sub Round

Information [Type= discrete] [Format=character] [Missing=*]

Statistics [NW/ W] [Valid=18237 /-] [Invalid=0 /-]

Value	Label	Cases	Percentage
0	Invalid	49	0.3%
1	Sub - Round 1	9429	51.7%
2	Sub - Round 2	8759	48.0%

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

#12 Vill_Blk_Slno: Village/Bl. Srl. No.

Information [Type= discrete] [Format=character] [Missing=*]

Statistics [NW/ W] [Valid=18237 /-] [Invalid=0 /-]

Definition The first-stage units are census villages in the rural sector and the NSSO urban frame survey (UFS) blocks in the urban sector. This variable indicates the serial number assigned to such units.

#13 SubStratum: Sub Stratum

Information [Type= discrete] [Format=character] [Missing=*]

Statistics [NW/ W] [Valid=18237 /-] [Invalid=0 /-]

#14 Hhold_no: Sample Household No.

Statistics [NW/ W] [Valid=18237 /-] [Invalid=0 /-]

#15 Level: Level

Information [Type= discrete] [Format=character] [Missing=*]

Statistics [NW/ W] [Valid=18237 /-] [Invalid=0 /-]

Value	Label	Cases	Percentage
14		18237	100.0%

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

#16 B20_q1: Item Srl. No.

Information [Type= discrete] [Format=character] [Missing=*]

Statistics [NW/ W] [Valid=18237 /-] [Invalid=0 /-]

File Block 20_Visit 1_Particulars of acquisition, disposal and loss of assets

#16 B20_q1: Item Srl. No.

Value	Label	Cases	Percentage
001	residential houses or buildings	456	2.5%
002	building sites (area sq. mt.)	181	1.0%
003	land (area sq. mt.) (asset of farm business)	168	0.9%
004	bunds and other land improvement works	119	0.7%
005	wells and other irrigation sources	100	0.5%
006	agricultural implements, machinery, transport equipments etc.	1140	6.3%
007	farm houses, barns and animal sheds	130	0.7%
008	livestock	2562	14.0%
009	other farm business assets	207	1.1%
010	building (asset of non-farm business)	27	0.1%
011	building sites (area sq. mt.)	18	0.1%
012	production equipments and accessories	193	1.1%
013	transport equipments	242	1.3%
014	furniture and fixtures	193	1.1%
015	other non-farm business assets	153	0.8%
016	financial assets	1590	8.7%
017	transport equipments (for household)	388	2.1%
018	durable household goods	2598	14.2%
019	bullion / ornaments	244	1.3%
020	total	7528	41.3%

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

#17 B20_q3: Acquisition by Purchase (Rs.)

Information	[Type= continuous] [Format=numeric] [Range= 0-5515367] [Missing=*]
Statistics [NW/ W]	[Valid=15619 /-] [Invalid=2618 /-] [Mean=7874.396 /-] [StdDev=74914.235 /-]
Literal question	How much expenditure was incurred for acquisition of item by purchase?
Interviewer's instructions	The value of assets acquired by way of purchase during the reference period will be recorded in col. (3). The purchase will include second hand purchase also. The purchase price will be recorded as the value of the asset in col. (3). If the item which is purchased during the reference period, the entry to be recorded in col. (5) will be the same as that in col. (3). Assets acquired by way of gift, donation etc. will be evaluated at the current market price prevailing in the locality and will be recorded in col. (4).

#18 B20_q4: Acquisition by Gifts, donation etc. (Rs.)

Information	[Type= continuous] [Format=numeric] [Range= 0-500000] [Missing=*]
Statistics [NW/ W]	[Valid=8740 /-] [Invalid=9497 /-] [Mean=963.833 /-] [StdDev=10361.243 /-]
Literal question	How much expenditure was incurred for acquisition of item by gifts, donations etc.?

#19 B20_q5: Disposal by sale (Rs.)

Information	[Type= continuous] [Format=numeric] [Range= 0-5930990] [Missing=*]
Statistics [NW/ W]	[Valid=9121 /-] [Invalid=9116 /-] [Mean=3836.398 /-] [StdDev=90337.739 /-]
Literal question	How much amount was obtained by disposal of item through sale?
Interviewer's instructions	The term 'sale' here will mean all transfer of assets to others in return for payment receivable in cash or in kind. The payment receivable in kind will be evaluated at the current market prices prevailing in the locality during the reference period. The amount receivable, from the sale, will be recorded in col. (5) in respect of each category of items sold.

File Block 20_Visit 1_Particulars of acquisition, disposal and loss of assets**#20 B20_q6: Disposal by Gifts, donation etc. (Rs.)**

Information	[Type= continuous] [Format=numeric] [Range= 0-2060000] [Missing=*]
Statistics [NW/ W]	[Valid=7768 /-] [Invalid=10469 /-] [Mean=1021.059 /-] [StdDev=33673.257 /-]
Literal question	How much amount was involved in disposal of item through gift, donation etc.?
Interviewer's instructions	The items disposed of by way of gifts, donation etc. will also be evaluated at the current market price prevailing in the locality for making entries in col. (6).

#21 B20_q7: Loss on account of other reasons (Rs.)

Information	[Type= continuous] [Format=numeric] [Range= 0-25500] [Missing=*]
Statistics [NW/ W]	[Valid=8003 /-] [Invalid=10234 /-] [Mean=174.399 /-] [StdDev=1178.312 /-]
Literal question	How much loss of the item was suffered on account of other reasons?
Interviewer's instructions	The loss of assets may be caused by natural calamities or on account of other reasons. The value of the loss which may be total or partial for reasons. The value of the loss which may be total or partial for the item, will be recorded in cols. (7) and/or (8) depending on whether the loss is due to natural calamities or other reasons. The natural calamities will include flood, rain, fire, cyclone, earthquake etc. The loss due to other reasons will include cases of accident; theft, eaten by termites etc. The value of the loss will be estimated as the expenditure required to be incurred to restore it to the same condition as it was prior to the loss. An asset having no use to the household may be discarded during the reference period. This asset may be in vary poor condition and it is not likely to be sold for its intended purpose. Still it may have some scrap value which will be recorded in col. (9).

#22 B20_q8: Loss by natural calamities (Rs.)

Information	[Type= continuous] [Format=numeric] [Range= 0-59600] [Missing=*]
Statistics [NW/ W]	[Valid=8497 /-] [Invalid=9740 /-] [Mean=279.914 /-] [StdDev=1823.704 /-]
Literal question	How much loss of the item was suffered by natural calamities?
Interviewer's instructions	The loss of assets may be caused by natural calamities or on account of other reasons. The value of the loss which may be total or partial for reasons. The value of the loss which may be total or partial for the item, will be recorded in cols. (7) and/or (8) depending on whether the loss is due to natural calamities or other reasons. The natural calamities will include flood, rain, fire, cyclone, earthquake etc. The loss due to other reasons will include cases of accident; theft, eaten by termites etc. The value of the loss will be estimated as the expenditure required to be incurred to restore it to the same condition as it was prior to the loss. An asset having no use to the household may be discarded during the reference period. This asset may be in vary poor condition and it is not likely to be sold for its intended purpose. Still it may have some scrap value which will be recorded in col. (9).

#23 B20_q9: Salvage value of discarded assets (Rs.)

Information	[Type= continuous] [Format=numeric] [Range= 0-2250000] [Missing=*]
Statistics [NW/ W]	[Valid=8681 /-] [Invalid=9556 /-] [Mean=1270.263 /-] [StdDev=32067.507 /-]

Information	[Type= continuous] [Format=numeric] [Range= 0-42] [Missing=*]
Statistics [NW/ W]	[Valid=56596 /-] [Invalid=3 /-] [Mean=5.297 /-] [StdDev=2.874 /-]
Definition	<p>Household A household is a group of persons who normally live together and take food from a common kitchen. However, a boarding house, a hotel or a hostel is treated as a cluster of households, where each individual boarder forms a separate household. If, however, a group of persons among them normally pooled their income for spending, they together are treated as constituting a single household. Barracks of military and paramilitary forces, orphanages and vagrant-houses are excluded from the scope of the survey.</p> <p>Household size: The size of a household is taken to be the number of members normally residing in it. This size includes temporary stay-aways but excludes temporary visitors and guests of the household.</p>
Literal question	How many members are there in the household?
Interviewer's instructions	Size of the sample household i.e. the total number of persons normally residing together (under the same roof) and taking food from the same kitchen (including temporary stay-aways and excluding temporary visitors) will be recorded against this item.

#24 B5_q2: Sex of head of the household

Information	[Type= discrete] [Format=character] [Missing=*]
Statistics [NW/ W]	[Valid=56585 /-] [Invalid=0 /-]
Literal question	What is the sex of the head of the household?
Interviewer's instructions	The sex of the head of the household will be recorded against item 2 in terms of codes. The codes are : male 1 female 2

Value	Label	Cases	Percentage
1	Male	51194	90.5%
2	Female	5369	9.5%
9	Invalid	22	0.0%

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

#27 B5_q4a: NIC Code

Information	[Type= discrete] [Format=character] [Missing=*]
Statistics [NW/ W]	[Valid=54619 /-] [Invalid=0 /-]
Literal question	Which industry is the principal earner working in?
Interviewer's instructions	The household industry -occupation determined according to the definition, three digit level industry (NIC, 1987) and occupation (NCO, 1968) codes for the household are to be recorded in the box spaces against item 4. The industry code will be recorded in the left most three box spaces followed by occupation code.

#28 B5_q4b: NCO Code

Information	[Type= discrete] [Format=character] [Missing=*]
Statistics [NW/ W]	[Valid=54642 /-] [Invalid=0 /-]
Literal question	What is the occupation of the principal earner of the household?
Interviewer's instructions	The household industry -occupation determined according to the definition, three digit level industry (NIC, 1987) and occupation (NCO, 1968) codes for the household are to be recorded in the box spaces against item 4. The industry code will be recorded in the left most three box spaces followed by occupation code.

#29 B5_q5: Social Group

Information	[Type= discrete] [Format=character] [Missing=*]
Statistics [NW/ W]	[Valid=54813 /-] [Invalid=0 /-]
Literal question	Which social group do you belong to? Do you come under scheduled caste or scheduled tribe or others category?
Interviewer's instructions	SOCIAL GROUP : whether the household belongs to a scheduled tribe or a scheduled caste or 'others' , it will be indicated by an appropriate code against this item. A household will be classified as scheduled tribe/scheduled caste if the head of the household belongs to any scheduled tribe/scheduled caste community. Neo-Buddhist households will be considered as scheduled caste. All the remaining households will be considered to belong to the group 'others'. The codes for social group are : scheduled tribe1 scheduled caste/neo-Buddhist 2 others 9

Value	Label	Cases	Percentage
1	Scheduled Tribe	5973	10.9%
2	Scheduled Caste	8686	15.8%
8	Invalid	135	0.2%
9	Others	40019	73.0%

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

#30 B5_q6: Land owned as on 30 June 1991 (0.00 acres)

Information	[Type= continuous] [Format=numeric] [Range= 0-35] [Missing=*]		
Statistics [NW/ W]	[Valid=4726 /-] [Invalid=51873 /-] [Mean=0.379 /-] [StdDev=1.459 /-]		
Literal question	How much land was otherwise possessed by the household as on 30 June 1991?		
Interviewer's instructions	Any land which is possessed but neither owned nor leased in by the household will be considered as 'otherwise possessed'.		
#34 B5_q10: Land possessed as on 30 June 1991 (0.00 acres)			
Information	[Type= continuous] [Format=numeric] [Range= 0-299.95] [Missing=*]		
Statistics [NW/ W]	[Valid=56561 /-] [Invalid=38 /-] [Mean=2.364 /-] [StdDev=5.582 /-]		
Literal question	How much total land was possessed by the household as on 30 June 1991?		
#35 B5_q11: Land owned and retained but not available for crop production as on 30 June 1991 (0.00 acres)			
Information	[Type= continuous] [Format=numeric] [Range= 0-45.03] [Missing=*]		
Statistics [NW/ W]	[Valid=34787 /-] [Invalid=21812 /-] [Mean=0.259 /-] [StdDev=1.171 /-]		
Literal question	How much land was owned and retained but not available for crop production as on 30 June 1991?		
Interviewer's instructions	The entry to be recorded in acres in two decimal places against this item, by asking a direct question to the respondent, will be area of those tracts of land which were owned and retained by the household on 30.6.91 but were not available then for crop production due to various reasons. The possible reasons may be land not suitable for cultivation, under water bodies, under non-agricultural uses etc. Land kept fallow up to a maximum period of 5 years will be considered as land available for crop production. Seasonal crop area, orchards and plantations will constitute area available for crop production.		
#36 B5_q12: Whether operated any land during 1991-92			
Information	[Type= discrete] [Format=character] [Missing=*]		
Statistics [NW/ W]	[Valid=56178 /-] [Invalid=0 /-]		
Literal question	Whether the household operated any land during 1991-92?		
Interviewer's instructions	The answer to direct question whether the household operated any land during agricultural year 1991-92 will be recorded in codes against item 12. The codes are yes-1, no-2.		
Value	Label	Cases	Percentage
1	Yes	28826	51.3%
2	No	27339	48.7%
9	Invalid	13	0.0%
<i>Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.</i>			
#37 B5_q13: If 'yes', area operated by the household (0.00 acres)			
Information	[Type= continuous] [Format=numeric] [Range= 0-161] [Missing=*]		
Statistics [NW/ W]	[Valid=29397 /-] [Invalid=27202 /-] [Mean=3.993 /-] [StdDev=6.205 /-]		
Pre-question	Whether the household operated any land during 1991-92?		
Literal question	If 'yes', how much area was operated by the household?		
Interviewer's instructions	If the code against item 12 is '1' the area operated by the household is to be filled against item 13 in acres in two places of decimal. The total area under all the operational holdings formed in the household will be considered as the area operated by the household. However, if the household operates a holding jointly with

2		56170	100.0%

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

#5 State_Region: State Region

Information [Type= discrete] [Format=character] [Missing=*]

Statistics [NW/ W] [Valid=56170 /-] [Invalid=0 /-]

Definition Regions are hierarchical domains of study below the level of State/ Union Territory in the NSS.

#6 State: State

Information [Type= discrete] [Format=character] [Missing=*]

Statistics [NW/ W] [Valid=56170 /-] [Invalid=0 /-]

Recoding and Derivation This variable has been derived from the variable "State Region" to enable the users to easily access state wise data.

Frequency table not shown (32 Modalities)

#7 FlotNo: Flot No.

Information [Type= discrete] [Format=character] [Missing=*]

Statistics [NW/ W] [Valid=56170 /-] [Invalid=0 /-]

Recoding and Derivation This round contains some variables which are not in the questionnaire. These variables have been calculated for the purpose of specific tabulation for which documentation is not available. The user may ignore them.

#8 Sector: Sector

Information [Type= discrete] [Format=character] [Missing=*]

Statistics [NW/ W] [Valid=56170 /-] [Invalid=0 /-]

Definition Sector : A word used for the rural-urban demarcation.

Value	Label	Cases	Percentage
1	Rural	35829	63.8%
2	Urban	20341	36.2%

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

#9 Stratum: Stratum

Information [Type= discrete] [Format=character] [Missing=*]

Statistics [NW/ W] [Valid=56170 /-] [Invalid=0 /-]

Definition Within each district of a State/ UT, two basic strata were formed:
(i) rural stratum comprising of all rural areas of the district and (ii) urban stratum comprising of all the urban areas of the district.

#10 SubSample: Sub Sample

Information [Type= discrete] [Format=character] [Missing=*]

File Block 17pt1_Visit 2_Number of cash loans outstanding and loans repaid and written off

#10 SubSample: Sub Sample

Statistics [NW/ W] [Valid=56170 /-] [Invalid=0 /-]

Definition

An important feature of the NSS sampling design is that the total sample of first stage units is drawn in the form of two or more independent and parallel samples, termed as interpenetrating sub-samples. Each sub-sample is drawn by the same sampling scheme and is capable of providing valid estimates of the population parameters. The comparison of sub-sample wise estimates shows the margin of uncertainty associated with the combined sample estimate.

Interpenetrating sub-samples have been used in NSS (i) to obtain valid estimates from each sub-round (season) of the survey round, and (ii) to ensure that Central and State samples for any State/ UT cover independent and equally valid samples of units.

The samples surveyed by the NSSO staff are termed as Central sample and the matched samples surveyed by State Government staff are termed as State sample.

Value	Label	Cases	Percentage
1	Central sample	28249	50.3%
2	State sample	27921	49.7%

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

#11 SubRound: Sub Round

Information [Type= discrete] [Format=character] [Missing=*]

Statistics [NW/ W] [Valid=56170 /-] [Invalid=0 /-]

Value	Label	Cases	Percentage
0	Invalid	470	0.8%
1	Sub - Round 1	27903	49.7%
2	Sub - Round 2	27797	49.5%

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

#12 Vill_Blk_Slno: Village/BI. Srl. No.

Information [Type= discrete] [Format=character] [Missing=*]

Statistics [NW/ W] [Valid=56170 /-] [Invalid=0 /-]

Definition

The first-stage units are census villages in the rural sector and the NSSO urban frame survey (UFS) blocks in the urban sector. This variable indicates the serial number assigned to such units.

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

File Block 17pt1_Visit 2_Number of cash loans outstanding and loans repaid and written off

#16 B17_1_q1: Whether any loan outstanding on date of survey

Information	[Type= discrete] [Format=character] [Missing=*]
Statistics [NW/ W]	[Valid=56154 /-] [Invalid=0 /-]
Literal question	Whether any cash loan is outstanding on the date of survey?
Interviewer's instructions	It is to be ascertained from the respondent whether any member of the household has any cash loan outstanding, i.e. whether any amount remains payable on the date of survey. Code '1' will be entered if the answer is affirmative; otherwise code '2' will be recorded against this item.

Value	Label	Cases	Percentage
0	invalid	1	0.0%
1	yes	23550	41.9%
2	no	32603	58.1%

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

#17 B17_1_q2: No. of cash loans outstanding - Institutional agencies

Information	[Type= continuous] [Format=numeric] [Range= 0-22] [Missing=*]
Statistics [NW/ W]	[Valid=15742 /-] [Invalid=40428 /-] [Mean=1.131 /-] [StdDev=0.654 /-]
Literal question	How many cash loans are outstanding to institutional agencies?
Interviewer's instructions	<p>If the answer to item 1 is '1'. Number of loans which remain outstanding on the date of survey will be recorded in the box spaces provided against item 2 and/or 3, depending on whether those loans were taken from institutional agencies or non-institutional agencies or from both. The institutional agencies are:-</p> <p>government, cooperative society/bank, commercial banks including regional rural bank, insurance, provident fund and other institutional agencies.</p> <p>Any other agency like money lender, trader, relatives and friends etc., will be considered as non-institutional agency.</p>

#18 B17_1_q3: No. of cash loans outstanding - Non-Institutional agencies

Information	[Type= continuous] [Format=numeric] [Range= 0-42] [Missing=*]
Statistics [NW/ W]	[Valid=12352 /-] [Invalid=43818 /-] [Mean=1.332 /-] [StdDev=1.127 /-]
Literal question	How many cash loans are outstanding to non- institutional agencies?
Interviewer's instructions	<p>If the answer to item 1 is '1'. Number of loans which remain outstanding on the date of survey will be recorded in the box spaces provided against item 2 and/or 3, depending on whether those loans were taken from institutional agencies or non-institutional agencies or from both. The institutional agencies are:-</p> <p>government, cooperative society/bank, commercial banks including regional rural bank, insurance, provident fund and other institutional agencies.</p> <p>Any other agency like money lender, trader, relatives and friends etc., will be considered as non-institutional agency.</p>

#19 B17_1_q4: Was any cash loan repaid during 1.1.92 to date of survey

Information	[Type= discrete] [Format=character] [Missing=*]
Statistics [NW/ W]	[Valid=56050 /-] [Invalid=0 /-]
Literal question	Was any cash loan repaid during 1.1.92 to date of survey?
Interviewer's instructions	The household may not have any loan outstanding on the date of survey. But, it may have repaid some loans during 1.7.91 to date of survey during the first visit and 1.1.92 to date survey during the second visit. It is also possible that the household has some outstanding loan on the date of survey and also has repaid fully some other loans(not the loans already recorded against items 2 and 3) during the reference period. Information to be sought against item 4 relates to the loans whose final repayment was made during the reference period and no amount of those loans remains outstanding on the date of survey. In some situation, it is possible that household takes a second loan from the same source, say provident fund, before the first loan is fully repaid and the amount

File Block 17pt1_Visit 2_Number of cash loans outstanding and loans repaid and written off

#19 B17_1_q4: Was any cash loan repaid during 1.1.92 to date of survey

of the first loan is so adjusted that the amount borrowed from the second loan gets inflated by the amount unpaid on account of the first loan. In all such cases, the second loan will be considered as outstanding on the date of survey, while the first loan will be treated as repaid fully during the reference period.

Value	Label	Cases	Percentage
0	invalid	2	0.0%
1	yes	4341	7.7%
2	no	51707	92.3%

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

#20 B17_1_q5: No. of cash loans repaid to - Institutional agencies

Information	[Type= continuous] [Format=numeric] [Range= 0-21] [Missing=*]
Statistics [NW/ W]	[Valid=2438 /-] [Invalid=53732 /-] [Mean=0.963 /-] [StdDev=0.691 /-]
Literal question	How many cash loans have been repaid to institutional agencies?

#21 B17_1_q6: No. of cash loans repaid to - Non-Institutional agencies

Information	[Type= continuous] [Format=numeric] [Range= 0-21] [Missing=*]
Statistics [NW/ W]	[Valid=2811 /-] [Invalid=53359 /-] [Mean=1.096 /-] [StdDev=0.828 /-]
Literal question	How many cash loans have been repaid to non-institutional agencies?

#22 B17_1_q7: Was any cash loan written off during 1.1.92 to dt/survey

Information	[Type= discrete] [Format=character] [Missing=*]
Statistics [NW/ W]	[Valid=56049 /-] [Invalid=0 /-]
Literal question	Was any cash loan written off during 1.1.92 to date of survey?
Interviewer's instructions	Sometimes to provide debt relief to farmer and others, the government agencies, banks etc. exempt the household from repaying a loan fully or partly and consider such loan as cleared up. Whether any loan other than those recorded against items 2,3,5 and 6 is written off during 1.7.91 to date of survey in the first visit and 1.1.92 to date of survey in the second visit will be ascertained and recorded against item 7 in terms of codes : yes-1, no-2.

Value	Label	Cases	Percentage
0	invalid	1	0.0%
1	yes	114	0.2%
2	no	55934	99.8%

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

5	loan taken during 1.4.92 to 30.6.92	3954	10.2%
6	loan taken during 1.7.92 to date of survey	3837	9.9%

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

#21 B17_2_q5: Amount borrowed (Rs.)

Information	[Type= continuous] [Format=numeric] [Range= 0-2000000] [Missing=*]
Statistics [NW/ W]	[Valid=38876 /-] [Invalid=20 /-] [Mean=9610.891 /-] [StdDev=29834.13 /-]
Literal question	How much amount was borrowed?

File Block 17pt2_Visit 2_Particulars of cash loans payable by the household and transactions of loans

#21 B17_2_q5: Amount borrowed (Rs.)

Interviewer's instructions	For each loan, the amount originally borrowed will be recorded in rupees (whole number) in col. (5).
-----------------------------------	--

#22 B17_2_q6: Credit agency

Information	[Type= discrete] [Format=character] [Missing=*]
Statistics [NW/ W]	[Valid=37774 /-] [Invalid=0 /-]
Literal question	Which credit agency has given the loan?
Interviewer's instructions	The agency from which the loan has been taken will be recorded in col. (6) in code number. The codes are : government-1, cooperative society/bank-2, commercial bank including regional rural banks-3, insurance-4, provident fund-5, other institutional agencies-6, landlord-7, agriculturist money lender-8, professional money lender-9, trader-10, relatives and friends-11, doctors, lawyers and other professionals-12 and others-99. The codes 1 to 6 are considered as institutional agencies and will be applicable for loans recorded under 'institutional agencies'. The remaining codes are treated as non-institutional agencies and will be applicable for loans recorded under 'non-institutional agencies'.

Value	Label	Cases	Percentage
01	government	2686	7.1%
02	cooperative society/bank	7587	20.1%
03	commercial banks including regional rural bank	7253	19.2%
04	insurance	260	0.7%
05	provident fund	1276	3.4%
06	financial corporation	728	1.9%
07	landlord	826	2.2%
08	agriculturist money lender	2241	5.9%
09	professional money lender	5237	13.9%
10	trader	1331	3.5%
11	relatives and friends	6401	16.9%
12	doctors, lawyers and other professionals	171	0.5%

99	others	1756	4.6%

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

#23 B17_2_q7: Scheme of lending

Information	[Type= discrete] [Format=character] [Missing=*]
Statistics [NW/ W]	[Valid=38866 /-] [Invalid=0 /-]
Literal question	Under which scheme of lending, loan has been received by the household?
Interviewer's instructions	<p>Sometimes institutional agencies advance loans under various programmes or schemes for development of particular community, area, industry etc. The scheme under which loans are borrowed will be ascertained and will be filled in col. (7) in terms of code. The codes are:</p> <p>integrated rural development programme (IRDP) 1 differential rates of interest (DRI) 2 self-employment scheme for educated unemployed youth 3 self-employment programme for urban youth 4 financial assistance to ex-servicemen for self-employment 5 advances to minority communities 6 employment guarantee scheme (EGS) 7 other schemes 8 not covered under any scheme 9</p>

File Block 17pt2_Visit 2_Particulars of cash loans payable by the household and transactions of loans

#23 B17_2_q7: Scheme of lending

In case of non-institutional agencies, the code in col. (7) will always be 9.

Value	Label	Cases	Percentage
0	Not reported	3	0.0%
1	Integrated rural development programme (IRDP)	3634	9.4%
2	Differential rates of interest (DRI)	339	0.9%
3	Self employment scheme for educated unemployed youth	512	1.3%
4	Self employment programme for urban youth	424	1.1%
5	Financial assistance to ex-servicemen for self employment	62	0.2%
6	Advances to minority community	164	0.4%
7	Employment guarantee scheme (EGS)	244	0.6%
8	Other schemes	8263	21.3%
9	Not under any specific scheme	25221	64.9%

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

#24 B17_2_q8: Type of loan

Information	[Type= discrete] [Format=character] [Missing=*]
Statistics [NW/ W]	[Valid=38856 /-] [Invalid=0 /-]
Literal question	What is the type of loan?
Interviewer's instructions	<p>The loans are generally given for a specific period. Short-term loans are advanced for a period up to 12 months, medium-term for a period ranging from 1 to 3 years and long-term loan for a period exceeding 3 years. Short term loans are sometimes given against the pledge of commodities or without any pledge. So the relevant category of loans has to be ascertained and the corresponding code is to be given in col. (8). The codes are:</p> <p>short term pledged 1 short term non-pledged 2 medium term 3 long term 4</p>

Value	Label	Cases	Percentage
1	short term pledged	5052	13.0%
2	short term non-pledged	11550	29.7%
3	medium term	11846	30.5%
4	long term	10377	26.7%
9	invalid	31	0.1%

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

#25 B17_2_q9: Nature of interest

Information	[Type= discrete] [Format=character] [Missing=*]
Statistics [NW/ W]	[Valid=38670 /-] [Invalid=0 /-]
Literal question	What is the nature of interest?
Interviewer's instructions	<p>The nature of interest expressed in terms of codes will be recorded in col. (9) for each loan. The codes are:</p> <p>interest free 1 simple 2 compound 3 confessional rate 4</p> <p>The rate of interest per 100 rupee per annum actually charged by the lender will be recorded against col. (10) in two decimal places of rupee.</p>

File Block 17pt2_Visit 2_Particulars of cash loans payable by the household and transactions of loans

#25 B17_2_q9: Nature of interest

Value	Label	Cases	Percentage
1	interest free	10812	28.0%
2	simple	21249	54.9%
3	compound	5107	13.2%
4	concessional rate	1482	3.8%

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

#26 B17_2_q10: Rate of interest (0.00 Percent)

Information	[Type= continuous] [Format=numeric] [Range= 0-360.03] [Missing=*]
Statistics [NW/ W]	[Valid=33184 /-] [Invalid=5712 /-] [Mean=19.323 /-] [StdDev=21.27 /-]
Literal question	What is the rate of interest?

#27 B17_2_q11: Purpose of loan-whether for farm/non-farm/hh expenditure

Information	[Type= discrete] [Format=character] [Missing=*]
Statistics [NW/ W]	[Valid=38806 /-] [Invalid=0 /-]
Literal question	What is the purpose of loan-whether for farm/non-farm/hh expenditure?

Interviewer's instructions	<p>The purpose of loan is defined as the occasion which prompts the household to contract a loan. Even if the loan amount is utilized for a purpose other than that for which it is borrowed, the original purpose of borrowing will only be considered. If more than one purpose are involved, the purpose for which the maximum amount of loan is originally intended to be spent will be considered.</p> <p>For each of the loans recorded in block 17.2, it is to be ascertained as to whether the original purpose of borrowing was to incur expenditure on items relating to farm business or non-farm business or other 1 to 3 will be recorded in col. (11). The codes are as follows:</p> <p>farm business 1 non-farm business 2 household 3</p>
-----------------------------------	---

Value	Label	Cases	Percentage
1	farm business	9531	24.6%
2	non-farm business	4609	11.9%
3	household	24629	63.5%
9	invalid	37	0.1%

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

#28 B17_2_q12: Type of expenditure

Information	[Type= discrete] [Format=character] [Missing=*]
Statistics [NW/ W]	[Valid=38894 /-] [Invalid=0 /-]
Literal question	What is the type of expenditure?

Interviewer's instructions	<p>After recording the broad category of the purpose of loan in col. (11), the type of expenditure on which the loan amount was intended to be spent will be ascertained and recorded in terms of codes in col. (12). The codes are as follows:</p> <p>(new purchase, own construction, major repairs, additions, alterations and improvement of buildings and other constructions 01</p> <p>(old) purchase of buildings and other constructions 02</p> <p>purchase of land and land rights 03</p>
-----------------------------------	--

File Block 17pt2_Visit 2_Particulars of cash loans payable by the household and transactions of loans

#29 B17_2_q13: Type of security

Information	[Type= discrete] [Format=character] [Missing=*]
Statistics [NW/ W]	[Valid=38706 /-] [Invalid=0 /-]
Literal question	What is the type of security?
Interviewer's instructions	<p>The type of security may be different for different types of loans. The codes for various types of securities to be filled in col. (13) are:</p> <p>personal security 1</p> <p>surety security or guarantee by third party 2</p> <p>crop 3</p> <p>first charge on immovable property 4</p> <p>mortgage of immovable property 5</p> <p>bullion/ornaments 6</p> <p>share of companies, govt. securities and insurance policies 7</p> <p>agricultural commodities 8</p> <p>movable property other than bullion, share etc. and agricultural commodities 9</p>

File Block 17pt2_Visit 2_Particulars of cash loans payable by the household and transactions of loans

#29 B17_2_q13: Type of security

other type of security 10

The first charge on immovable property is defined as the charge on the immovable property created by the first mortgage when there are more than one mortgage for the same immovable property. In such cases, the liability of any mortgage cannot be cleared unless the liabilities of all the previous mortgages are cleared. If the loan is taken without any security, code '1' may be recorded in col. (13). In case, more than one securities are reported against a loan, the code which appears first in the code list will be recorded.

Value	Label	Cases	Percentage
01	personal security		
02	surety security or guarantee by third party		
03	crop		
04	first charge on immovable property		
05	mortgage of immovable property		
06	bullion/ornaments		
07	share of companies, govt. securities and insurance policies		
08	agricultural commodities		
09	movable property other than bullion, share etc. and agricultural commodities		
10	other type of security		

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

#30 B17_2_q14: Type of mortgage

Information	[Type= discrete] [Format=character] [Missing=*]
Statistics [NW/ W]	[Valid=38577 /-] [Invalid=0 /-]
Literal question	What is the type of mortgage?
Interviewer's instructions	<p>This column will be filled in for all loans entered in block 17.2. In the case of a loan secured by mortgage of immovable property, i.e. if the entry in col. (13) is '5', one of the codes 1 to 4 representing different types of mortgage will be entered in col. (14). If the loan is received without mortgaging any immovable property, code '5' should be recorded in col. (14). The mortgage may be of the following types:</p> <p>(i) SIMPLE MORTGAGE: In simple mortgage, the mortgagor (i.e. the person who mortgages the property) retains the ownership and possession of the property mortgaged. Code '1' will be entered for simple mortgage.</p> <p>(ii) USUFRUCTUARY MORTGAGE: In usufructuary mortgage, the ownership of the property remains with the mortgagor but the possession vests on the mortgagee (i.e. the person to whom the mortgage is made or given). Income from the property accrues to the mortgagee and the mortgage is terminated as soon as the full amount is realized. Code '2' would be given for this type of mortgage.</p> <p>(iii) MORTGAGE BY CONDITIONAL SALE: It is the type of mortgage by the execution of which the ownership and possession of the property vests with the mortgagee and a sale deed is executed. The property is returnable to the mortgagor only on termination of the mortgage (i.e. on the full recovery of loan). Code '3' will be given for this mortgage.</p> <p>(iv) OTHER TYPE OF MORTGAGE: Any type of mortgage different from the above three or any combination of those will be recorded under this category. Code '4' will be given to this type of mortgage.</p> <p>(v) NO MORTGAGE: Loans for which no mortgage is necessary will be recorded under this category, code '5' will be given for no mortgage in col. (14).</p>

Value	Label	Cases	Percentage
1	simple mortgage	3714	9.6%
2	usufructuary mortgage	439	1.1%
3	mortgage by conditional sale	679	1.8%

File Block 17pt2_Visit 2_Particulars of cash loans payable by the household and transactions of loans

#30 B17_2_q14: Type of mortgage

Value	Label	Cases	Percentage
4	other type of mortgage	662	1.7%
5	no mortgage	33048	85.7%
9	invalid	35	0.1%

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

#31 B17_2_q15: Total amount (Rs.) repaid during 1.1.92 to 30.3.92

Information	[Type= continuous] [Format=numeric] [Range= 0-1033000] [Missing=*]

Definition	Within each district of a State/ UT, two basic strata were formed: (i) rural stratum comprising of all rural areas of the district and (ii) urban stratum comprising of all the urban areas of the district.		
#10 SubSample: Sub Sample			
Information	[Type= discrete] [Format=character] [Missing=*]		
Statistics [NW/ W]	[Valid=601 /-] [Invalid=0 /-]		
Definition	An important feature of the NSS sampling design is that the total sample of first stage units is drawn in the form of two or more independent and parallel samples, termed as interpenetrating sub-samples. Each sub- sample is drawn by the same sampling scheme and is capable of providing valid estimates of the population parameters. The comparison of sub-sample wise estimates shows the margin of uncertainty associated with the combined sample estimate. Interpenetrating sub-samples have been used in NSS (i) to obtain valid estimates from each sub-round (season) of the survey round, and (ii) to ensure that Central and State samples for any State/ UT cover independent and equally valid samples of units. The samples surveyed by the NSSO staff are termed as Central sample and the matched samples surveyed by State Government staff are termed as State sample.		
Value	Label	Cases	Percentage
1	Central sample	284	47.3%

Information	[Type= discrete] [Format=character] [Missing=*]		
Statistics [NW/ W]	[Valid=10318 /-] [Invalid=0 /-]		
Recoding and Derivation	This variable has been derived for identifying a household by combining Serial no of village / Block, Sub Stratum and Sample Household number.		
#2 RoundSchedule: Round Schedule			
Information	[Type= discrete] [Format=character] [Missing=*]		
Statistics [NW/ W]	[Valid=10318 /-] [Invalid=0 /-]		
Definition	Indicates the NSS round and schedule number of this survey.		
#3 Sample: Sample			
Information	[Type= discrete] [Format=character] [Missing=*]		
Statistics [NW/ W]	[Valid=10318 /-] [Invalid=0 /-]		
#4 Visit_no: Visit no.			
Information	[Type= discrete] [Format=character] [Missing=*]		
Statistics [NW/ W]	[Valid=10318 /-] [Invalid=0 /-]		
Value	Label	Cases	Percentage
2		10318	100.0%
<i>Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.</i>			
#5 State_Region: State Region			
Information	[Type= discrete] [Format=character] [Missing=*]		
Statistics [NW/ W]	[Valid=10318 /-] [Invalid=0 /-]		
Definition	Regions are hierarchical domains of study below the level of State/ Union Territory in the NSS.		
#6 State: State			
Information	[Type= discrete] [Format=character] [Missing=*]		
Statistics [NW/ W]	[Valid=10318 /-] [Invalid=0 /-]		
Recoding and Derivation	This variable has been derived from the variable "State Region" to enable the users to easily access state wise data.		
<i>Frequency table not shown (32 Modalities)</i>			
#7 FlotNo: Flot No.			
Information	[Type= discrete] [Format=character] [Missing=*]		
Statistics [NW/ W]	[Valid=10318 /-] [Invalid=0 /-]		
Recoding and Derivation	This round contains some variables which are not in the questionnaire. These variables have been calculated for the purpose of specific tabulation for which documentation is not available. The user may ignore them.		

File Block 18_Visit 2_Particulars of other cash and kind loans payable by the household

#8 Sector: Sector

Information	[Type= discrete] [Format=character] [Missing=*]
Statistics [NW/ W]	[Valid=10318 /-] [Invalid=0 /-]
Definition	Sector : A word used for the rural-urban demarcation.

Value	Label	Cases	Percentage
1	Rural	7094	68.8%
2	Urban	3224	31.2%

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

#9 Stratum: Stratum

Information	[Type= discrete] [Format=character] [Missing=*]
Statistics [NW/ W]	[Valid=10318 /-] [Invalid=0 /-]
Definition	Within each district of a State/ UT, two basic strata were formed: (i) rural stratum comprising of all rural areas of the district and (ii) urban stratum comprising of all the urban areas of the district.

#10 SubSample: Sub Sample

Information	[Type= discrete] [Format=character] [Missing=*]
Statistics [NW/ W]	[Valid=10318 /-] [Invalid=0 /-]
Definition	An important feature of the NSS sampling design is that the total sample of first stage units is drawn in the form of two or more independent and parallel samples, termed as interpenetrating sub-samples. Each sub-sample is drawn by the same sampling scheme and is capable of providing valid estimates of the population parameters. The comparison of sub-sample wise estimates shows the margin of uncertainty associated with the combined sample estimate. Interpenetrating sub-samples have been used in NSS (i) to obtain valid estimates from each sub-round (season) of the survey round, and (ii) to ensure that Central and State samples for any State/ UT cover independent and equally valid samples of units. The samples surveyed by the NSSO staff are termed as Central sample and the matched samples surveyed by State Government staff are termed as State sample.

Value	Label	Cases	Percentage
1	Central sample	5137	49.8%
2	State sample	5181	50.2%

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

#11 SubRound: Sub Round

Information	[Type= discrete] [Format=character] [Missing=*]
Statistics [NW/ W]	[Valid=10318 /-] [Invalid=0 /-]

Value	Label	Cases	Percentage
0	Invalid	35	0.3%
1	Sub - Round 1	5407	52.4%
2	Sub - Round 2	4876	47.3%

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

#12 Vill_Blk_Slno: Village/Bl. Srl. No.

Information	[Type= discrete] [Format=character] [Missing=*]
Statistics [NW/ W]	[Valid=10318 /-] [Invalid=0 /-]

File Block 18_Visit 2_Particulars of other cash and kind loans payable by the household

#12 Vill_Blk_Slno: Village/Bl. Srl. No.

Definition	The first-stage units are census villages in the rural sector and the NSSO urban frame survey (UFS) blocks in the urban sector. This variable indicates the serial number assigned to such units.
-------------------	---

#13 SubStratum: Sub Stratum

Information [Type= discrete] [Format=character] [Missing=*]

Statistics [NW/ W] [Valid=10318 /-] [Invalid=0 /-]

#14 Hhold_no: Sample Household No.

Information [Type= discrete] [Format=character] [Missing=*]

Statistics [NW/ W] [Valid=10318 /-] [Invalid=0 /-]

#15 Level: Level

Information [Type= discrete] [Format=character] [Missing=*]

Statistics [NW/ W] [Valid=10318 /-] [Invalid=0 /-]

Value	Label	Cases	Percentage
06		10318	100.0%

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

#16 B18_q1: Serial no.of loan

Information [Type= discrete] [Format=character] [Missing=*]

Statistics [NW/ W] [Valid=10318 /-] [Invalid=0 /-]

Interviewer's instructions For all liabilities recorded in this block, a running serial number starting from 1 will be put in col. (1)

#17 B18_q2: Nature of liability

Information [Type= discrete] [Format=character] [Missing=*]

Statistics [NW/ W] [Valid=10316 /-] [Invalid=0 /-]

Literal question What is the nature of liability?

Interviewer's instructions A liability which is contracted in cash will be considered as 'cash liability', even if the repayment is made or will be made in kind. Similarly, a liability which is contracted in kind will be considered as 'kind liability', regardless of the mode of repayment which may be in cash or in kind. The nature of each of the liabilities will be ascertained and recorded in col. (2) in terms of codes: cash-1, kind-2.

Value	Label	Cases	Percentage
1	cash	7167	69.5%
2	kind	3146	30.5%
9	invalid	3	0.0%

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

#18 B18_q3: Amount outstanding as on dt/survey (Rs.)

Information [Type= continuous] [Format=numeric] [Range= 0-400000] [Missing=*]

Statistics [NW/ W] [Valid=10312 /-] [Invalid=6 /-] [Mean=1812.021 /-] [StdDev=10355.389 /-]

Literal question How much amount was outstanding as on dt/survey?

Interviewer's instructions For each of the liabilities, the amount outstanding including interest on the date of survey is to be ascertained and recorded in col. (3) in whole number of rupees. In case of kind loans, the amount of the liability will be evaluated at the current market price prevailing in the locality on the date of survey.

File Block 18_Visit 2_Particulars of other cash and kind loans payable by the household

#19 B18_q4: Period code

Information	[Type= discrete] [Format=character] [Missing=*]
Statistics [NW/ W]	[Valid=10317 /-] [Invalid=0 /-]
Literal question	For how long the liability has been outstanding?
Interviewer's instructions	For each liability, the period for which the liability is outstanding will be recorded in term of code in col. (4). The codes are: less than 1 month 1 1 month & above but less than 3 months 2 3 months and above but less than 6 months 3 6 months and above but less than 1 year 4 one year & above 5

Value	Label	Cases	Percentage
1	less than 1 month	2362	22.9%
2	1 month & above but less than 3 months	3640	35.3%
3	3 months and above but less than 6 months	2330	22.6%
4	6 months and above but less than 1 year	1114	10.8%
5	one year & above	866	8.4%
9	invalid	5	0.0%

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

#20 B18_q5: Source code

Information	[Type= discrete] [Format=character] [Missing=*]
Statistics [NW/ W]	[Valid=10317 /-] [Invalid=0 /-]
Literal question	To which credit agency the liability is due?
Interviewer's instructions	For each liability, the agency to which the liability is due will be recorded in terms of code in col. (5). The codes are: trader 1 relatives & friends 2 doctors, lawyers & other professionals 3 others 4

Value	Label	Cases	Percentage
1	trader	6327	61.3%
2	relatives and friends	1489	14.4%
3	doctors, lawyers and other professionals	1036	10.0%
8	invalid	5	0.0%
9	others	1460	14.2%

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

#21 B18_q6: Purpose code

Information	[Type= discrete] [Format=character] [Missing=*]
Statistics [NW/ W]	[Valid=10307 /-] [Invalid=0 /-]
Literal question	What was the reason for taking loan?
Interviewer's instructions	For each liability, the purpose for which the liability incurred will be recorded in terms of codes in col. (6). The codes are: current expenditure in farm business 1 current expenditure in non-farm business 2 other household expenditure 3

File Block 18_Visit 2_Particulars of other cash and kind loans payable by the household

#21 B18_q6: Purpose code

	other expenditure	4	
Value	Label	Cases	Percentage
1	current expenditure in farm business	772	7.5%
2	current expenditure in non-farm business	723	7.0%
3	other household expenditure	8000	77.6%
8	invalid	17	0.2%
9	other expenditure	795	7.7%

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

#22 Update_Code: Update code

Information	[Type= discrete] [Format=character] [Missing=*]
Statistics [NW/ W]	[Valid=215 /-] [Invalid=0 /-]
Recoding and Derivation	This round contains some variables which are not in the questionnaire. These variables have been calculated for the purpose of specific tabulation for which documentation is not available. The user may ignore them.

File Block 19pt1_Visit 2_Specified items on which expenditure incurred

#1 HHID: Key to identify a household

Information	[Type= discrete] [Format=character] [Missing=*]
Statistics [NW/ W]	[Valid=102062 /-] [Invalid=0 /-]
Recoding and Derivation	This variable has been derived for identifying a household by combining Serial no of village / Block, Sub Stratum and Sample Household number.

#2 RoundSchedule: Round Schedule

Information	[Type= discrete] [Format=character] [Missing=*]
Statistics [NW/ W]	[Valid=102062 /-] [Invalid=0 /-]
Definition	Indicates the NSS round and schedule number of this survey.

#3 Sample: Sample

Information	[Type= discrete] [Format=character] [Missing=*]
Statistics [NW/ W]	[Valid=102062 /-] [Invalid=0 /-]

#4 Visit_no: Visit no.

Information	[Type= discrete] [Format=character] [Missing=*]
Statistics [NW/ W]	[Valid=102062 /-] [Invalid=0 /-]

Value	Label	Cases	Percentage
2		102062	100.0%

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

#5 State_Region: State Region

Information	[Type= discrete] [Format=character] [Missing=*]
Statistics [NW/ W]	[Valid=102062 /-] [Invalid=0 /-]
Definition	Regions are hierarchical domains of study below the level of State/ Union Territory in the NSS.

#6 State: State

Information	[Type= discrete] [Format=character] [Missing=*]
--------------------	---

File Block 19pt1_Visit 2_Specified items on which expenditure incurred

#6 State: State

Statistics [NW/ W]	[Valid=102062 /-] [Invalid=0 /-]
Recoding and Derivation	This variable has been derived from the variable "State Region" to enable the users to easily access state wise data.
<i>Frequency table not shown (32 Modalities)</i>	

#7 FlotNo: Flot No.

Information	[Type= discrete] [Format=character] [Missing=*]
Statistics [NW/ W]	[Valid=102062 /-] [Invalid=0 /-]
Recoding and Derivation	This round contains some variables which are not in the questionnaire. These variables have been calculated for the purpose of specific tabulation for which documentation is not available. The user may ignore them.

#8 Sector: Sector

Information	[Type= discrete] [Format=character] [Missing=*]
Statistics [NW/ W]	[Valid=102062 /-] [Invalid=0 /-]
Definition	Sector : A word used for the rural-urban demarcation.

Value	Label	Cases	Percentage
1	Rural	63907	62.6%
2	Urban	38155	37.4%

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

#9 Stratum: Stratum

Information	[Type= discrete] [Format=character] [Missing=*]
Statistics [NW/ W]	[Valid=102062 /-] [Invalid=0 /-]
Definition	Within each district of a State/ UT, two basic strata were formed: (i) rural stratum comprising of all rural areas of the district and (ii) urban stratum comprising of all the urban areas of the district.

#10 SubSample: Sub Sample

Information	[Type= discrete] [Format=character] [Missing=*]
Statistics [NW/ W]	[Valid=102062 /-] [Invalid=0 /-]
Definition	An important feature of the NSS sampling design is that the total sample of first stage units is drawn in the form of two or more independent and parallel samples, termed as interpenetrating sub-samples. Each sub- sample is drawn by the same sampling scheme and is capable of providing valid estimates of the population parameters. The comparison of sub-sample wise estimates shows the margin of uncertainty associated with the combined sample estimate. Interpenetrating sub-samples have been used in NSS (i) to obtain valid estimates from each sub-round (season) of the survey round, and (ii) to ensure that Central and State samples for any State/ UT cover independent and equally valid samples of units. The samples surveyed by the NSSO staff are termed as Central sample and the matched samples surveyed by State Government staff are termed as State sample.

Value	Label	Cases	Percentage

#53 B19_1_q3m: Whether incurred any expenditure for purchase, construction, addition etc.

Information	[Type= discrete] [Format=character] [Missing=*]
Statistics [NW/ W]	[Valid=1 /-] [Invalid=0 /-]
Literal question	Whether any expenditure has been made by the household during the reference period for purchase, construction, additions etc.?

File Block 19pt1_Visit 2_Specified items on which expenditure incurred

#53 B19_1_q3m: Whether incurred any expenditure for purchase, construction, addition etc.

Interviewer's instructions	For each of the items noted in cols. (1) and (2) of block 19.1, it is to be ascertained as to whether any expenditure has been made by the household during the reference period for purchase, construction, additions & alterations, improvements and major repairs. If the response is in the affirmative, code '1' will be recorded against the appropriate item in col. (3); otherwise code '2' will be entered.

#17 B19_2_q4: Purpose code

Information [Type= discrete] [Format=character] [Missing=*]

Statistics [NW/ W] [Valid=22901 /-] [Invalid=0 /-]

Literal question What was the purpose for which the expenditure has been incurred?

Interviewer's instructions The purpose for which the expenditure has been incurred will be described in col. (3) and the corresponding purpose code will be recorded in col. (4). The purpose codes are:

- (new) purchase (including purchase of land, land rights etc.) 1
 additions (including reclamation of land/constructions) 2
 major repairs & alterations (including renewal & replacement)3
 improvement (including bonding and other land improvement/
 normal annual replanting in case of orchard and plantations) 4
 normal repairs & maintenance 5

File Block 19pt2_Visit 2_Expenditure on specified items

#17 B19_2_q4: Purpose code

Value	Label	Cases	Percentage
1	(new) purchase (including purchase of land, land rights etc.)	4506	19.7%
2	additions (including reclamation of land/constructions)	998	4.4%
3	major repairs & alterations (including renewal & replacement)	1401	6.1%
4	improvement (including bonding and other land improvement/normal annual replanting in case of orchard and plantations)	701	3.1%
5	normal repairs & maintenance	15260	66.6%
9	invalid	35	0.2%

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

#18 B19_2_q5: Expenditure in cash (Rs.) on purchase of assets and materials

Information	[Type= continuous] [Format=numeric] [Range= 0-420000] [Missing=*]
Statistics [NW/ W]	[Valid=17809 /-] [Invalid=5092 /-] [Mean=2485.038 /-] [StdDev=11630.816 /-]
Literal question	How much expenditure was made in cash for the purchase of assets & materials?

#19 B19_2_q6: Expenditure in cash (Rs.) on payment to hired labour

Information	[Type= continuous] [Format=numeric] [Range= 0-100000] [Missing=*]
Statistics [NW/ W]	[Valid=13506 /-] [Invalid=9395 /-] [Mean=629.927 /-] [StdDev=2923.446 /-]
Literal question	How much expenditure was made in cash for payment to hired labour?

#20 B19_2_q7: Expenditure in kind (Rs.) on purchase of assets and materials

Information	[Type= continuous] [Format=numeric] [Range= 0-230000] [Missing=*]
Statistics [NW/ W]	[Valid=457 /-] [Invalid=22444 /-] [Mean=525.212 /-] [StdDev=1843.455 /-]
Literal question	How much expenditure was made in kind for the purchase of assets & materials?
Interviewer's instructions	The amount of expenditure incurred in cash will be recorded in cols. (5) and (6) and that in kind in cols. (7) and (8). The expenditure in kind will be evaluated at the current market price prevailing in the locality or its neighborhood.

#21 B19_2_q8: Expenditure in kind (Rs.) on payment to hired labour

Information	[Type= continuous] [Format=numeric] [Range= 0-350000] [Missing=*]
Statistics [NW/ W]	[Valid=1848 /-] [Invalid=21053 /-] [Mean=214.732 /-] [StdDev=1257.736 /-]
Literal question	How much expenditure was made in kind for payment to hired labour?

#22 B19_2_q9: Value of assets etc. out of home produced stock (Rs.)

Information	[Type= continuous] [Format=numeric] [Range= 0-670000] [Missing=*]
Statistics [NW/ W]	[Valid=3211 /-] [Invalid=19690 /-] [Mean=344.926 /-] [StdDev=1672.842 /-]
Literal question	How much is the value of assets and materials used out of home produced stock?
Interviewer's instructions	The value of the home produced assets and materials actually used for the construction, improvement etc. of the asset during the reference period will be recorded in col. (9). However, this will not, include the value of commodities paid to hired labour as their payment in kind. Such payment will be considered for making entries in col. (8). The home-produced asset and materials used for construction, improvement etc. of the listed asset may have been produced during or before the reference period. Such assets and materials supplied by the household will be evaluated at current market price prevailing in the locality during the reference period.

#23 B19_2_q10: Value of work done by hh members (Rs.)

Information	[Type= continuous] [Format=numeric] [Range= 3-170000] [Missing=*]
Statistics [NW/ W]	[Valid=7985 /-] [Invalid=14916 /-] [Mean=266.25 /-] [StdDev=2831.414 /-]
Literal question	How much is the value of work done by the household members?

File Block 19pt2_Visit 2_Expenditure on specified items	
#23 B19_2_q10: Value of work done by hh members (Rs.)	
Interviewer's instructions	The value of labour put by the household members including regular workers engaged in farm or non-farm business, guests etc. in connection with the manual work needed for repairs, construction etc. of bunds, wells or houses or any other items of physical assets in farm or non-farm business will be recorded in col. (10). In evaluating such work, the contribution of free labour or exchange labour will be included. This work will be evaluated using the average wage paid to hired labour for such work.
#24 B19_2_q11: Total (Rs.)	
Information	[Type= continuous] [Format=numeric] [Range= 0-475000] [Missing=*]
Statistics [NW/ W]	[Valid=22892 /-] [Invalid=9 /-] [Mean=2473.975 /-] [StdDev=12011.068 /-]
Literal question	How much total expenditure was incurred by the household?
Interviewer's instructions	Total of cols. (5) to (10) will be recorded in col. (11).
#25 B19_2_q12: Amount financed from borrowing (Rs.)- Institutional	
Information	[Type= continuous] [Format=numeric] [Range= 1-300000] [Missing=*]
Statistics [NW/ W]	[Valid=376 /-] [Invalid=22525 /-] [Mean=18134.404 /-] [StdDev=36288.941 /-]
Literal question	How much amount was financed by institutional borrowing?
Interviewer's instructions	Some times expenditure on some items are financed partly or wholly from borrowings during the reference period. The amount financed from borrowings is to be recorded in cols. (12) and/or (13) depending on whether the lending agency is an institutional or a non-institutional one.
#26 B19_2_q13: Amount financed from borrowing (Rs.)- Non-Institutional	
Information	[Type= continuous] [Format=numeric] [Range= 1-125000] [Missing=*]
Statistics [NW/ W]	[Valid=569 /-] [Invalid=22332 /-] [Mean=8030.023 /-] [StdDev=14828.74 /-]
Literal question	How much amount was financed by non-institutional borrowing?
Interviewer's instructions	Some times expenditure on some items are financed partly or wholly from borrowings during the reference period. The amount financed from borrowings is to be recorded in cols. (12) and/or (13) depending on whether the lending agency is an institutional or a non-institutional one.
#27 Update_Code: Update code	
Information	[Type= discrete] [Format=character] [Missing=*]
Statistics [NW/ W]	[Valid=530 /-] [Invalid=0 /-]
Recoding and Derivation	This round contains some variables which are not in the questionnaire. These variables have been calculated for the purpose of specific tabulation for which documentation is not available. The user may ignore them.
File Block 20_Visit 2_Particulars of acquisition, disposal and loss of assets	
#1 HHID: Key to identify a household	
Information	[Type= discrete] [Format=character] [Missing=*]
Statistics [NW/ W]	[Valid=28547 /-] [Invalid=0 /-]
Recoding and Derivation	This variable has been derived for identifying a household by combining Serial no of village / Block, Sub Stratum and Sample Household number.
#2 RoundSchedule: Round Schedule	
Information	[Type= discrete] [Format=character] [Missing=*]
Statistics [NW/ W]	[Valid=28547 /-] [Invalid=0 /-]
Definition	Indicates the NSS round and schedule number of this survey.

Information	[Type= discrete] [Format=character] [Missing=*]
--------------------	---

Statistics [NW/ W]	[Valid=28547 /-] [Invalid=0 /-]
---------------------------	---------------------------------

Recoding and Derivation	This variable has been derived from the variable "State Region" to enable the users to easily access state wise data.
--------------------------------	---

Frequency table not shown (32 Modalities)

#7 FlotNo: Flot No.

Information	[Type= discrete] [Format=character] [Missing=*]
--------------------	---

Statistics [NW/ W]	[Valid=28547 /-] [Invalid=0 /-]
---------------------------	---------------------------------

Recoding and Derivation	This round contains some variables which are not in the questionnaire. These variables have been calculated for the purpose of specific tabulation for which documentation is not available. The user may ignore them.
--------------------------------	--

#8 Sector: Sector

Information	[Type= discrete] [Format=character] [Missing=*]
--------------------	---

Statistics [NW/ W]	[Valid=28547 /-] [Invalid=0 /-]
---------------------------	---------------------------------

Definition	Sector : A word used for the rural-urban demarcation.
-------------------	---

Value	Label	Cases	Percentage
1	Rural	18608	65.2%
2	Urban	9939	34.8%

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

#9 Stratum: Stratum

Information	[Type= discrete] [Format=character] [Missing=*]
--------------------	---

Statistics [NW/ W]	[Valid=28547 /-] [Invalid=0 /-]
---------------------------	---------------------------------

Definition	Within each district of a State/ UT, two basic strata were formed: (i) rural stratum comprising of all rural areas of the district and (ii) urban stratum comprising of all the urban areas of the district.
-------------------	---

#10 SubSample: Sub Sample

Information	[Type= discrete] [Format=character] [Missing=*]
--------------------	---

Statistics [NW/ W]	[Valid=28547 /-] [Invalid=0 /-]
---------------------------	---------------------------------

Definition	An important feature of the NSS sampling design is that the total sample of first stage units is drawn in the form of two or more independent and parallel samples, termed as interpenetrating sub-samples. Each sub- sample is
-------------------	---

File Block 20_Visit 2_Particulars of acquisition, disposal and loss of assets**#10 SubSample: Sub Sample**

drawn by the same sampling scheme and is capable of providing valid estimates of the population parameters. The comparison of sub-sample wise estimates shows the margin of uncertainty associated with the combined sample estimate.

Interpenetrating sub-samples have been used in NSS (i) to obtain valid estimates from each sub-round (season) of the survey round, and (ii) to ensure that Central and State samples for any State/ UT cover independent and equally valid samples of units.

The samples surveyed by the NSSO staff are termed as Central sample and the matched samples surveyed by State Government staff are termed as State sample.

Value	Label	Cases	Percentage
1	Central sample	14456	50.6%
2	State sample	14091	49.4%

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

#11 SubRound: Sub Round

Information [Type= discrete] [Format=character] [Missing=*]

Statistics [NW/ W] [Valid=28547 /-] [Invalid=0 /-]

Value	Label	Cases	Percentage
0	Invalid	117	0.4%
1	Sub - Round 1	14750	51.7%
2	Sub - Round 2	13680	47.9%

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

#12 Vill_Blk_Slno: Village/Bl. Srl. No.

Information [Type= discrete] [Format=character] [Missing=*]

Statistics [NW/ W] [Valid=28547 /-] [Invalid=0 /-]

Definition The first-stage units are census villages in the rural sector and the NSSO urban frame survey (UFS) blocks in the urban sector. This variable indicates the serial number assigned to such units.

#13 SubStratum: Sub Stratum

Information [Type= discrete] [Format=character] [Missing=*]

Statistics [NW/ W] [Valid=28547 /-] [Invalid=0 /-]

#14 Hhold_no: Sample Household No.

Information [Type= discrete] [Format=character] [Missing=*]

Statistics [NW/ W] [Valid=28547 /-] [Invalid=0 /-]

#15 Level: Level

Information [Type= discrete] [Format=character] [Missing=*]

Statistics [NW/ W] [Valid=28547 /-] [Invalid=0 /-]

Value	Label	Cases	Percentage
09		28547	100.0%

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

#16 B20_q1: Item srl. no.

Information [Type= discrete] [Format=character] [Missing=*]

Statistics [NW/ W] [Valid=28547 /-] [Invalid=0 /-]

File Block 20_Visit 2_Particulars of acquisition, disposal and loss of assets

#16 B20_q1: Item srl. no.

Value	Label	Cases	Percentage
001	residential houses or buildings	489	1.7%
002	building sites (area sq. mt.)	182	0.6%
003	land (area sq. mt.) (asset of farm business)	164	0.6%
004	bunds and other land improvement works	53	0.2%
005	wells and other irrigation sources	59	0.2%
006	agricultural implements, machinery, transport equipments etc.	1667	5.8%
007	farm houses, barns and animal sheds	221	0.8%
008	livestock	3905	13.7%
009	other farm business assets	295	1.0%
010	building (asset of non-farm business)	52	0.2%
011	building sites (area sq. mt.)	17	0.1%
012	production equipments and accessories	297	1.0%
013	transport equipments	239	0.8%
014	furniture and fixtures	427	1.5%
015	other non-farm business assets	219	0.8%
016	financial assets	2486	8.7%
017	transport equipments (for household)	434	1.5%
018	durable household goods	4941	17.3%
019	bullion / ornaments	540	1.9%
020	total	11860	41.5%

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

#17 B20_q3: Acquisition by purchase (Rs.)

Information	[Type= continuous] [Format=numeric] [Range= 0-5121040] [Missing=*]
Statistics [NW/ W]	[Valid=24953 /-] [Invalid=3594 /-] [Mean=3593.028 /-] [StdDev=47771.289 /-]
Literal question	How much expenditure was incurred for acquisition of item by purchase?
Interviewer's instructions	The value of assets acquired by way of purchase during the reference period will be recorded in col. (3). The purchase will include second hand purchase also. The purchase price will be recorded as the value of the asset in col. (3). If the item which is purchased during the reference period, the entry to be recorded in col. (5) will be the same as that in col. (3). Assets acquired by way of gift, donation etc. will be evaluated at the current market price prevailing in the locality and will be recorded in col. (4).

#18 B20_q4: Acquisition by gifts,donation etc. (Rs.)

Information	[Type= continuous] [Format=numeric] [Range= 0-250000] [Missing=*]
Statistics [NW/ W]	[Valid=12853 /-] [Invalid=15694 /-] [Mean=385.023 /-] [StdDev=4469.568 /-]
Literal question	How much expenditure was incurred for acquisition of item by gifts, donations etc.?

#19 B20_q5: Disposal by sale (Rs.)

Information	[Type= continuous] [Format=numeric] [Range= 0-4625300] [Missing=*]
Statistics [NW/ W]	[Valid=14232 /-] [Invalid=14315 /-] [Mean=2196.513 /-] [StdDev=55624.095 /-]
Literal question	How much amount was obtained by disposal of item through sale?
Interviewer's instructions	The term 'sale' here will mean all transfer of assets to others in return for payment receivable in cash or in kind. The payment receivable in kind will be evaluated at the current market prices prevailing in the locality during the reference period. The amount receivable, from the sale, will be recorded in col. (5) in respect of each category of items sold.

File Block 20_Visit 2_Particulars of acquisition, disposal and loss of assets

#20 B20_q6: Disposal by gifts,donation etc. (Rs.)

Information	[Type= continuous] [Format=numeric] [Range= 0-56600] [Missing=*]
Statistics [NW/ W]	[Valid=12233 /-] [Invalid=16314 /-] [Mean=146.405 /-] [StdDev=1588.457 /-]
Literal question	How much amount was involved in disposal of item through gift, donation etc.?
Interviewer's instructions	The items disposed of by way of gifts, donation etc. will also be evaluated at the current market price prevailing in the locality for making entries in col. (6).

#21 B20_q7: Loss by natural calamities (Rs.)

Information	[Type= continuous] [Format=numeric] [Range= 0-30000] [Missing=*]
Statistics [NW/ W]	[Valid=12536 /-] [Invalid=16011 /-] [Mean=180.46 /-] [StdDev=1135.936 /-]
Literal question	How much loss of the item was suffered by natural calamities?
Interviewer's instructions	The loss of assets may be caused by natural calamities or on account of other reasons. The value of the loss which may be total or partial for reasons. The value of the loss which may be total or partial for the item, will be recorded in cols. (7) and/or (8) depending on whether the loss is due to natural calamities or other reasons. The natural calamities will include flood, rain, fire, cyclone, earthquake etc. The loss due to other reasons will include cases of accident; theft, eaten by termites etc. The value of the loss will be estimated as the expenditure required to be incurred to restore it to the same condition as it was prior to the loss. An asset having no use to the household may be discarded during the reference period. This asset may be in vary poor condition and it is not likely to be sold for its intended purpose. Still it may have some scrap value which will be recorded in col. (9).

#22 B20_q8: Loss on account of other reasons (Rs.)

Information	[Type= continuous] [Format=numeric] [Range= 0-80000] [Missing=*]
Statistics [NW/ W]	[Valid=13045 /-] [Invalid=15502 /-] [Mean=219.395 /-] [StdDev=1930.825 /-]
Literal question	How much loss of the item was suffered on account of other reasons?
Interviewer's instructions	The loss of assets may be caused by natural calamities or on account of other reasons. The value of the loss which may be total or partial for reasons. The value of the loss which may be total or partial for the item, will be recorded in cols. (7) and/or (8) depending on whether the loss is due to natural calamities or other reasons. The natural calamities will include flood, rain, fire, cyclone, earthquake etc. The loss due to other reasons will include cases of accident; theft, eaten by termites etc. The value of the loss will be estimated as the expenditure required to be incurred to restore it to the same condition as it was prior to the loss. An asset having no use to the household may be discarded during the reference period. This asset may be in vary poor condition and it is not likely to be sold for its intended purpose. Still it may have some scrap value which will be recorded in col. (9).

#23 B20_q9: Salvage value of discarded assets (Rs.)

Information	[Type= continuous] [Format=numeric] [Range= 0-100000] [Missing=*]
Statistics [NW/ W]	[Valid=12741 /-] [Invalid=15806 /-] [Mean=170.335 /-] [StdDev=2744.604 /-]
Literal question	What is the salvage value of the discarded assets?

#24 Update_Code: Update code

Information	[Type= discrete] [Format=character] [Missing=*]
Statistics [NW/ W]	[Valid=684 /-] [Invalid=0 /-]
Recoding and Derivation	This round contains some variables which are not in the questionnaire. These variables have been calculated for the purpose of specific tabulation for which documentation is not available. The user may ignore them.
