Overview

ABSTRACT

An all-India survey on the situation of employment and unemployment in India during the period January to June, 2004 was carried out as part of the annual series in the 60th round of the National Sample Survey Organisation (NSSO). In this survey, a nation-wide enquiry was conducted in a moderately large sample of households to provide estimates on various characteristics pertaining to employment and unemployment in India and some characteristics associated with them at the national and state levels. Information on various facets of employment and unemployment in India were collected through a schedule of enquiry (Schedule 10). These apart, information on vocational training received by persons in the age group 15-29 were collected for the first time in NSS surveys.

KIND OF DATA

Sample survey data [ssd]

UNITS OF ANALYSIS

Randomly selected households based on sampling procedure and members of the household

Scope

NOTES

In the present survey, there was a significant change in respect of the procedure of data collection and content of information as compared to the earlier annual rounds. Planning Commission, this time, submitted their additional requirement of measuring employment and unemployment in terms of current daily status approach. They also stressed the requirement of collecting information in respect of formal vocational training received by the youth to assess its volume and structure for future manpower planning, besides collecting information from persons who were unemployed on all 7 days preceding the date of survey on their employment, if any, in the past, status and industry of work, reason for quitting the job, etc. that were generally collected in the quinquennial rounds. These requirements of Planning Commission necessitated the designing of a separate schedule (Schedule 10) for collection of information on employment and unemployment situation in order to release the burden of the schedule meant for gathering information on household consumer expenditure. Therefore, the schedule on employment and Unemployment was canvassed in a separate set of sample households.

Summary description of the schedule

In the present round, Schedule 10 on employment-unemployment consists of 11 blocks. Of these, five blocks are similar to the ones used in usual NSS rounds. The first three blocks, viz. Blocks 0, 1 and 2, are used to record identification of sample households and particulars of field operations, as is the common practice in usual NSS rounds. Similarly, the last two blocks, viz., Blocks 9 & 10, are again the usual blocks to record the remarks of investigator and comments by supervisory officer(s), respectively. Of the remaining 6 blocks, Block 3 is for recording the household characteristics like household size, household

industry, occupation, religion, social group, household type, land possessed and monthly household consumer expenditure, etc. Block 4 is for recording the demographic particulars as well as the usual principal activity and usual subsidiary activity particulars of all the household members.

The daily time disposition for different activities for each of the seven days prior to the date of survey along with the particulars of the activities will be recorded for each of the household members in Block 5. Further, the current weekly status (cws) will be derived from the daily time disposition data and will be recorded in this block. In addition, for the regular salaried/wage employee and casual labourers, wage and salary earnings will also be collected in this block. Block 6 is for recording the responses to the probing questions for those who were unemployed on all the seven days of the reference week. Such persons will be identified on the basis of duration of unemployment during the reference week recorded in Block 5.

Particulars of formal vocational training received by household members of a specified age-group and educational standard will be collected in the employment-unemployment schedule of NSSO for the first time. In Block 7, particulars of vocational training such as 'description of the field of training', 'name and address of agency from where training received', 'duration of the training' etc. will be collected. Block 8 is a worksheet to obtain the monthly household consumer expenditure, which is broadly in line with that used with the schedule 10 in the 55th round.

TOPICS

Topic	Vocabulary	URI
Labor Markets	World Bank	http://www.surveynetwork.org/toolkit

KEYWORDS

Employment, Unemployment, Indebtedness of rural labour, Usual principal activity, Usual subsidiary activity, Time disposition during the week, Migration

Coverage

GEOGRAPHIC COVERAGE

The survey covered the whole of the Indian Union excepting (i) Leh (Ladakh) and Kargil districts of Jammu & Kashmir, (ii) 768 interior villages of Nagaland situated beyond 5 kms. of the bus route and (iii) villages of Andaman & Nicobar Islands which remain inaccessible throughout the year. A few other areas of Jammu & Kashmir were also excluded from the survey coverage owing to unfavourable field conditions.

UNIVERSE

The survey used the interview method of data collection from a sample of randomly selected households and members of the household

Sampling

Sampling Procedure

An outline of the sampling design: The sampling design adopted for the survey was essentially a stratified multi-stage one for both rural and urban areas. The first stage units (FSUs) were villages (panchayat wards for Kerala) for rural areas and NSS Urban Frame Survey (UFS) blocks for urban areas. The ultimate stage units (USUs) were households. Large FSUs were subdivided into hamlet-groups (rural)/sub-blocks (urban). Details of the formation of hamlet-groups/sub-blocks and procedure of selection of hamlet-groups/sub-blocks and then of households are also given in Appendix B.

Sampling Frame for FSUs: The list of villages (panchayat wards for Kerala) as per 1991 Census and latest lists of UFS blocks of NSSO were respectively used for selection of rural and urban sample FSUs. For selection of sample villages from the State of Jammu & Kashmir, the list of villages as per 1981 Census was used as the sampling frame. However, interior villages of Nagaland situated beyond 5 kms. of the bus route and inaccessible villages of Andaman & Nicobar Islands were left out of the survey coverage of NSS 60th round.

The procedure for selection of fsus/usus is given in detail in Appendix B of the report no.506 attached as external resources.

Deviations from Sample Design

There was no deviation from the original sample deviation.

Response Rate

A total number of 7,612 FSUs (4,908 villages and 2,704 urban blocks) was selected for survey in the Central sample at the all-India level in the 60th round for canvassing Schedule 10. Out of these 7612 FSUs allotted for survey, 7424 FSUs could be surveyed - 4755 in rural and 2669 in urban.

second stage units: For Schedule 10, a sample of 8 households was selected and surveyed from each selected village and urban block. In the Central sample, 59159 households were actually surveyed - 37883 in rural areas and 21276 in urban areas. As regards the actual number of persons surveyed, it was 204403 in the rural sector and 99425 in the urban sector.

Weighting

For generating any estimate, one has to extract relevant portion of the data, and aggregate after applying the weights.

Weights (or multipliers) VARIABLES are given at the end of record of each dataset. The weights (multipliers) are WGT_SS for Sub-sample-wise estimation and WGT_Combined for combined subsample estimates.

All records of a household will have same weight figure. In case of those Blocks/Levels, where Item/Person Sl.No. is not applicable the field is filled up with 00000.

Use of subsample-wise weights (multipliers)

For generating subsample-wise estimates based on data of all subrounds taken together, either Subsample-1 households or Subsample-2 households are to be considered at one time. Subsample code is available in the dataset For generating subsample-combined estimates based on data of all subrounds taken together all households are to be considered.

Questionnaires

Overview

Summary description of the schedule : The schedule 10 on employment-unemployment for NSS60th round consisted of 10 blocks as given below.

Block 0: Descriptive identification of sample household

Block 1: Identification of sample household

Block 2: Particulars of field operations

Block 3 - Household Characteristics.

Block 4: demographic and usual activity particulars of household members

Block 5: Time disposition of members during the week ended on

Block 6: Follow-up questions for persons unemployed on all the 7 days of the week

Block 7: Particulars of vocational training received by household members aged 15 - 29

Block 8: household consumer expenditure

Block 9: Remarks by investigator

Block 10: Comments by supervisory officer(s)

Data Collection

Data Collection Dates

Start	End	Cycle
2004-01-01	2004-03-31	subround-1
2004-04-01	2004-06-30	subround-2

Data Collection Mode

Face-to-face [f2f]

Data Collection Notes

The fieldwork of 60th round of NSSO started from 1st January, 2004 and continued till 30th June, 2004. As usual, the survey period of this round was divided into two sub-rounds, each with a duration of three months, the 1st sub-round period ranging from January to March, 2004 and the 2nd sub-round period from April to June, 2004. An equal number of sample FSU's was allotted for survey in each of these two sub-rounds.

Questionnaires

Summary description of the schedule : The schedule 10 on employment-unemployment for NSS60th round consisted of 10 blocks as given below.

Block 0: Descriptive identification of sample household

Block 1: Identification of sample household

Block 2: Particulars of field operations

Block 3 - Household Characteristics.

Block 4: demographic and usual activity particulars of household members

Block 5: Time disposition of members during the week ended on

Block 6: Follow-up questions for persons unemployed on all the 7 days of the week

Block 7: Particulars of vocational training received by household members aged 15 - 29

Block 8: household consumer expenditure

Block 9: Remarks by investigator

Block 10: Comments by supervisory officer(s)

Informant Sl.No. (B1_q16)

File: Block-1-sample-household-identification-records

Overview

Type: Discrete	Valid cases: 59141
Format: character	Invalid: 0
Width: 2	

Interviewer instructions

Informant Sl.No. (B1_q16)

File: Block-1-sample-household-identification-records

The serial number of the person recorded in column 1 of block 4 from whom the bulk of the information is collected will be entered. Information is to be collected from members of the household. However, if bulk of the information is collected from a person who is not a member of the household, '99' will be recorded.

Response Code (B1_q17)

File: Block-1-sample-household-identification-records

Overview

Type: Discrete

Format: character

Width: 1

Valid cases: 59152

Invalid: 0

Interviewer instructions

This item will be filled in after collecting information for all items in the Schedule. The entry is to be made in terms of codes on the basis of the impression formed by the investigator regarding the overall response of the informant.

Survey Code (B1_q18)

File: Block-1-sample-household-identification-records

Overview

Type: Discrete

Format: character

Width: 1

Valid cases: 59159

Invalid: 0

Interviewer instructions

Whether the originally selected sample household or a substitute household has been surveyed will be indicated against this item by recording code '1' if the originally selected household has been surveyed and code '2' if the substitute household has been surveyed. If neither the originally selected household nor a substitute household could be surveyed, i.e. if the sample household is a casualty, code '3' will be recorded. In case of a casualty only the blocks 0,1 ,2, 9 and 10 are to be filled up and on the top of the front page of the schedule the word 'CASUALTY' will be written in block capitals.

Substitution Code (B1_q19)

File: Block-1-sample-household-identification-records

Overview

Type: Discrete

Format: character

Width: 1

Valid cases: 1781

Invalid: 0

Literal question

Reason for substitution of original household (code)

Interviewer instructions

For an originally selected sample household which could not be surveyed, irrespective of whether a substituted household could be surveyed or not, the reason for not surveying the original household will be recorded against item 19 in terms of codes

Date of Survey(ddmmyy) (B2_q2i)

Format: numeric	Invalid: 0
Width: 2	Minimum: 1
Decimals: 0	Maximum: 34
Range: 1-34	Mean: 5.1
	Standard deviation: 2.7

Household size (B3_q1)

File: Block-3-Household-characteristics-records

Interviewer instructions

The size of the sample household i.e., the total number of persons normally residing together (i.e., under the same roof) and taking food from the same kitchen (including temporary stayaways and excluding temporary visitors) will be recorded against this item. This number will be same as the last serial number recorded in column 1 of block 4.

Principal industry(NIC-98) code (B3_q2)

File: Block-3-Household-characteristics-records

Overview

Type: Continuous	Valid cases: 55893
Format: numeric	Invalid: 3266
Width: 5	Minimum: 1111
Decimals: 0	Maximum: 95009
Range: 1111-95009	Mean: 30567.6
	Standard deviation: 30670.8

Interviewer instructions

The description of the principal household industry will be recorded in the space provided. The appropriate five-digit industry code of the NIC 1998 is to be recorded against 5 cells provided for recording NIC codes putting one digit in each cell. For households deriving income from non-economic activities only, (e.g. for a beggar household) a dash (-) may be put against this item.

Principal occupation (NC0-68) code (B3_q3)

File: Block-3-Household-characteristics-records

Overview

Type: Continuous	Valid cases: 55914
Format: numeric	Invalid: 3245
Width: 3	Minimum: 1
Decimals: 0	Maximum: 999
Range: 1-999	Mean: 587.6
	Standard deviation: 230.4

Interviewer instructions

The description of the principal household occupation will be recorded in the space provided. The appropriate three-digit occupation code of the NCO 1968 is to be recorded against 3 cells provided for recording the NIC codes putting one digit in each cell. For households deriving income from non-economic activities only, a dash (-) may be put against this item.

Household type recoded (B3_q4)

File: Block-3-Household-characteristics-records

Overview

Type: Discrete	Valid cases: 59159
Format: character	Invalid: 0
Width: 2	

Religion (B3_q5)

File: Block-3-Household-characteristics-records

Overview

Religion (B3_q5)

File: Block-3-Household-characteristics-records

Type: Discrete

Valid cases: 59154

Format: character

Invalid: 0

Width: 1

Interviewer instructions

The religion of the household will be recorded against this item in codes. If different members of the household claim to belong to different religions, the religion of the head of the household will be considered as the religion of the household.

Social group (B3_q6)

File: Block-3-Household-characteristics-records

Overview

Type: Discrete

Valid cases: 59153

Format: character

Invalid: 0

Width: 1

Interviewer instructions

Whether or not the household belongs to scheduled tribe, scheduled caste or other backward class will be indicated against this item in terms of the specified codes

Land possessed (B3_q7)

File: Block-3-Household-characteristics-records

Overview

Type: Discrete

Valid cases: 59053

Format: character

Invalid: 0

Width: 2

Interviewer instructions

Land possessed is given by land owned (including land under 'owner like possession') + land leased in - land leased out + land held by the household but neither owned nor leased in (e.g. encroached land). The land area possessed by the household as on the date of survey will be worked out in hectare and the relevant code is to be recorded against this item .

MPCE(Rs) (B3_q8)

File: Block-3-Household-characteristics-records

Overview

Type: Continuous

Valid cases: 59159

Format: numeric

Invalid: 0

Width: 8

Minimum: 0

Decimals: 0

Maximum: 15016688

Range: 0-15016688

Mean: 4096.2

Standard deviation: 63305.1

Interviewer instructions

This item will be copied from item 40 of block 8.

Relation to head (B4_c3)

File: Block-4-Demographic-usual- activity-members-records

Overview

Type: Discrete
Format: character
Width: 1

Valid cases: 303828
Invalid: 0

Interviewer instructions

The family relationship of each member of the household with the head of the household (for the head, the relationship is 'self') expressed in terms of specified codes will be recorded in this column.

Sex (B4_c4)

File: Block-4-Demographic-usual- activity-members-records

Overview

Type: Discrete
Format: character
Width: 1

Valid cases: 303828
Invalid: 0

Interviewer instructions

For each and every member of the household, sex in terms of the code (male-1, female-2) will be recorded in this column. For eunuch, code '1' will be recorded.

Age (B4_c5)

File: Block-4-Demographic-usual- activity-members-records

Overview

Type: Continuous
Format: numeric
Width: 3
Decimals: 0
Range: 0-810

Valid cases: 303828
Invalid: 0
Minimum: 0
Maximum: 810
Mean: 26.8
Standard deviation: 18.8

Interviewer instructions

The age in completed years of all the members listed will be ascertained and recorded in column (5). For infants below one year of age at the time of listing, '0' will be entered in column (5). Similarly, for persons of age 99 years or more, 99 will be entered in this column.

Marital status (B4_c6)

File: Block-4-Demographic-usual- activity-members-records

Overview

Type: Discrete
Format: character
Width: 1

Valid cases: 303797
Invalid: 0

Marital status (B4_c6)

File: Block-4-Demographic-usual- activity-members-records

Interviewer instructions

The marital status of each member will be recorded in this column in codes.

General education (B4_c7)

File: Block-4-Demographic-usual- activity-members-records

Overview

Type: Discrete	Valid cases: 303671
Format: character	Invalid: 0
Width: 2	

Interviewer instructions

the highest level of general education of the members will be recorded in codes

Technical Education (B4_c8)

File: Block-4-Demographic-usual- activity-members-records

Overview

Type: Discrete	Valid cases: 299247
Format: character	Invalid: 0
Width: 1	

Interviewer instructions

technical education standard achieved by the members of the household will be recorded in one of the following codes:

Usual activity-principal status (B4_c9)

File: Block-4-Demographic-usual- activity-members-records

Overview

Type: Discrete	Valid cases: 303828
Format: character	Invalid: 0
Width: 2	

Interviewer instructions

For each of the members, the usual principal activity status will be recorded in this column. In the first instance, the broad usual principal activity of the person will be identified based on the various activities pursued by the person during the reference period of last 365 days adopting a 'relatively long time (or major time)' criterion, not necessarily for a continuous period. The broad usual principal activity status will be one of the three categories viz. 'employed' (working), 'unemployed' (available for work) or 'not in labour force' (neither working nor available for work). It is to be noted that in deciding this, only the normal working hours available for pursuing various activities need to be considered, and not the 24 hours of a day.

Usual activity-NIC-98 code (B4_c10)

File: Block-4-Demographic-usual- activity-members-records

Overview

Type: Discrete	Valid cases: 109645
Format: character	Invalid: 0
Width: 5	

Interviewer instructions

Usual activity-NIC-98 code (B4_c10)

File: Block-4-Demographic-usual- activity-members-records

Columns (10) and (11) will be filled-in for those who are 'working' i.e. those with any one of codes 11, 12, 21, 31, 41, or 51 in column (9). The corresponding 5 digit industry code (NIC-98) and the 3 digit occupation code (NCO-68) will be entered in columns (10) and (11), respectively. In case two or more industry-occupation combinations corresponding to the status code given in column (9) have been reported by a person, the principal industry-occupation will be the one in which relatively more time has been spent during the preceding 365 days by the person.

Interviewer instructions

For each member of the household listed in this block, it has to be ascertained whether he/she worked in a subsidiary capacity during the 365 days preceding the date of survey or in other words if he had any subsidiary economic status. Code 1 or 2 will be recorded accordingly.

Subsidiary status (B4_c13)

File: Block-4-Demographic-usual- activity-members-records

Overview

Type: Discrete

Format: character

Width: 2

Valid cases: 36420

Invalid: 0

Interviewer instructions

For all persons engaged in any 'work' in subsidiary capacity, i.e., for those with code 1 in column 12, the status codes of the economic activities pursued by them in their subsidiary capacity will be recorded in column(13). Activity status codes 11, 12, 21, 31, 41 and 51 relate to economic activity and only these codes are applicable for column (13).

Width: 2	

Literal question

Industry division (2 digit code, NIC-98)

Interviewer instructions

For each status code grouped under the activity category 'working' (i.e., for the status codes 11-72 recorded in column 4), the 2- digit NIC- 98 code will be entered in column (5) in terms of the specified code numbers.

Operation (B5_c6)

File: Block-5-Members-time-disposition-records

Overview

Type: Discrete	Valid cases: 88015
Format: character	Invalid: 0
Width: 2	

Interviewer instructions

This column will be filled in for persons belonging to the rural households only. The actual working operation performed by the persons relevant to the status codes grouped under the activity category working (i.e., status codes 11-72) will be entered in terms of code numbers in this column. It may be noted that for regular salaried/wage employees on leave or holiday, the 'operation' will relate to their respective function in the work or job from which he is temporarily off in view of his taking leave or holiday. Similarly for persons categorised 'self-employed' (status codes 11, 12 & 21) if they are not at work on a particular day inspite of their having work on that day, operation to be recorded will relate to the work they would have done if they had not enjoyed leisure on that day.

Intensity- 7th day (B5_c7)

File: Block-5-Members-time-disposition-records

Overview

Type: Continuous	Valid cases: 313795
Format: numeric	Invalid: 33375
Width: 3	Minimum: 0
Decimals: 1	Maximum: 1
Range: 0-1	Mean: 1
	Standard deviation: 0.1

Interviewer instructions

Intensity of activity: For each activity recorded in column (3), the intensity with which the particular activity is performed on the different days of the reference week will be recorded in quantitative terms 'half' or 'full' in these columns. For each activity listed in column (3) either one 'full' intensity or two 'half' intensity may be assigned to a person on any one of the seven days of the reference week. For a particular activity, the recording of entries in columns (7) - (13) should start from column (7) which is provided for recording the intensity of that activity on the seventh day of the reference week, i.e., the day preceding the date of survey. Similarly, the intensity of that activity on the sixth, fifth and earlier days of the week will be recorded in columns (8), (9), (10), (11), (12) and (13) respectively. If the intensity of an activity is 'full' on a particular day, '1.0' will be recorded in the relevant column. On the other hand, if the intensity is 'half', the entry will be '0.5'. If that particular activity is not pursued on some other days of the reference week, the corresponding columns provided in the block for those days will be left blank against that activity. Thus, for each day, for a person, there will be either only one entry with intensity 1.0 in any one of the lines or two entries with intensity 0.5 each in any two of the lines.

Total no. of days in each activity (B5_c14)

File: Block-5-Members-time-disposition-records

Overview

Type: Continuous	Valid cases: 347169
Format: numeric	Invalid: 1
Width: 3	Minimum: 0
Decimals: 1	Maximum: 7
Range: 0-7	Mean: 6.1
	Standard deviation: 1.7

Interviewer instructions

The number of days for which a particular activity was pursued during the seven days, i.e., the total of columns (7) to (13) will be recorded in one place of decimal in column (14) separately for each activity listed in column (3). It may be noted that the total number of days for all the activities taken together should always be 7.0 for each individual entered in column (1).

Wage & Salary Earnings-Cash (B5_c15)

File: Block-5-Members-time-disposition-records

Overview

Type: Continuous	Valid cases: 45133
Format: numeric	Invalid: 302037
Width: 5	Minimum: 0
Decimals: 0	Maximum: 50400
Range: 0-50400	Mean: 702.1
	Standard deviation: 938.5

Interviewer instructions

Wage and salary earnings (received or receivable) for the work done during the week (Rs): The wage and salary earnings (not total earnings) receivable for the wage/salaried work done during the reference week, separately for each of the relevant activities pursued by each person, will be recorded in these columns. The wage and salary earnings are collected for regular salaried/wage employees and casual wage labours, the relevant status codes for which wages & salary are to be recorded are 31, 41, 51, 71 and 72. The wages and salaries receivable for the work done during the reference week may be already received or may still be due to be received in cash or in kind or partly in case and partly in kind. The total wage or salary receivable for the week in cash will be recorded in column (15) and the value (evaluated at the current retail price) of salary or wages in kind receivable for the week will be recorded in column (16). The total of columns (15) and (16) will be entered in column (17). The entries for all these columns will be made in whole rupees. For recording the wages or salaries, amount receivable as 'overtime' for the additional work done beyond normal working time will be included. Bonus (expected or paid) and perquisites evaluated at retail prices duly apportioned for the reference week, will be considered as wages and included for making entries in these columns. For the activity status '71' and '72', the amount receivable for the week will be worked out on the basis of the number of days reported under the activity during the week.

Overview

Type: Discrete	Valid cases: 6540
Format: numeric	Invalid: 248
Width: 1	
Decimals: 0	
Range: 1-8	

Interviewer instructions

The spell of unemployment means the continuous period for which the person remains unemployed. The present spell will, therefore, refer to the period starting from the day the person became unemployed to the survey date. In the case of persons who are first entrants to the labour force, the present spell will be equal to the entire length of unemployment starting from the day such person joins the labour force, i.e., the day since when he/she was seeking/available for work. For those who had any previous employment, the present spell will be the period starting from the day they were seeking or available for work after losing their last employment to the survey date. The spell will be recorded in terms of codes

Width: 1	

Interviewer instructions

The purpose of this item is to separate first time job seekers from persons who worked sometime in the past but are now unemployed. As the subsequent columns will be used to record the details of last employment, this last employment will mean having more or less regular work for at least for some time in the past. Thus, among the unemployed, those who had more or less regular work at least for sometime in the past according to either the usual principal activity status or the usual subsidiary economic activity status will be given code 1 in column (4).

Last employment- Duration (B6_c5)

File: Block-6-unemployed-persons-records

Overview

Type: Discrete	Valid cases: 2712
Format: numeric	Invalid: 4076
Width: 1	
Decimals: 0	
Range: 0-8	

Interviewer instructions

particulars of last employment: Columns (5) to (9) will be used to record the particulars of the last employment of those who had some employment in the past, i.e. entry 1 in column (4).
The duration of last employment will be recorded in codes

Last employment- Status (B6_c6)

File: Block-6-unemployed-persons-records

Overview

Type: Discrete	Valid cases: 2728
Format: character	Invalid: 0
Width: 2	

Interviewer instructions

Status refers to the status of job like self-employment, casual labour, etc. and the codes used for usual status relating to employment (i.e. codes 11-51) only will be applicable
Also see c5

Last employment- NIC-98 (B6_c7)

File: Block-6-unemployed-persons-records

Overview

Type: Discrete	Valid cases: 2670
Format: character	Invalid: 0
Width: 5	

Interviewer instructions

5 digit industry code as per NIC-98 and 3 digit occupation code as per NCO-68, respectively, applicable to the last employment will be entered in column.
Also see c5

Whether received any formal vocational training:

Interviewer instructions

If the member has received any formal vocational training then code will be 1; otherwise code will be 2.

Srl. No. of training (B7_c9)

File: Block-7-members-vocational-training-records

Overview

Type: Discrete

Format: character

Width: 1

Valid cases: 60225

Invalid: 0

Interviewer instructions

If code in column 8 is 1 then in column (9) serial number of training received will be entered. It may happen that the same member may have received more than one vocational training. If only one training is received then 1 will be entered in column (9) and the particulars of the training will be entered in columns (10) to (15). If the member has received more than one vocational training then in column (9) the serial numbers will be entered starting from 1 for all the trainings received. However, in such cases, in respect of serial number of training 1, columns 1 to 8 will be filled up and cross mark (x) may be put in columns (1) to (8) for serial number of trainings 2 and above. If more than 4 trainings are to be recorded in a household, then additional sheets of block 7 may be used. These sheets should be firmly stapled with the main schedule at the appropriate place.

Field of training (B7_c10)

File: Block-8-Household-consumer-expenditure-records

Overview

Type: Discrete	Valid cases: 1520090
Format: character	Invalid: 0
Width: 2	

Interviewer instructions

The items of consumption have been classified into four groups and three different approaches viz (i) consumption approach, (ii) expenditure approach and (iii) first-use approach, are followed for defining consumption of items. A household procures different items for its consumption by different ways. The different ways of collecting items of consumption are:

- 1) purchase;
- 2) receipt in exchange of goods and services;
- 3) home-grown/home-produced stock;
- 4) transfer receipts such as gifts, loans, charities, etc., and
- 5) free collection

Value of consumption-last 30 days (B8_c3)

Decimals: 0	Maximum: 15016688
Range: 0-15016688	Mean: 600
	Standard deviation: 24766.3

Description

Household consumer expenditure is the sum total of monetary values of all goods and services consumed (out of purchase or procured otherwise) by the household on domestic account during a specific reference period.

Interviewer instructions

If an item is purchased and consumed by a household, the value of consumption can be taken as its purchase value. But, the value of an item consumed out of commodities received in exchange of goods and services, home-grown/home-produced stock, transfer receipts or free collection requires imputation.

Value of consumption-last 365 days (B8_c4)
